Policy and procedures implementation and review policy

Objectives

We adhere to and implement operational policies and procedures by:

- ensuring that all members of staff are aware of their role and responsibility in policy and procedure implementation
- ensuring that members of staff are aware of the content of the policies and procedures through:
 - induction
 - line management and staff meetings and training events
 - contributing feedback to procedure review
 - use of relevant publications
- Staff are aware of their duty to adhere to the operational policies and procedures and how they contribute to a consistent approach throughout the organisation.

Legal references

Childcare Act (2006)

Education Act (2011)

We have one set of policies and procedures which are consistent across our provision and in line with the current EYFS requirements.

- Policies and procedures are written and reviewed annually.
- Changes are only made to the policies and procedures by the Committee in liaison with the setting manager where risk assessment has indicated that this is required.
- Policies and procedures are risk assessed and reviewed following any incident that is reportable under RIDDOR.
- Disciplinary action may be taken where individuals have disregarded policies and procedures.

Familiarisation and implementation

- It is the responsibility of every member of staff, volunteer and student within the setting to adhere to and always implement the policies and procedures.
- The setting manager offers advice and support to staff regarding procedure implementation.
- An overview of policies and procedures is included in induction for individual members of staff, with specific emphasis given to safeguarding procedures.

- Members of staff must sign to say that they are aware of and will adhere to the current policies and procedures.
- Members of staff understand that they must refer to the procedures as they support all aspects of their work within the setting.
- Staff meetings and in-house training events are used as opportunities to focus on procedures as required, and to discuss their implementation.
- Where there is an outbreak of a communicable disease or infection, the relevant procedure is photocopied and displayed for parents' reference during the outbreak.
- Other procedures may be displayed where a situation arises, for example to highlight health and safety concerns such as closing the gate.
- Following implementation of a procedure, such as emergency evacuation or other health and safety procedures, the setting manager will conduct a review as follows:
 - did all members of staff follow the procedure?
 - is further training required on any aspect of implementation?
 - did the procedure fit the circumstance; does it need adapting or changing?

Parents

- Parents know how to access a full set of policies and procedures.

Parent forums are used as opportunities to explain and discuss the implementation of the policies and procedures.

Willaston Pre-school's Early Years Prospectus for Parents

St Johns Methodist Church Hall, Wybunbury Rd, Willaston, CW5 7JF

Tel: 01270 567431 Email: willastonpreschool@gmail.com

Welcome to Willaston Pre-school and thank you for registering your child with us. We know how important your child is and aim to deliver the highest quality of care and education to help them to achieve their best.

This prospectus aims to provide you with an introduction to Willaston Pre-school, our routines, our approach to supporting your child's learning and development and how we aim to work together with you to best meet your child's individual needs. This should be read alongside our Childcare Terms and Conditions for a full description of our services.

Our setting aims to:

- provide high quality care and education for children below statutory school age;
- work in partnership with parents to help children to learn and develop;
- add to the life and well-being of the local community; and
- offer children and their parents a service that promotes equality and values diversity.

Parents

You are regarded as members of our setting who have full participatory rights. These include a right to be:

- valued and respected;
- kept informed;
- consulted;
- involved; and
- included at all levels.

Children's development and learning

We aim to ensure that each child:

- is in a safe and stimulating environment;
- is given generous care and attention, because of our ratio of qualified staff to children, as well as volunteer helpers;
- has the chance to join in with other children and adults to live, play, work and learn together;
- is helped to take forward her/his learning and development by being helped to build on what she/he already knows and can do;
- has a personal key person who makes sure each child makes satisfying progress;
- is in a setting that sees parents as partners in helping each child to learn and develop; and
- is in a setting in which parents help to shape the service it offers.

The Early Years Foundation Stage

Provision for the development and learning of children from birth to 5 years is guided by the Early Years Foundation Stage. our provision reflects the four overarching principles of the *Statutory Framework for the Early Years Foundation Stage* (DfE 2025)

- *A Unique Child*
Every child is a unique child who is constantly learning and can be resilient, capable, confident and self-assured.
- *Positive Relationships*
- Children learn to be strong and independent through positive relationships.
- *Enabling Environments*
Children learn and develop well in enabling environments with teaching and support from adults, who respond to their individual interests and needs and help them to build their learning over time. Children benefit from a strong partnership between practitioners and parents and/or carers.

Learning and Development

Children develop and learn in different ways and at different rates. The framework covers the education and care of all children in early years provision including children with special educational needs and disabilities.

How we provide for development and learning

Children start to learn about the world around them from the moment they are born. The care and education offered by our setting helps children to continue to do this by providing all of the children with interesting activities that are appropriate for their age and stage of development.

The Areas of Development and Learning comprise:

- *Prime Areas*
 - Personal, social and emotional development.
 - Physical development.
 - Communication and language.
- *Specific Areas*
 - Literacy.
 - Mathematics.
 - Understanding the world.
 - Expressive arts and design.

For each area, the level of progress that children are expected to have attained by the end of the Early Years Foundation Stage is defined by the Early Learning Goals. These goals state what it is expected that children will know, and be able to do, by the end of the reception year of their education.

We refer to non-statutory curriculum guidance to support our professional judgment as we assess each child's progress and level of development as they progress towards the Early Learning Goals. We have regard to these when we assess children and plan for their learning by creating a curriculum that is ambitious and meets every child's needs. Our educational programmes support children to develop the knowledge, skills and understanding they need for:

Personal, social and emotional development

Children's personal, social and emotional development (PSED) is crucial for children to lead healthy and happy lives, and is fundamental to their cognitive development. Underpinning their personal development are the important attachments that shape their social world. Strong, warm and supportive relationships with adults enable children to learn how to understand their own feelings and those of others. Children should be supported to manage emotions, develop a positive sense of self, set themselves simple goals, have confidence in their own abilities, to persist and wait for what they want and direct attention as necessary. Through adult modelling and guidance, they will learn how to look after their bodies, including healthy eating, and manage personal needs independently. Through supported interaction with other children, they learn how to make good friendships, co-operate and resolve conflicts peaceably. These attributes will provide a secure platform from which children can achieve at school and in later life.

Physical development

Physical activity is vital in children's all-round development, enabling them to pursue happy, healthy and active lives⁶. Gross and fine motor experiences develop incrementally throughout early childhood, starting with sensory explorations and the development of a child's strength, co-ordination and positional awareness through tummy time, crawling and play movement with both objects and adults. By creating games and providing opportunities for play both indoors and outdoors, adults can support children to develop their core strength, stability, balance, spatial awareness, co-ordination and agility. Gross motor skills provide the foundation for developing healthy bodies and social and emotional well-being. Fine motor control and precision helps with hand-eye co-ordination, which is later linked to early literacy. Repeated and varied opportunities to explore and play with small world activities, puzzles, arts and crafts and the practice of using small tools, with feedback and support from adults, allow children to develop proficiency, control and confidence.

Communication and language

The development of children's spoken language underpins all seven areas of learning and development. Children's back-and-forth interactions from an early age form the foundations for language and cognitive development. The number and quality of the conversations they have with adults and peers throughout the day in a language-rich environment is crucial. By commenting on what children are interested in or doing, and echoing back what they say with new vocabulary added, practitioners will build children's language effectively. Reading frequently to children, and engaging them actively in stories, non-fiction, rhymes and poems, and then providing them with extensive opportunities to use and embed new words in a range of contexts, will give children the opportunity to thrive. Through conversation, storytelling and role play, where children share their ideas with support and modelling from their teacher, and sensitive questioning that invites them to elaborate, children become comfortable using a rich range of vocabulary and language structures

Literacy

It is crucial for children to develop a life-long love of reading. Reading consists of two dimensions: language comprehension and word reading. Language comprehension (necessary for both reading and writing) starts from birth. It only develops when adults talk with children about the world around them and the books (stories and non-fiction) they read with them, and enjoy rhymes, poems and songs together. Skilled word reading, taught later, involves both the speedy working out of the pronunciation of unfamiliar printed words (decoding) and the speedy recognition of familiar printed words. Writing involves transcription (spelling and handwriting) and composition (articulating ideas and structuring them in speech, before writing).

Mathematics

Developing a strong grounding in number is essential so that all children develop the necessary building blocks to excel mathematically. Children should be able to count confidently, develop a deep understanding of the numbers to 10, the relationships between them and the patterns within those numbers. By providing frequent and varied opportunities to build and apply this understanding - such as using manipulatives, including small pebbles and tens frames for organising counting - children will develop a secure base of knowledge and vocabulary from which mastery of mathematics is built. In addition, it is important that the curriculum includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures. It is important that children develop positive attitudes and interests in mathematics, look for patterns and relationships, spot connections, 'have a go', talk to adults and peers about what they notice and not be afraid to make mistakes.

Understanding the world

Understanding the world involves guiding children to make sense of their physical world and their community. The frequency and range of children's personal experiences increases their knowledge and sense of the world around them – from visiting parks, libraries and museums to meeting important members of society such as police officers, nurses and firefighters. In addition, listening to a broad selection of stories, non-fiction, rhymes and poems will foster their understanding of our culturally, socially, technologically and ecologically diverse world. As well as building important knowledge, this extends their familiarity with words that support understanding across domains. Enriching and widening children's vocabulary will support later reading comprehension.

We aim to make the children feel like part of the community through links with Richmond village and local businesses, encouraging them to care about Willaston Village and involvement with seasonal activities such as remembrance day and Christmas.

Expressive arts and design

The development of children's artistic and cultural awareness supports their imagination and creativity. It is important that children have regular opportunities to engage with the arts, enabling them to explore and play with a wide range of media and materials. The quality and variety of what children see, hear and participate in is crucial for developing their understanding, self-expression, vocabulary and ability to communicate through the arts. The frequency, repetition and depth of their experiences are fundamental to their progress in interpreting and appreciating what they hear, respond to and observe.

Our approach to learning and development and assessment

Learning through play

Being active and playing supports young children's learning and development through doing and talking. This is how children learn to think about and understand the world around them. We use the EYFS statutory guidance on education programmes to plan and provide opportunities which will help children to make progress in all areas of learning. This programme is made up of a mixture of activities that children plan and organise for themselves and activities planned and led by educators.

We have written a curriculum to reflect the needs of the children who attend.

Characteristics of effective learning

We understand that all children engage with other people and their environment through the characteristics of effective learning that are described in the Early Years Foundation Stage as:

- playing and exploring - engagement;
- active learning - motivation; and
- creating and thinking critically – thinking.

We aim to provide a learning environment that allows for a wide range of learning styles and encourage children, through questioning and support, to practise and develop effective learning in all areas.

Assessment

We assess how young children are learning and developing by observing them frequently. We use information that we gain from observations, as well as from photographs or videos of the children, to document their progress and influence our planning. We believe that parents know their children best and we will ask you to contribute to assessment by sharing information about what your child likes to do at home and how you, as parents, are supporting development.

We make periodic assessment summaries of children's achievement based on our on-going development records. These form part of children's records of achievement. We undertake these assessment summaries at regular intervals, as well as times of transition, such as when a child moves into a different group or when they go on to school.

The progress check at age two

The Early Years Foundation Stage requires that we supply parents and carers with a short written summary of their child's development in the three prime areas of learning and development - personal, social and emotional development; physical development; and communication and language - when a child is aged between 24 - 36 months. Your child's key person is responsible for completing the check using information from on-going observational assessments carried out as part of our everyday practice, taking account of the views and contributions of parents and other professionals.

Records of achievement

We keep an electronic learning journey profile for each child. Your child's profile helps us to celebrate together her/his achievements and to work together to provide what your child needs for her/his well-being and to make progress. The observations and learning of the children are shared with Parents twice per half term.

Your child's key person will work in partnership with you to keep this record. To do this you and she/he will collect information about your child's needs, activities, interests and achievements. This

information will enable the key person to identify your child's stage of progress. Together, we will then decide on how to help your child to move on to the next stage.

Working together for your children

We maintain the ratio of adults to children in the setting that is set by the Safeguarding and Welfare Requirements. we also have volunteer parent helpers, where possible, to complement these ratios.

This helps us/me to:

- give time and attention to each child;
- talk with the children about their interests and activities;
- help children to experience and benefit from the activities we provide; and
- allow the children to explore and be adventurous in safety.

The staff who work at our setting are:

We are open for 38 weeks each year.

We are closed 14 weeks each year

We are open for 5 days each week

The times we are open are 7.30am to 5.30pm

We provide care and education for young children between the ages of: 2 and 5 Years

How parents take part in the setting

Our setting recognises parents as the first and most important educators of their children. All of our staff see themselves as partners with parents in providing care and education for their children.

There are many ways in which parents take part in making our setting a welcoming and stimulating place for children and parents, such as:

- exchanging knowledge about their children's needs, activities, interests and progress with our staff;
- contributing to the progress check at age two;
- helping at sessions of the setting;
- sharing their own special interests and skills with the children;
- helping to provide and look after the equipment and materials used in the children's play activities;
- being part of the management of the setting where appropriate;
- taking part in events and informal discussions about the activities and curriculum provided by the setting;
- joining in community activities, in which the setting takes part; and
- building friendships with other parents in the setting.

Joining in

Our setting welcomes parents if they would like to help at a particular session or sessions of the setting. Helping at the session enables parents to see what the day-to-day life of our setting is like and to join in helping the children to get the best out of their activities.

Parents can also offer to take part in a session by sharing their own interests and skills with the children. We welcome parents to drop into the setting to see it at work or to speak with the staff/me.

Key person and your child

Our setting uses a key person approach. This means that each member of staff has a group of children for whom she/he is particularly responsible. Your child's key person will be the person who works with you to make sure that the childcare and early education that we provide is right for your child's particular needs and interests. When your child first starts at the setting, she/he will help your child to settle and throughout your child's time at the setting, she/he will help your child to benefit from our activities.

Learning opportunities for adults

As well as gaining childcare and early education qualifications, our staff take part in further training to help them to keep up-to date with thinking about early years care and education. We also keep up-to-date with best practice, as a member of the Pre-school Learning Alliance, through *Under 5* magazine and other publications produced by the Alliance. Staff attend regular training sessions run by Cheshire East and have access to online training for their continual professional development.

The setting's timetable and routines

Our setting believes that care and education are equally important in the experience which we offer children. The routines and activities that make up the day in our setting are provided in ways that:

- help each child to feel that she/he is a valued member of the setting;
- ensure the safety of each child;
- help children to gain from the social experience of being part of a group; and
- provide children with opportunities to learn and help them to value learning.

The session

We organise our sessions so that the children can choose from, and work at, a range of activities and, in doing so, build up their ability to select and work through a task to its completion. The children are also helped and encouraged to take part in adult-led small and large group activities, which introduce them to new experiences and help them to gain new skills, as well as helping them to learn to work with others. Outdoor activities contribute to children's health, their physical

development and their knowledge of the world around them. The children have the opportunity, and are encouraged, to take part in outdoor child-chosen and adult-led activities, as well as those provided in the indoor playrooms.

Snacks and meals

We make snacks and meals a social time at which children and adults eat together. We plan the menus for snacks and meals so that they provide the children with healthy and nutritious food. Please tell us about your child's dietary needs and we will plan accordingly. A list of our snack food and hot lunch menus with associated allergens are available from our website.

In line with government policy we have removed most sugars from the children's snacks and meals and ask that, if you are providing a lunch for your child, you only include fructose (fruit) and not other sugary substances and no nuts.

Clothing

We provide protective clothing for the children when they play with messy activities but ask that you are tolerant of their clothes getting dirty through play. We encourage children to gain the skills that help them to be independent and look after themselves. These include taking themselves to the toilet and taking off, and putting on, outdoor clothes. Clothing that is easy for them to manage will help them to do this.

Policies

Our staff can explain our policies and procedures to you. Copies of which are available in the main hall and on our website.

Our policies help us to make sure that the service provided by our setting is a high quality one and that being a member of the setting is an enjoyable and beneficial experience for each child and her/his parents.

Our staff and parents work together to adopt the policies and they all have the opportunity to take part in the annual review of the policies. This review helps us to make sure that the policies are enabling our setting to provide a quality service for its members and the local community.

Information we hold about you and your child

We have procedures in place for the recording and sharing of information [data] about you and your child that is compliant with the principles of the General Data Protection Regulations (2018) as follows:

The data is we collect is

1. Processed fairly, lawfully and in a transparent manner in relation to the data subject [you and your family]
2. Collected for specified, explicit and legitimate purposes and not further processed for other purposes incompatible with those purposes.
3. Adequate, relevant and limited to what is necessary in relation to the purposes for which data is processed.
4. Accurate and, where necessary, kept up to date.
5. Kept in a form that permits identification of data subjects [you and your family] for no longer than is necessary for the purposes for which the personal data is processed.
6. Processed in a way that ensures appropriate security of the personal data including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

When you register your child with us we will provide you with a privacy notice that gives you further details of how we fulfil our obligations with regard to your data.

Safeguarding children (See separate policy for more information)

Our setting has a duty under the law to help safeguard children against suspected or actual 'significant harm'. Our employment practices ensure children against the likelihood of abuse in our setting and we have a procedure for managing complaints or allegations against a member of staff.

Our way of working with children and their parents ensures that we are aware of any problems that may emerge and can offer support, including referral to appropriate agencies when necessary, to help families in difficulty.

Special needs (See SEND policy for more information)

To make sure that our provision meets the needs of each individual child, we take account of any special needs a child may have. we work to the requirements of the Special Educational Needs and Disability Code of Practice: 0 to 25 years (2015).

The management of our setting

Our setting is a charity and as such is managed by a volunteer management committee - whose members are elected by the parents of the children who attend our setting. The elections take place at our Annual General Meeting. The committee make up the registered person with Ofsted and are responsible for:

- managing our finances;
- employing and managing our staff;
- making sure that we have, and work to, policies that help us to provide a high quality service; and
- making sure that we work in partnership with parents.

The Annual General Meeting is open to the parents of all of the children who attend our setting. It is our shared forum for looking back over the previous year's activities and shaping the coming year's plan.

Fees

The fees are advertised on our website and payable half-termly in advance by the date shown on the invoice. Fees must still be paid if children are absent without notice for a short period of time. If your child has to be absent over a long period of time, talk to our administrator.

For your child to keep her/his place at our setting, you must pay the fees. We are in receipt of nursery education funding for two, three and four year olds; where funding is not received, then fees apply.

Starting at our setting

The first days

We want your child to feel happy and safe with us. To make sure that this is the case our staff will work with you to decide on how to help your child to settle into the setting. Our policy on the Role of the Key Person and Settling-in is enclosed with this prospectus, or is available from our manager.

We hope that you and your child enjoy being members of our setting and that you both find taking part in our activities interesting and stimulating. Our staff are always ready and willing to talk with you about your ideas, views or questions.

Admissions

We aim to ensure that all sections of the community receive accessible information, and that our admissions procedures are fair, clear and open to all parents who apply for a place.

- The setting is widely advertised in places accessible to all sections of the community.
- Information about the setting is accessible, using plain English, in written and spoken form and, where appropriate, provided in different community languages and in other formats on request.
- Children with disabilities are supported to take full part in all activities within the setting and the setting makes reasonable adjustments to ensure that this will be the case from the time the child is placed on the waiting list.
- The waiting list is arranged in birth order and in addition may take into account the following:
 - the age of the child with priority being given to children eligible for the free entitlement
 - length of time on the waiting list
 - the vicinity of the home to the setting
 - siblings already attending the setting
 - the capacity of the setting to meet the individual needs of the child
- Funded places are offered in accordance with the Early Years Entitlements: Operational Guidance for local authorities and providers (DfE 2018) and any local conditions in place at the time,
- Where it is financially viable to do so, a place is kept vacant for an emergency admission.
- The setting and its practices are welcoming and make it clear that fathers, mothers, other relations and carers and childminders are all welcome.
- The setting and its practices operate in a way that encourages positive regard for and understanding of difference and ability, whether gender, family structure, class, background, religion, ethnicity or competence in spoken English.
- The needs and individual circumstances of children joining the setting are monitored on the Childcare registration form, to ensure that no accidental or unintentional discrimination is taking place and that reasonable adjustments are made as required.
- Section 05 Equality procedures is shared and widely promoted to all.
- Places are provided in accordance with the Childcare terms and conditions issued to every parent when the child takes up their place. Failure to comply may result in the provision of a place being withdrawn.

Admissions

- Once a childcare and early education place has been offered the relevant paperwork is completed by the setting manager or deputy before the child starts and filed on the child's personal file. Forms completed include:
 - Privacy notice - explains what personal data we collect, why we collect it, how we use it, the control parent/carers have over their personal data and the procedures we have in place to protect it.
 - Childcare terms and conditions - govern the basis by which we provide childcare.
 - Childcare registration form - contains personal information about the child and family that must be completed in full prior to the child commencing.

Children with SEND

- The manager must seek to determine an accurate assessment of a child's needs at registration. If the child's needs cannot be met from within the setting's core budget, then an application for SEN inclusion funding must be made immediately.
- Children with identified SEND must be offered a place when one becomes available as with any other child. However, the start date for children with more complex SEND will be determined by the preparations made to ensure the child's safety, well-being and accessibility in the setting. If a child's needs determine that adjustments need to be made, the manager must outline a realistic timeframe for completion, detailing the nature of adjustments e.g. risk assessment, staff training, health care plan and all other adjustments required. The child's safety at all times is paramount.
- At the time of registration, the manager must check to see if a child's family is in receipt of Disability Living Allowance, if so, the manager must ask for evidence to enable them to claim the Disability Access Fund directly from the local authority. If the family is eligible but not in receipt of the allowance, the setting manager will support the family in their application. More information can be found at www.gov.uk/disability-living-allowance-children/how-to-claim.
- Preparation for admitting a child with SEND must be made in a reasonable amount of time and any delay in the child starting is scrutinised by the setting manager to avoid discrimination and negative impact on the child and family. During a preparation period the family and relevant agencies and the local authority must be regularly updated on the progress of the preparations.

Safeguarding/child protection

If information is provided by the parents that a child who is starting at the setting is currently, or has had involvement with social care, the designated person will contact the agency to seek further clarification.

Parents are advised on how to access the setting's policies and procedures.

Further guidance

Early Years Entitlements: Operational guidance for local authorities and providers (DfE 2018)

Childcare and Early Education Practice

Aim

Children are safe, happy, and eager to participate and to learn.

Objectives

- Young children need to form a secure attachment to their key person when they join the setting to feel safe, happy and eager to participate and learn. It is their *entitlement* to be settled comfortably into a new environment.
- The needs of part-time children are considered.
- There is a procedure for when children do not settle and for prolonged absences.
- Introductions and induction of the parent is carried out before children start.
- *Prime times* of the day make the very best of routine opportunities to promote 'tuning-in' to the child emotionally and create opportunities for learning. We actively promote British values, inclusion, equality of opportunity and the valuing of diversity.
- We operate a positive behaviour management approach. Behaviour management procedures cover how staff should respond to all aspects of behaviour, including children who exhibit challenging behaviour towards other children. These procedures build on the Early Years Alliance's approach to learning based on three key statements.
 1. Learning is a lifelong process, which enables children and adults to contribute to and shape their world.
 2. We want the curriculum we provide to help children to learn to:
 - be confident and independent
 - be aware of and responsive to their feelings
 - make caring and thoughtful relationships with other people
 - become increasingly excited by, interested in, and knowledgeable and questioning about the world around them.
 3. We provide a wide range of interesting child-chosen and adult-initiated activities which:
 - give children opportunities to use all their senses
 - help children of different ages and stages to play together

- help children be the directors of their own learning
- help children develop an inquiring and questioning attitude to the world around them

The *Early Years Foundation Stage* is used as a framework to provide care and learning opportunities for babies and children under two years.

2-5 year olds

- To feel securely settled and ready to learn, children from two to five years need to form attachments with adults who care for them, primarily to a key person, but with other adults and children too. In this way children feel part of a community of learners; they can contribute to that community and receive from it. The three-stage model is applicable, but with some differences in the procedures for children moving up into the next group and for older children.

Waiting list and admissions

Our provision is accessible to children and families from all sections of the local and wider community. We aim to ensure that all sections of the community receive accessible information and that our admissions procedures are fair, clear, and open to all parents who apply for places. The availability of a place at the setting considers staff/child ratios, the age of the child and registration requirements.

- We endeavour to operate in an inclusive manner which enables all children and families to access our services.
- We also have regard for the needs of parents who are:
 - looking to take up work, remain in work or extend their hours of work
 - looking to commence training or education
- We work in partnership with the local authority and other agencies to ensure that our provision is accessible to all sections of the community.
- Services are widely advertised and information is accessible to all sections of the community.
- Where the number of children wanting places exceeds the number of places available a waiting list is operated using clear criteria for allocation of places as detailed in the admissions procedure.

Funded places – free entitlement

All 3- and 4-year-olds in England are entitled to 15 hours free childcare and early education each week for 38 weeks of the year. Some eligible 2 year olds are also entitled. Funded places are offered in accordance with national and local codes of practice and adherence to the relevant Provider Agreement/Contract with the local authority.

Absence

We take steps to ensure that children are kept safe, that their wellbeing is promoted, and that they do not miss out on their entitlements and opportunities. At the very least, good attendance promotes good outcomes for children. In a small minority of cases, good attendance may also lead to early identification of more serious concerns for a child or family.

There are several reasons why a child may be absent from a setting. In most cases it is reasonable to expect that parents/carers alert the setting as soon as possible, or in the case of appointments and holidays give adequate notice. Parents are advised that they should contact the setting within one hour of the time the child would have been expected to advise of their absence. Designated persons must also adhere to Local Safeguarding Partners (LSP) requirements, procedures and contact protocols for children who are absent or missing from childcare and early education.

- If a child who normally attends fails to arrive and no contact has been received from their parents, the designated person, takes immediate action to contact them to seek an explanation for the absence and be assured that the child is safe and well.
- Attempts to contact the child's parents or other named carers continue throughout the day on the first day of absence.
- If no contact is made with the parents and there is no means to verify the reason for the child's absence i.e. through a named contact on the child's registration form, this is recorded as an unexplained absence on the child's personal file and is followed up by the manager each day until contact is made.
- If contact has not been made within three working days, children's services will be contacted for advice about making a referral. Other relevant services maybe contacted as per LSP procedures.
- All absences are recorded on the child's personal file with the reason given for the absence, the expected duration and any follow up action taken or required with timescales.
- Absence records are retained for at least three years, or until the next Ofsted inspection following a cohort of children moving on to school.

If at any time further information comes to light that gives cause for concern, our safeguarding procedures are immediately followed.

Safeguarding vulnerable children

- The designated person or key person attempts to contact the parents to establish why the child is absent. If contact is made and a valid reason given, the information is recorded in the child's file.
- Any relevant professionals involved with the child are informed, e.g. social worker/family support worker.
- If contact is made and the designated person is concerned that the child is at risk, the relevant professionals are contacted immediately. The events, conversation and follow-up actions are recorded. If contact cannot be made, the designated person contacts the relevant professionals and informs them of the situation.
- If the child has current involvement with social care, the social worker is notified on the day of the unexplained absence.
- If at any time information comes to light that gives cause for concern, 06 Safeguarding children, young people and vulnerable adults procedures are followed immediately.

Safeguarding

- If a child misses three consecutive sessions and it has not been possible to make contact, the designated person calls Social Care and makes a referral if advised.
- If there is any cause for concern i.e. the child has a child protection plan in place or there have been previous safeguarding and welfare concerns, the designated person attempts to contact the child's parent/carer immediately. If no contact is made, the child's absence is logged on the Safeguarding incident reporting form, and Social Care are contacted immediately, and safeguarding procedures are followed.

Poor/irregular attendance

Whilst attendance at an early years setting is not mandatory, regular poor attendance may be indicative of safeguarding and welfare concerns that should be followed up.

- In the first instance the setting manager should discuss a child's attendance with their parents to ascertain any potential barriers i.e. transport, working patterns etc and should work with the parent/s to offer support where possible.
- If poor attendance continues and strategies to support are not having an impact, the setting manager must review the situation and decide if a referral to a multi-agency team is appropriate.

- Where there are already safeguarding and welfare concerns about a child or a child protection plan is in place, poor/irregular attendance at the setting is reported to the Social Care worker without delay.

In the case of funded children the local authority may use their discretion, where absence is recurring or for extended periods, taking into account the reason for the absence and impact on the setting. The setting manager is aware of the local authority policy on reclaiming refunds when a child is absent from a setting.

Role of the Key Person

'Each child must be assigned a key person' (EYFS 2021)

Babies and young children need to form a secure attachment to key person when they join the setting to feel safe, happy, and eager to participate and learn.

The key person role

- A key person builds an on-going relationship with the child and his/her parents and is committed to that child's well-being while in the setting.
- Every child that attends is allocated a key person before they begin settling in - it is not the responsibility of the child to choose their own key person.
- Where possible a 'back up' key person is also identified for each child so that they can fulfil the role in the absence of the main key person, for example, during annual leave or sickness.
- The key person conducts the progress check at age two for their key children.
- The role is fully explained to parents on induction and the name of the child's key person and 'back up' key person is recorded on the child's registration form.
- The key person is central to settling a child into the setting. The setting manager and key person explain the need for a settling in process and agree a plan with the parents.
- Shift patterns and staff absence can affect a child who is just settling in; where possible, settling in should be matched to when the key person is on duty.
- The number of children for each key person takes into account the individual needs of children and the capacity of the key person to manage their cohort; it is also influenced by part-time places and part time staff. The setting manager should aim for consistency i.e. matching part-time staff to part-time children; full-time children should not be divided between key persons during the week.
- Photographs of key persons and their key groups are sent electronically to parents.
- The key person spends time daily with his or her key children to ensure their well-being.

Parents

- Key persons are the first point of contact for parents with regard to matters concerning their child and any concerns parents may have are addressed with the key person in the first instance.
- Key persons support parents in their role as the child's first and most enduring educators.

- The key person is responsible for the child's developmental records, completing the progress check at age two along with the 2 year lead, and for sharing information about progress with the child's parents.

Learning and development

- The key person helps to ensure that every child's learning and care is tailored to meet their individual needs. This is achieved through regular observation and assessment of children, using information gathered about their achievements, interests and learning styles to plan for each individual child's learning and development.
- If a child's progress in any of the prime areas gives cause for concern, the key person must discuss this with the setting manager or SENCO and the child's parents.

Prime times

The key person role is explained further in the prime time procedures; the key person also maintains other responsibilities for key children including administering medication and signing accident records.

Back-up key person

- The role of the back-up key person is to step in when the main key person is absent or unavailable to provide a stable and consistent care relationship for the child.
- The back-up key person is identified when the child starts but is not introduced to the child until an attachment is beginning to form with the key person.
- The back-up key person gradually forms a relationship with the child until the child is happy to be cared for by this person.
- The back-up key person shares information with parents in the key person's absence and makes notes in the child's records where appropriate.
- The back-up key person ensures information is shared with the key person.

Safeguarding children

- The key person has a responsibility towards their key children to report any concern about their development, welfare or child protection matter to the setting manager and to follow the procedures in this respect.
- Regular supervision with the setting manager provides further opportunities to discuss the progress and welfare of key children.
- The back-up key person has a duty likewise.

Progress check at age two

- The key person is central to the progress check and must be the person completing it.
- Settings should take guidance from their local authority as to when the progress check at age two is completed; if no such guidance is provided, the progress check is completed when the child is between 26 and 30 months old. The child should be attending the setting for at least 1 term before the check is completed.
- Once the timing of the child's progress check is confirmed, parents are invited to discuss their child's progress at a mutually convenient time.
- The setting must seek to engage both parents and make allowance for parents who do not live with their child to be involved.

Completing the progress check at age two

- On-going observational assessment informs the progress check and must be referred to.
- Children's contributions are included in the report. Staff must be 'tuned in' to the ways in which very young children, or those with speech or other developmental delay or disability, communicate.
- Where any concerns about a child's learning and development are raised these are discussed with the parents, the SENCo/ setting manager.
- If concerns arise about a child's welfare, they must be addressed through 06 Safeguarding children, young people and vulnerable adults procedures.
- The key person must be clear about the aims of the progress check as follows:
 - to review a child's development in the three prime areas of the EYFS
 - to ensure that parents have a clear picture of their child's development
 - to enable educators to understand the child's needs and, with support from educators, enhance development at home
 - note areas where a child is progressing well and identify any areas where progress is less than expected
 - describe actions the provider intends to take to address any developmental concerns (working with other professionals as appropriate)

Prime Times - Settling In and Transitions

To feel securely settled and ready to learn, children need to form attachments with the adults who care for them, primarily a key person, but others too. In this way they feel part of a community; they are able to contribute to that community and receive from it. Very young children, especially two- to three-year-olds, approach separation from their parent with anxieties, older children have a more secure understanding of 'people permanence' and are able to approach new experiences with confidence; but also need time to adjust and feel secure. It is the entitlement of all children to be settled comfortably into a new environment.

We follow a three-stage model of settling in based on three key needs:

1. *Proximity* - Babies and young children feel safest when a familiar adult, such as a parent, is present when they are getting used to a new carer and new surroundings. In this way they can become confident in engaging with those experiences independently later on.
2. *Secure base* – Because the initial need for proximity of the parent has been met, babies and young children gradually begin to feel secure with a key person in a new surrounding so that they are able to participate independently for small periods of time.
3. *Dependency* – Babies and young children are able to separate from parents' and main carers when they have formed a secure attachment to their key person who knows and understands them best and on whom they can depend for their needs to be met.

The setting manager and key person explain the need for settling in and agree a plan with the parents. The keyworker or room lead discuss and review the plan and agree what will happen the next day with the parents.

Settling-in for those with SEND

- If a child has been identified as having SEND then the key person/SENCO and parents will need to identify and address potential barriers to settling in e.g. timings of medication and invasive procedures, specific routines and levels of support.

When a parent is unable or refuses to take part in settling in

- Information about the 'settling in' plan is given at the first visit and the reasons are explained.
- If the parent feels that this will be difficult – perhaps another close relative can come in instead.
- Genuine difficulties need to be handled sensitively, but generally speaking this is not an issue where the parent has a choice not to attend with their child. A parent who refuses to take part in settling in may have the offer of the place withdrawn.

Two-year-olds starting a setting for the first time

- A two-year-old may have little or no experience of group care. As part of gathering information from parents, it is important to find out about the child's experience of non-parental care, for example grandparents, or childminder; this informs staff as to how a child may respond to a new situation.
- The three-stage approach involving *Proximity*, *Secure Base* and *Dependency/Independence* is applied to two-year-olds as to younger children.
- After the induction meeting with the setting manager or deputy and key person, a settling-in plan is drawn up. If necessary, a home visit is carried out for the same purpose.
- To settle in a two-year-old, the setting will go through the same process of gradually increasing the time a child attends with a parent/carer during the proximity stage.
- On the first day, the parent attends with the child, and stays for the morning (less if the child becomes tired). On day two, the parent stays longer and on day three stays until, and including lunch. The parent's are recognised as knowing their child's needs best so their views on transitioning into Pre-school are taken into account.
- It is evident that the child is developing a sense of secure base when he or she shows interest in activities and begins to engage with the key person and other children. Then the parent/ carer may gradually start to spend short periods of time in another room to see how the child responds, this time increases until the child can manage a whole session without the parent. All transitions are done with the individual needs of each child taken into consideration.
- Separation causes anxiety in two-year-olds, as they have no concept of where their parents have gone. Parents should always say goodbye and tell them when they will return. Patience with the process will ensure children are happy and eager to come to play and be cared for in the setting.

Three- and four-year-olds

- Most children of this age can move through the stages more quickly and confidently.
- Some children take longer, and their needs for proximity and secure base stages should be accommodated as much as possible.
- Some children appear to leap to dependency/independence within a couple of days. In most cases, they will revert to the need for proximity and secure base. It can be difficult to progress to true dependency/independence and this can be frustrating.

- After the parent attends for an induction meeting with the setting manager or deputy and key person, (or in some circumstances a home visit), a settling-in plan is discussed.
- On the first day, the parent attends with the child and stays for the morning (less if the child becomes tired), on day two, longer and the next day stays until and including lunch (if full day care).
- If the child shows interest in the activities and is beginning to engage with the key person and other children, the parent spends time in the parent room to see how the child responds.
- Parents are encouraged to explain to their child where they are going, and that they will return.
- If by the fifth day, the child is able to spend more time without the parent, the child may be ready for a short day or session the following week, progressing to a full day or session very soon.

For children whose first language is not English

- For many children learning English as an additional language, the stage of proximity takes longer as the child is dependent upon the parents' input to make sense of what is going on.
- If the parent does not speak English, efforts are made to source an interpreter for induction; it will be helpful for them to see around the setting and be clear about their role in interpreting in the play area.
- The settling-in programme is explained to the parent, and it is emphasised how important it is that they stay with the child and talk to him/her in the home language to be able to explain things.
- Through the interpreter, the key person will try to gauge the child's level of skills in their home language; this will give the key person an idea of the child's interests and levels of understanding.
- The need for the parent to converse in the child's home language is important.
- The key person makes the parent feel welcome using smiles and gestures.
- With the parent, make a list of key words in the child's home language; sometimes it is useful to write the word as you would pronounce it. These words will be used with the child and parents will be addressed with 'hello' and 'goodbye' in their language.
- The key person prepares for the child's visits by having a favourite toy or activity ready for the child to provide a means to interact with the child.

- Children will be spoken to as per any other child, using gestures and facial expressions to help.
- When the child feels happy to spend time with the key person (secure base), the parent should spend time outside of the room.

Progress with settling in will be done as with any other child; it just takes a little longer to reach dependency/independence.

Establishing children's starting points

When children start at the setting they arrive at different levels of learning and development. In order to help them to settle and make rapid progress it is important that they are provided with care and learning opportunities that are suited to their needs, interests and abilities. This means establishing and understanding their starting points and whether there are any obstacles to their learning, so that teaching can be tailored to the 'unique child'.

- The aim of establishing a child's starting points is to ensure that the most appropriate care and learning is provided from the outset.
- Starting points are established by gathering information from the first contact with the child's parents at induction and during the 'settling in' period. Staff do not 'wait and see' how the child is settling before they begin to gather information.
- The key person is responsible for establishing their key children's starting points by gathering information in the following ways:
 - observation of the child during settling in visits
 - discussion with the child's parents
 - building on information that has been gathered during registration by referring to the registration form.
 - A Wellcomm assessment is completed to check what level of understanding the child has and used as a baseline.

The information gathered is recorded within four weeks of the child's official start date and sooner where possible.

- The key person must make a 'best fit' judgment about the age band the child is working in, referring to Development Matters or Birth to Five Matters.
- The key person should complete details by indicating where they have gathered their evidence from, using more than one source where possible i.e. parent comment and observation during settling in.
- The room lead (Caryl Freeman 2 year olds or Jacqueline Piaf 3-4 year olds) will complete a Wellcomm assessment.

If the initial assessment raises any concerns that extra support may be required, the procedure on Identification, assessment and support for children with SEND is followed.

Prime Times - Arrivals and Departures

Prime times of the day make the very best of routine opportunities to promote 'tuning-in' to the child emotionally and to create opportunities for learning. Arrivals and departures are key times in the day when children need support from their carer to make the transition smooth and happy; these times of day also pose a certain level of risk as parents and carers come and go. All staff are aware of the potential risks and take measures to minimise them.

Arrivals

- Whenever possible the key person or back up key person always greets young children. This ensures that young children are received into the setting by a familiar and trusted adult.
- The key person who greets the child marks their presence at the time of arrival in the register.
- If a child who is expected fails to arrive, this is recorded on the child's personal file and the setting manager is immediately notified so that they can contact the child's parents to find out why the child is absent following the Absence procedure.
- The key person greets the parents and takes time to hear information the parents need to share. They inform the parents of aspects of the day, such as if there is an agency member of staff or flexible worker in, which members of staff will be around later when parents collect their child, any planned outings, or special planned event. Any consent forms are signed.
- The key person receives the child physically and tunes in to how he or she is feeling and prepares to meet his/her needs.
- Parents should spend a few minutes with their child and key person before leaving. Many parents will be in a hurry, but this can have an unsettling effect.
- Always ensure that the parents say goodbye to their child and say when they are coming back, such as 'after tea', rather than just 'later'.
- If the member of staff receiving the child is not the key person, the member of staff will hand over the information shared by the parents to the key person when they arrive.

Injuries noted on arrival

- If a child is noted to have visible injuries when they arrive at the setting, our safeguarding procedure is followed.

Changing shifts and handing over information

- When the key person leaves or goes on a break, they handover the care of the child to a 'back-up' key person.
- If someone other than the key person receives the child, he/she will share any information from the parent and write a note for the key person. Confidential information should be shared with the setting manager to pass on.
- The key person shares information with the back-up key person, in this way they ensure that all information is passed on to the parent in the key person's absence.

Departures

- Children are prepared for home, with all items they brought with them.
- The key person always aims to greet parents when they arrive, ensuring that the person who has arrived to collect the child is the parent or has been named by the parent. They hand over the child personally and enter the child's departure in the register.
- Only persons aged over 16 years should normally collect children. If a parent has no alternative, then this is agreed with the setting manager and a risk assessment completed and signed by the parent. In all cases the setting manager will ask the parents to ensure that in future alternative arrangements are made. If the parent is under 16 years of age a risk assessment will be completed. No child will be collected by anyone who has not reached 14 years of age. The risk assessment should take account of factors such as age/vulnerability of child, journey travelled, arrangements upon leaving the setting to go home/elsewhere.
- Educators verbally exchange information with parents.
- If someone other than the key person is with the child at the end of the day, the key person should pass general information to the other staff or write a note for the parents. Confidential information should be shared with the setting manager to pass on.

Maintaining children's safety and security

Arrivals and departures pose a particular threat to the safety and security of the children, particularly when parents arrive at the same time or when in shared premises. To minimise the risk of a child leaving the building unnoticed, only one child will be allowed to leave through the gate at a time. Parent's who are waiting for their child should stand back so that information can be given to the individual, who is being collected, confidentially.

Prime Times - Snack Times and Mealtimes

Children are supervised during mealtimes and always remain within sight and hearing of staff.

Snack times

- A 'snack' is prepared mid-morning, mid-afternoon and after 3:30 it can be organised according to the discretion of the setting manager e.g. picnic on a blanket or at tables.
- Children may also help to prepare the tables for snack. Small, lidded plastic jugs are provided with choice of milk or water.
- Children wash their hands before snack-time.
- Children are only offered full-fat milk or water. If parents state that their child will not drink either then they can provide an alternative to ensure that the children remain hydrated.
- Fruit or raw vegetables, such as carrot or tomato, are offered in batons. Bananas and other foods are not cut as rounds, but are sliced to minimise a choking hazard.
- Portion sizes are gauged as appropriate to the age of the child.
- Biscuits are not offered, but toast, rice cakes or oatcakes and healthy alternatives are.
- Snack time is a social time where children can choose where they sit. If they do not want to have a snack or do not want the snack provided they are not forced to eat it. Alternatives will be provided for those who have allergies or strong likes and dislikes.
- Staff join in conversation and encourage children's independence by allowing them to pour drinks etc.

Mealtimes

- Tables are never overcrowded during mealtimes.
- Children help staff prepare tables.
- Cloths are not used. The tables are cleaned with odor free products to ensure cleanliness.
- Their food is brought to their room on a trolley. Dishes are not kept in a food warmer or oven so will not be too hot to touch.
- Children wash their hands and sit down as food is ready to be served.
- Children are encouraged to try new foods but not forced to eat foods that they don't like. Healthy alternatives will be provided to ensure children are not hungry.
- Staff who are eating with the children role-model healthy eating and best practice at all times, for example not drinking cans of fizzy drinks in front of the children.

- Children are given time to eat at their own pace and are not hurried to fit in with adults' tasks and breaks. They are not made to eat what they do not like and are only encouraged to try new foods slowly.
- In order to protect children with food allergies or specific dietary requirements, children are supervised to ensure that they are not sharing or swapping their food with one another.
- If children do not eat their main course, they are not denied pudding. Food is not used as a reward or punishment. Puddings provided by Willaston Pre-school meet government requirements of only providing fructose and not other sugars.
- Mealtimes are relaxed opportunities for social interaction between children and the adults who care for them.
- After lunch children are encouraged to close their lunchboxes or scrape their plates and help wipe the table and sweep the floor.
- Information for parents is displayed on the parent's notice board, including:
 - Ten Steps for Healthy Toddlers https://infantandtoddlerforum.org/media/upload/pdf-downloads/HR_toddler_booklet_green.pdf
 - Daily menus including identification of any foods containing allergens

Prime Times - Intimate Care and Nappy Changing

Prime times of the day make the very best of routine opportunities to promote 'tuning-in' to the child emotionally and to create opportunities for learning. Nappy changing times are key times in the day for being close and promoting security as well as for communication, exploration and learning.

Young children, intimate care and toileting

- Wherever possible, key persons undertake changing young children in their key groups; back-up key persons change them if the key person is absent.
- Young children from two years may only be put into 'pull ups' if parents require this.
- Changing areas are warm, appropriately sited and there are safe areas to lay young children if they need to have their bottoms cleaned. There are mobiles or other objects of interest to take the child's attention.
- If children refuse to lie down for nappy change, they can be changed whilst standing up, providing it is still possible to clean them effectively.
- Each young child has his/her own basket to hand with their nappies/pull ups and changing wipes.
- Key persons ensure that nappy changing is relaxed and a time to promote independence in young children.
- Young children are encouraged to take an interest in using the toilet; they may just want to sit on it and talk to a friend who is also using the toilet.
- They are encouraged to wash their hands and have soap and paper towels to hand. They should be allowed time for some play as they explore the water and the soap.
- Key persons are gentle when changing and avoid pulling faces and making negative comment about the nappy contents.
- Wipes or cotton wool and water are used to clean the child. Where cultural practices involve children being washed and dried with towels, staff aim to make reasonable adjustments to achieve the desired results in consultation with the child's parents. Where this is not possible it is explained to parents the reasons why. The use of wipes or cotton wool and water achieves the same outcome whilst reducing the risk of cross infection from items such as towels that are not 'single use' or disposable.
- Key persons do not make inappropriate comments about young children's genitals when changing their nappies.

- Sometimes a child may have a sore bottom.. This must be noted and discussed with the parent and a plan devised and agreed to help heal the soreness. This may include use of nappy cream. If a medicated nappy cream such as Sudocrem is used, this must be recorded.
- Older children use the toilet when needed and are encouraged to be independent.
- Members of staffs do not wipe older children's bottoms unless there is a need, or unless the child has asked.
- Key persons are responsible for changing where possible. Back-up key persons take over in the key person's absence, but where it is unavoidable that other members of staff are brought in, they must be briefed as to their responsibilities towards designated children, so that no child is inadvertently overlooked and that all children's needs continue to be met.
- Parents are encouraged to provide enough changes of clothes for 'accidents when children are potty training.
- If spare clothes are kept by the setting, they are 'gender neutral' i.e. neutral colours, and are clean, in good condition and are in a range of appropriate sizes.
- If young children are left in wet or soiled nappies/pull-ups in the setting, this may constitute neglect and will be a disciplinary matter.

Nappy changing is always done in an appropriate/designated area. Children are not changed in play areas or next to snack tables. If there are limitations for nappy change areas due to the lay-out of the room or space available this is discussed with the setting manager's line manager so that an appropriate site can be agreed that maintains the dignity of the child and good hygiene practice.

Identification, assessment and support for children with SEND

We have regard for the Special Educational Needs and Disability (SEND) (DfE and DoH 2015) which states that local authorities must ensure that all early years providers that they fund in the maintained, private, voluntary and independent sectors are aware of the requirement on them to meet the needs of children with SEN and disabilities. When securing funded early education for two, three- and four-year-olds local authorities should promote equality and inclusion for children with disabilities or SEN; this includes removing barriers that prevent access to early education and working with parents to give each child support to fulfil their potential. During the Covid outbreak we will review and update children's SEN support plans more frequently to ensure their progress and well-being.

The term SEN support defines arrangements for identifying and supporting children with special educational needs and/or disabilities. We are required to offer appropriate support and intervention and to promote equality of opportunity for children that we care for. Children's SEND generally falls within the following four broad areas of need and support:

- communication and interaction
- cognition and learning
- social, emotional and mental health
- sensory and/or physical needs

Graduated approach

Initial identification and support (identifying special educational needs)

- Ongoing formative assessment forms part of a continuous process for observing, assessing, planning and reviewing children's progress.
- Children identified as having difficulty with one or more area of development should be given support by applying some simple strategies and resources.
- For most children application of some simple differentiation approaches will be enough to build confidence and help the child develop, the SEN Support: Initial record of concern form can be used for this purpose.
- If despite applying differentiated strategies a child continues to struggle and is showing significantly more difficulty with learning than their peers or has a disability which requires specific adjustments, then the key person should raise a concern with the setting's SENCo/setting manager and the child's parents.

Observation and assessment of children's SEN

Where a child appears to be behind expected levels, or their progress gives cause for concern, educators should consider all the information about the child's learning and development from within and beyond the setting.

- Information can be collated from formal checks such as the progress check at age two, observations from parents and observation and assessment by the setting of the child's progress.
- When specialist advice has been sought externally, this is used to help determine whether or not a child has a special educational need (SEN).
- The child's key person and SENCo/Manager use this information to decide if the child has a special educational need.
- If the decision is that the child does have a SEN and the parents are not already aware of a concern, then the information is shared with them. Once parents have been informed, they should be fully engaged in the process, contributing their insights to all future actions for their child.

Planning intervention

- Everyone involved with the child should be given an opportunity to share their views. Parents should be encouraged to share their thoughts on the child's difficulties and be involved in the decision as to what will happen next.
- A first intervention option may be to carry on with applying differentiated support and to review the child's progress at an agreed date. If the child's needs are more complex, then the decision maybe to go straight ahead and prepare the SEN support: Action plan with detailed evidence-based interventions being applied straight away and simultaneously external referrals made.
- If relevant, then the child should be appropriately included in development of the action plan but only at a level which reflects their stage of comprehension.
- The SEN support: Action plan described below, ensures that children that are identified, or suspected of having a SEN will receive the right level of support and encouragement with their learning and development as early as possible.

Involving the child

- The SEND Code of Practice supports the rights of children to be involved in decisions about their education.
- Inclusion of children with SEND helps build self-confidence and trust in others.

- Ascertaining children's views may not be easy, a range of strategies will be needed.
- Accurate assessment helps identify children's strengths and possible barriers to learning.
- The key person and setting manager/SENCo work in partnership with parents and other agencies to involve the child wherever appropriate.
- Children are involved at appropriate stages of the assessment and to their level of ability.
- Establishing effective communication is essential for the child's involvement.

SEN action plan

- The SEN support: Action plan, should show what support is required to help achieve outcomes for the child and detail the frequency of these interventions and who will apply them and with what resources.
- A review date (at least termly) should be agreed with the parents so that the child's progress can be reviewed against expected outcomes and next steps agreed.
- A copy of the plan is stored in the child's file so that any other member of staff or an inspector looking at the file will see how the child is progressing and what interventions have been or are being applied.
- If a child requires specific medical interventions during their time in the setting, the Health care plan form should also be completed and integrated into the general plans to ensure the child's medical needs are known and safely met.
- The action plan should provide an accessible summary of the child's needs, which can be used if further assessment is required including a statutory Education Health and Care (EHC) Assessment, and development of an EHC plan.

Drawing up a SEN action plan

- If external agencies are already involved at this stage, then they should also be invited to help decide on what appropriate interventions are needed to help meet outcomes for the child. The SENCo/setting manager should take the lead in coordinating further actions including preparation of the action plan and setting short-term targets.
- Where there are significant emerging concerns (or an identified special educational need or disability) targeted action plans are formulated that relate to a clear set of expected outcomes and stretching targets.

- The SEN support: Action plan, highlights areas in which a child is progressing well; areas in which some additional support might be needed and any areas where there is a concern that a child may have a developmental delay (which may indicate a special educational need or disability). It describes the activities and strategies the provider intends to adopt to address any issues or concerns. The parents complete their part in the plan and are fully involved in all of the decisions.
- Planned intervention should be based on the best possible evidence and have the required impact on progress with longer-term goals covering all aspects of learning and development and shorter-term targets meeting goals. The child's future learning and challenges will be discussed with the parents.
- The plan should focus on the needs of the child, the true characteristics, preferences, and aspirations of the child and involvement of the parents with a clear set of targets and expected outcomes for the child. Effective planning at this stage should help parents and children express their needs, wishes, and goals:
 - focus on the child as an individual and not their SEN label
 - be easy for children to understand and use clear ordinary language and images, rather than professional jargon
 - highlight the child strengths and capacities
 - enable the child, and those who know them best, to say what they have done, what they are interested in and what outcomes they are seeking in the future
 - tailor support to the needs of the individual
 - organise assessments to minimise demands on families
 - bring together relevant professionals to discuss and agree together the overall approach
- If the child fails to make progress and multi-agency support is sought, then it is at this point that Early Help/CAF assessment should be considered.

Record keeping

If a child has or is suspected of having a SEN, a dated record should be kept of:

- the initial cause for concern and the source of this information, (the progress check at age two and/or outcomes of previous interventions). The SEN support: Initial record of concern form can also be used for this purpose drawing information from other sources

- the initial discussion with parents raising the possibility of the child's SEN
- the views of the parents and other relevant persons including, wherever possible, the child's views;
- the procedures followed with regard to the Code of Practice to meet the child's SEND e.g. SEN action plan, referrals to external agencies and for statutory assessment
- evidence of the child's progress and any identified barriers to learning
- advice from other relevant professionals; and all subsequent meetings with parents and other persons and any subsequent referrals

Records may include

- observation and monitoring sheets
- expressions of concern
- risk assessments
- access audits
- health care plans (including guidelines for administering medication)
- SEN support plans
- meetings with parents and other agencies
- additional information from and to outside agencies
- agreements with parents
- guidelines for the use of children's individual equipment; Early help CAF referrals
- referral to the local authority identifying a child's special educational needs and request for statutory Education, Health, Care (EHC) needs assessment; and a copy of an EHC plan

Seeking additional funding/enhanced/top up

If the child's needs cannot be met from within the setting's core funding, then it will be at this point that the evidence collated will be used to apply for top up/enhanced funding from the local authority's inclusion fund. If a new or existing child is disabled, then the setting should check if the family is in receipt or have applied for Disability Living Allowance. If so, the setting will be able to apply to their local authority for the local Disability Access Fund.

Statutory education, health and care (EHC) assessment and plan

Statutory assessment

- If a child has not made progress, then the next steps may be for the child to undergo an Education, Health and Care Assessment.
- If a child is under compulsory school age, the local authority will conduct an EHC needs assessment if they consider that the child's needs cannot be met within the resources normally available to the early years setting.
- Children aged under age two are eligible where an assessment has indicated that the child is likely to have SEN which requires an EHC plan when they reach compulsory school age.
- When a child's needs appear to be sufficiently complex, or the evidence suggest specialist intervention then the local authority is likely to conclude that an EHC plan is necessary
- The local authority should fully involve the parent and must seek advice from the setting in making decisions about undertaking an EHC assessment and preparing an EHC plan.
- Settings should prepare by collating information about the child's SEND including:
 - documentation on the child's progress in the setting
 - interventions and support provided to date
 - evidence of external agency assessment, support and recommendations
 - parental views and wishes (and where appropriate those of the child)

The information will then be submitted to the local authority to allow them to accurately assess the child in the context of the support already given.

- The local authority must inform the child's parents of their decision within six weeks of receiving a request for an assessment and give its reasons for their decision. If the local authority decides to conduct an assessment, it must ensure the child's parents are fully included right from the beginning and are invited to contribute their views. If the local authority subsequently decides not to conduct an assessment it must then inform the parents of their right to appeal that decision, of the requirement for them to consider mediation should they wish to appeal.
- If the local authority decides that a statutory EHC plan is not necessary, it must notify the parents and inform the provider, giving the reasons for the decision. This notification must take place within 16 weeks of the initial request or of the child having otherwise been brought to the local authority's attention.
- If the decision following an assessment is to compile an EHC plan the local authority should consult collaboratively with the parents in the preparation of the plan ensuring

that their views and their child's preferences are taken into account and that plans describe positively what the child can do and has achieved to date.

- Plans are evidenced based and focus on short term outcomes and long-term aspirations for the child including family and community support. Parents have the right to request a particular provision for their child to be named within their EHC plan.
- If an early years setting is named, the local authority must fund this provision. They cannot force a setting to take a child and can only name the provision in the EHC if the setting agrees.
- Local authorities should consider reviewing an EHC plan for a child under age five at least every three to six months. Such reviews would complement the duty to carry out a review at least annually but may be streamlined and not necessarily require the attendance of the full range of professionals, depending on the needs of the child. The child's parents must be fully consulted on any proposed changes to the EHC plan and made aware of their right to appeal to the Tribunal.

External intervention and support

Where external agency intervention has been identified to help support a child with SEND then this intervention should be recommended in writing by a suitably reliable source such as a speech and language therapist, pediatricians or educational psychologist.

Transition to school

Moving on to school is a major transition in a child's life involving separation from familiar adults and children. Older children have a more secure understanding of 'people permanence' and are able to approach new experiences with confidence. However, they need preparation if they are to approach transition to school with confidence and an awareness of what to expect.

Partnership with schools

- Details of the school that a child will be attending are recorded in the child's file along with the name of the reception class teacher.
- Every effort is made to forge and maintain strong links with all schools that children may attend. The setting manager will approach schools in order to open lines of communication where these have not previously existed.
- Details of the school's transition or settling in procedures are kept by the setting and are referred to so that members of staff are familiar with them and can develop a consistent approach to transition with teachers, parents and children.
- Teachers are welcomed into the setting and sufficient time is made for them to spend both with the child, their parents and with the key person, to discuss and share information that will support the child's transition to school.
- A child's EYFS profile and learning journey record is forwarded to the school along with other information that will aid transition and settling in. Parents receive a copy of this.
- Any action plans relating to a child's additional needs are also shared, where this is in place.
- Other formal documentation such as safeguarding information is prepared in line with the procedure on Transfer of records.

Partnership with parents

- Key persons discuss transition to school with parents and set aside time to discuss learning and development summaries. Parents are encouraged to contribute to summaries.
- Key persons will discuss with parents how they are preparing their child for school and will share information about how the setting is working in partnership with the school to aid transition.
- Key persons will make clear to parents the information that will be shared with the school, for example, information regarding child protection and work that has taken place to ensure the child's welfare.

Increasing familiarity for children

- Where possible, the parent will take the child to visit the new school, if this is the school's transition policy.
- If there are several schools in a catchment area, or the setting is not within a reasonable distance of the school, other means of familiarisation will be explored. This could be through videos, photographs or other information about the school that can be shown within the setting. Staff may borrow resources from the schools and will use these with the children.

Preparing children for leaving

- Children and parents form bonds with adults and children in the setting and will need preparation for separating from the relationships they have formed.
- The child's last day should be prepared for in advance and marked with a special celebration or party that acknowledges that the child is moving on.

Parents should not be discouraged from bringing the child for the occasional brief visit, as separations often take time to complete. Sometimes children need the reassurance that their nursery/pre-school is still there and that they are remembered.

Staff, volunteers and students

Aim

Staff are deployed to meet the care and learning needs of children and ensure their safety and well-being. There are effective systems in place to ensure that adults looking after children are suitable to do so. Jacqueline Piaf and Caryl Freeman have completed the safer recruitment training and adhere to the recommendations.

Objectives

- All staff and volunteers who work more than occasionally with the children have enhanced DBS disclosure checks.
- All staff and volunteers working with children have appropriate training, skills, and knowledge.
- All staff, students and volunteers are deployed in accordance with the procedures.
- There is a complaints procedure and staff, and volunteers know how to complain and who they complain to.
- Ofsted are notified of staff changes or changes to the setting's name or address.
- Parents are involved with their children's learning and their views are considered.

Role of signatory (e.g. chair, director or owner)	<u>Manager</u>

Staff deployment

Members of staff are deployed to meet the care and learning needs of children and to ensure their safety and well-being at all times.

- Two members of staff are on the premises before children are admitted in the morning and the end of the day; one of which should be the manager or deputy.
- Only those staff aged 17 or over are included in ratios. Staff working as apprentices (aged 16 or over) may be included in the ratios if the setting manager is satisfied that they are competent and responsible.
- At least one Paediatric First Aider must be on site at all times when children are present. Most of Willaston pre-school staff are trained in Paediatric first aid. There is always a member of staff who is trained in first aid in each area that the children are present in.
- The setting manager deploys staff to give adequate supervision of indoor and outdoor areas, ensuring that children are usually within sight and hearing of staff and always within sight *or* hearing of staff at all times.
- All staff are deployed according to the needs of the setting and the children attending.
- In open plan provision, staff are positioned in areas of the room and outdoors to supervise children and to support their learning.
- Staff are responsible for ensuring that equipment in their area is used appropriately and that the area is tidy at the end of the session.
- Room leads plan their focus on activities and take into consideration prior learning and levels of development.
- Staff inform colleagues if they have to leave the room for any reason.
- There are generally at least two members of staff outside in the garden when it is being used, one of whom supervises climbing equipment that has been put out.
- The setting manager may direct other members of staff to join those outside, if the numbers of children warrant additional staff.
- Staff focus their attention on the children at all times whilst having a wider awareness of what is happening around them.
- Staff do not spend working time in social conversation with colleagues.

- Staff allow time for colleagues to engage in ‘sustained shared interaction’ with children and do not interrupt activities led by colleagues.
- Sufficient staff are available at story times to engage children.
- Key persons spend time with key children daily; these times are not for focussed activities but for promoting shared times and friendship.

Staff children

- Where members of staff have their own children with them at the setting, the age of the child must fall within the stipulated ages of the setting’s Ofsted registration. In an emergency situation a staff member may bring a dependent into Pre-school but understands that they are not the responsibility of Pre-school, this is done only when it has been agreed with the manager and a waiver must be signed.
- Where members of staff are likely to be working directly with their own children, this is subject to discussion before commencement with the setting manager.
- Where it is agreed that a member of staff’s child attends the setting, it is subject to the following:
 - the child is treated by the parent and all staff as any other child would be
 - the child will not be in the parent’s key group of children
 - the key person and parent will work towards helping the child to make a comfortable separation from the parent to allow the parent to fully undertake their role as a staff member of the setting
 - the key person will take responsibility for the child’s needs throughout the day, unless the child is sick or severely distressed
 - time and space are made for the parent to breastfeed during the day, if that is their chosen method of feeding
 - the situation is reviewed as required, to ensure that the needs of the child are being met, and that the parent is able to fulfil his/her role as a member of staff

If it is the setting manager’s child, then their line manager ensures the criteria above is met

Covid 19 considerations

During the COVID-19 outbreak, staff will be deployed as per the government guidance. A risk assessment for working with prioritised places is included. Relaxation of the rules on ratios may be implemented only in exceptional circumstances, and only during the COVID-19 outbreak period. Any

relaxation of ratios must be based on a risk assessment approach and with the authorisation of the manager. Otherwise the following procedure applies.

During the COVID-19 outbreak early years staff are themselves considered to be ‘key workers’. If staff cannot source care for their own children then they are able to bring their child to the setting, ensuring that as far as possible, they adhere to the criteria below and ensure they are not breaching conditions of their insurance provider:

- where members of staff have their own children with them at the setting, the age of the child must fall within the stipulated ages of the setting’s Ofsted registration or the parent must sign a waiver to state that they are not the responsibility of Pre-school and are not covered under Pre-school insurance.

where members of staff are likely to be working directly with their own children, this is subject to discussion before commencement with their line manager.

Deployment of volunteers and parent helpers

Volunteers and parent helpers are always under the supervision of a permanent member of staff. They are not included in staff ratios, or as the two members of staff needed on the premises before children are admitted in the morning or at the end of the day. (The setting manager ensures that volunteers and parent helpers are deployed to assist permanent staff.

- Volunteers and parent helpers assist staff in ensuring that the equipment in their designated area is used appropriately and that it is left tidy at the end of the session.
- Volunteers and parent helpers give additional support for busy areas or to track or observe children.
- Volunteers and parent helpers inform colleagues where they are going if they leave the room at any time.
- Volunteers and parent helpers do not have unsupervised access to children; they do not take them into a separate room for an activity or toileting and do not take them off premises.
- Volunteers and parent helpers are deployed in addition to two members of staff in the garden/outdoor area when in use.
- The setting manager can direct volunteers and parent helpers to join those outside if the numbers of children warrant additional numbers of staff available.
- Volunteers and parent helpers focus their attention to children at all times.
- Volunteers and parent helpers do not spend time in social conversation with colleagues while they are with children.
- Volunteers and parent helpers allow time for colleagues to engage in 'sustained shared interaction' with children and do not interrupt activities led by colleagues.

Sufficient volunteers and parent helpers are available to support staff at story times.

Looked after children

Identification.

A 'Looked after Child' is a child in public care, who is placed with foster carers, in a residential home or with parents or other relatives.

Services provided to Looked After Children

Two-year-olds

- Places will be offered to two-year-old children who are looked after; where the placement in the setting will normally last a minimum of three months.
- Where the child is already in attendance and has a secure attachment with an existing key person a continuation of the existing place will be offered.

Three- and four-year-olds

- Places will be offered for funded three- and four-year -olds who are looked after; where the placement in the setting will normally last a minimum of six weeks.
- If a child who attends a setting is taken into care and is cared for by a local carer the place will continue to be made available to the child.

Additional Support

- The designated person and key person liaise with agencies and professionals involved with the child, and his or her family, and ensure appropriate information is gained and shared.
- A meeting of professionals involved with the child is convened by the setting at the start of a placement. A Personal Education Plan (PEP) for children over 3 years old is put in place within 10 days of the child becoming looked after.
- Following this meeting, the Care Plan for looked after children form is completed. The care plan is reviewed after two weeks, six weeks, three months, and thereafter at three to six monthly intervals.

Regular contact will be maintained with the social worker through planned meetings, which will include contribution to the PEP which is reviewed annually.

E-safety (including all electronic devices with internet capacity)

Online Safety

It is important that children and young people receive consistent messages about the safe use of technology and are able to recognise and manage the risks posed in both the real and the virtual world.

Terms such as 'e-safety', 'online', 'communication technologies' and 'digital technologies' refer to fixed and mobile technologies that adults and children may encounter, now and in the future, which allow them access to content and communications that could raise issues or pose risks. The issues are:

Content – being exposed to illegal, inappropriate or harmful material

Contact – being subjected to harmful online interaction with other users

Conduct – personal online behaviour that increases the likelihood of, or causes, harm

I.C.T Equipment

- The setting manager ensures that all computers have up-to-date virus protection installed.
- Tablets are only used for the purposes of observation, assessment and planning and to take photographs for individual children's learning journeys.
- Tablets remain on the premises and are stored securely at all times when not in use.
- Staff follow the additional guidance provided with the system

Internet access

- Children never have unsupervised access to the internet.
- The setting manager ensures that risk assessments in relation to e-safety are completed.
- Only reputable sites with a focus on early learning are used (e.g. CBeebies).
- Video sharing sites such as YouTube are not accessed without close supervision due to the risk of inappropriate content.
- Children are taught the following stay safe principles in an age appropriate way:
 - only go online with a grown up
 - be kind online **and** keep information about me safely
 - only press buttons on the internet to things I understand

- tell a grown up if something makes me unhappy on the internet
- Staff support children's resilience in relation to issues they may face online, and address issues such as staying safe, appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age-appropriate ways.
- All computers for use by children are sited in an area clearly visible to staff and only used under direct supervision.
- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at www.iwf.org.uk.

The setting manager ensures staff have access to age-appropriate resources to enable them to assist children to use the internet safely.

Personal mobile phones – staff and visitors (includes internet enabled devices)

- Personal mobile phones and internet enabled devices are not used by staff during working hours. This does not include breaks where personal mobiles may be used off the premises or in a safe place e.g, not in any area frequented by children. The setting manager completes a risk assessment for where they can be used safely.
- Personal mobile phones are switched off and stored in an office drawer.
- In an emergency, personal mobile phones may be used in the privacy of an area that is not frequented by children and only with permission.
- Staff ensure that contact details of the setting are known to family and people who may need to contact them in an emergency.
- Staff do not take their mobile phones on outings.
- Members of staff do not use personal equipment to take photographs of children.
- Parents and visitors do not use their mobile phones on the premises. There is an exception if a visitor's company/organisation operates a policy that requires contact with their office periodically throughout the day. Visitors are advised of a private space where they can use their mobile.

Cameras and videos

- Members of staff do not bring their own cameras or video recorders to the setting.
- Photographs/recordings of children are only taken for valid reasons, e.g. to record learning and development, or for displays, and are only taken on equipment belonging to the setting.

- Camera and video use is monitored by the setting manager.
- Where parents request permission to photograph or record their own children at special events, general permission is first gained from all parents for their children to be included. Parents are told they do not have a right to photograph or upload photos of anyone else's children.
- Photographs/recordings of children are only made if relevant permissions are in place.
- If photographs are used for publicity, parental consent is gained and safeguarding risks minimised, e.g. children may be identified if photographed in a sweatshirt with the name of their setting on it.

Cyber Bullying

If staff become aware that a child is the victim of cyber-bullying at home or elsewhere, they discuss this with the parents and refer them to help, such as: NSPCC Tel: 0808 800 5000 www.nspcc.org.uk or ChildLine Tel: 0800 1111 www.childline.org.uk

Use of social media

Staff are expected to:

- understand how to manage their security settings to ensure that their information is only available to people they choose to share information with
- ensure the organisation is not negatively affected by their actions and do not name the setting
- are aware that comments or photographs online may be accessible to anyone and should use their judgement before posting
- are aware that images, such as those on Snapshot may still be accessed by others and a permanent record of them made, for example, by taking a screen shot of the image with a mobile phone
- observe confidentiality and refrain from discussing any issues relating to work
- not share information they would not want children, parents or colleagues to view
- set privacy settings to personal social networking and restrict those who are able to access
- not accept service users/children/parents as friends, as it is a breach of professional conduct
- report any concerns or breaches to the designated person in their setting
- not engage in personal communication, including on social networking sites, with children and parents with whom they act in a professional capacity. There may be occasions when the educator and family are friendly prior to the child coming to the setting. In this case information

is shared with the manager and a risk assessment and agreement in relation to boundaries are agreed

Use/distribution of inappropriate images

Staff are aware that it is an offence to distribute indecent images and that it is an offence to groom children online. In the event of a concern that a colleague is behaving inappropriately, staff advise the designated person (Jacqueline Piaf) who follows the procedure on Allegations against staff, volunteers or agency staff.

Fire safety and emergency evacuation

Designated Fire Marshalls are: Jacqueline Piaf and Caryl Freeman

Aim

Our provision is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements about fire safety and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and a duty of care for those who work in and receive a service from our provision, but individual employees and service users also have a responsibility to ensure their own safety as well as that of others. Risk assessment is the key means through which this is achieved.
- A fire safety risk assessment is carried out by a competent person in accordance with the Regulatory Reform (Fire Safety) Order 2005.
- A Fire Log is completed and regularly updated.
- Necessary equipment is in place to promote fire safety.

Legal references

Regulatory Reform (Fire Safety) Order 2005)

Electricity at Work Regulations (1989)

Further guidance

Fire Safety Record (Early Years Alliance 2019)

Fire Safety Risk Assessment: Educational Premises

www.communities.gov.uk/publications/fire/firesafetyrisk6

Procedures

The setting manager has access to, or a copy of, the fire safety procedures specific to the building and ensure they align with these procedures. The setting manager makes reasonable adjustments as required to ensure the two documents do not contradict each other. Both Jacqueline Piaf and Caryl Freeman are trained Fire Safety Officers.

Fire safety risk assessment

A fire safety risk assessment form is carried out in each area of the setting by a competent person using the five steps to fire safety risk assessment as follows:

1. Identify fire hazards
 - Sources of ignition.
 - Sources of fuel.
 - Sources of oxygen (including oxygen tanks for disabled children).
2. Identify people at risk
 - People in and around the premises.
 - People especially at risk including very young babies, less ambulant disabled children or those using specialised equipment, such as splints, standing frames.
3. Evaluate, remove, reduce and protect from the risk
 - Evaluate the risk of the fire occurring.
 - Evaluate the risk to people from a fire starting on the premises.
 - Remove and reduce the hazards that may cause a fire.
 - Remove and reduce the risks to people from a fire.
4. Record, plan, inform, instruct, train
 - Record significant findings and action taken.
 - Prepare an emergency plan.
 - Inform and instruct relevant people; inform and co-operate with others.
 - Provide training.
5. Review
 - Keep assessment under review and revise when necessary.

The fire safety risk assessment focuses on the following for each area:

- Electrical plugs, wires, sockets.
- Electrical items.
- Gas boilers.
- Cookers.
- Matches.

- Flammable materials, including furniture, furnishings, paper etc.
- Flammable chemicals (which are also covered in COSHH).
- Means of escape.
- Any other, as identified.

Fire safety precautions include:

- All electrical equipment is checked by a qualified electrician annually.
- Any faulty electrical equipment is taken out of use and recorded as such or condemned (whichever is necessary).
- Sockets are covered. This is different to using plug sockets inserts, a socket cover, covers the whole socket, including the switch and is safe to use.
- Water and electrical items do not come into contact; staff do not touch electrical items with wet hands.
- All fire safety equipment is checked annually.
- Gas boilers and cookers are checked and serviced annually by a Gas Safe registered engineer.
- If matches are used in the kitchen, they are kept in a drawer.
- Oxygen tanks.

Fire Drills

- Fire Drills (to include emergency evacuation procedures and lock down) are held at least termly.
- Drills are recorded, including:
 - date of drill
 - staff involved and numbers of children
 - how long it took to evacuate
 - any reason for a delay in achieving the target time and how this will be remedied

Fire precautions

- Fire exit signs are the green 'running man' signs and are in place and clearly visible.
- Fire exits by doors are those that show a green light at night.
- Fire doors are not locked during normal working hours.

- Fire evacuation notices are in every room; these are displayed in print large enough to read from a short distance. They say where the assembly point is.
- Fire alarms are in place and tested monthly, and where necessary supplemented with visual warnings. This is recorded.
- Smoke alarms are in place and tested monthly. This is recorded.
- A fire blanket is in place in the kitchen (and any other location where there is a cooker).
- Fire extinguishers are in place and are appropriate

Uncollected child

If a child is not collected by closing time, or the end of the session and there has been no contact from the parent, or there are concerns about the child's welfare then this procedure is followed.

- The designated person is informed of the uncollected child as soon as possible and attempts to contact the parents by phone.
- If the parents cannot be contacted, the designated person uses the emergency contacts to inform a known carer of the situation and arrange collection of the child.
- After one hour, the designated person contacts the local social care out-of-hours duty officer if the parents or other known carer cannot be contacted and there are concerns about the child's welfare or the welfare of the parents.

0300 123 5012 Children's Assessment Team

*(name and phone
number)*

0300 123 5022 Out of hours duty officer

*(name and phone
number)*

-
- The designated person should arrange for the collection of the child by social care.
 - Where appropriate the designated person should also notify police.

Members of staff do not:

- go off the premises to look for the parents
 - leave the premises to take the child home or to a carer
 - offer to take the child home with them to care for them in their own home until contact with the parent is made
- Staff make a record of the incident in the child's file. A record of conversations with parents should be made, with parents being asked to sign and date the recording.
 - This is logged on the child's personal file along with the actions taken. The Confidential safeguarding incident report form should also be completed if there are safeguarding and welfare concerns about the child, or if Social Care have been involved due to the late collection.

- If there are recurring incidents of late collection, a meeting is arranged with the parents to agree a plan to improve time-keeping and identify any further support that may be required.
- Depending on circumstances, we reserve the right to charge parents for the additional hours worked.

Promoting positive behaviour

Positive behaviour is located within the context of the development of children's personal, social and emotional skills and well-being. A key person who understands children's needs, their levels of development, personal characteristics, and specific circumstances, supports this development. This ensures children's individual needs are understood and supported. Settling into a new environment is an emotional transition for young children especially as they learn to develop and master complex skills needed to communicate, negotiate and socialise with their peers. Skills such as turn taking and sharing often instigate minor conflicts between children as they struggle to deal with powerful emotions and feelings. During minor disputes, key persons help children to reflect and regulate their actions and, in most instances, children learn how to resolve minor disputes themselves. However, some incidents are influenced by factors, requiring a strategic approach especially if the behaviour causes harm or distress to the child or others. These situations are managed by the SENCO/key person using a stepped approach which aims to resolve the issue and/or avoid the behaviour escalating and causing further harm.

This is an unsettling time for young children. Educators are alert to the emotional well-being of children who may be affected by the disruption to their normal routine. Where a child's behaviour gives cause for concern, educators take into consideration the many factors that may be affecting them. This is done in partnership with the child's parents/carers and the principles of this procedure are adhered to

The setting manager/SENCO will:

- ensure that all staff attend training on behaviour management
- help staff to implement the procedure on Promoting positive behaviour in their everyday practice
- advise staff on how to address behaviour issues and how to access expert advice if needed

Rewards and sanctions

Children need consistent messages, clear boundaries and guidance to intrinsically manage their behaviour through self-reflection and control.

Rewards such as excessive praise and stickers may provide immediate results for the adult but do not teach a child how to act when a 'prize' is not being given or provide the skills to manage situations and emotions themselves. Instead, a child is taught to be 'compliant' and respond to meet adult expectations to obtain a reward (or for fear of a sanction). If used the type of rewards and their functions must be carefully considered.

Children are never labelled, criticised, humiliated, punished, shouted at or isolated by removing them from the group to be left in 'time out' or on a 'naughty chair'. If a child is distressed or causing harm to others, it may help to remove them from the immediate environment where the incident occurred. They should be taken to a quiet area by their key person for up to 5 minutes to help them calm down. If appropriate, the key person can use this time to help the child reflect on what has happened. Physical punishment of any kind is never used or threatened which could adversely affect a child's well-being. If staff become aware that another person has given corporal punishment to a child, they follow 06 Safeguarding children, young people and vulnerable adults procedures. Physical intervention to safeguard a child/children must be carried out as per the guidance in this procedure.

Step 1

- The setting manager, SENCo and other relevant staff members are knowledgeable with, and apply the procedure on Promoting positive behaviour.
- Unwanted behaviours are addressed using an agreed and consistently applied approach to deescalate situations
- Behaviours that result in concern for the child and/or others must be discussed by the key person, SENCo/setting manager. During the meeting the key person must use their all-round knowledge of the child and family to share any known influencing factors such as a new baby in the family, child and/or parental illness, underlying additional needs to help place the child's behaviour into context.
- Appropriate adjustments to practice must be agreed within the setting. If relevant, a risk assessment should be carried out.
- If the adjustments are successful and the unwanted behaviour does not reoccur or cause concern then normal monitoring can resume.

Step 2

- If the behaviour remains a concern, then the key person and SENCo must liaise with the parents to try to discover possible reasons for the behaviour and to agree next steps. If relevant and appropriate the views of the child must be sought and considered to help identify a cause.
- If a cause for the behaviour is not known or only occurs whilst in the setting, then the setting manager/SENCo must suggest using a focused intervention approach to identifying a trigger for the behaviour such as the ABC approach, i.e. Antecedents – what happened before; Behaviour – what was the behaviour observed; Consequences – what happened after the event.
- If a trigger is identified, then the SENCo and key person must meet with the parents to plan support for the child through a graduated approach via SEN support.

- Aggressive behaviour by children towards other children will result in a staff member intervening immediately to stop the behaviour and prevent escalation using the agreed initial intervention approach. If the behaviour has been significant or may have a detrimental effect on the child, the parents of the victim of the behaviour and the parents of the perpetrator must be informed. If the setting has applied a physical intervention, they must follow the guidance as set out below. The designated person completes the Safeguarding incident reporting form and contact Ofsted if appropriate. A record of discussions is recorded and parents are asked to sign.
- Parents must also be asked to sign risk assessments where the risk assessment relates to managing the behaviour of a specific child.
- If relevant, actions for dealing with the behaviour at home are agreed with parents and incorporated into the action plan. Other staff are informed of the agreed interventions and help implement the actions. The plan must be monitored and reviewed regularly by the key person/SENCo until improvement is noticed.
- Incidents and intervention relating to unwanted/challenging behaviour by children must be clearly and appropriately logged on the SEN Support - Action plan.

Step 3

If despite applying initial intervention to deescalate situations and focused interventions to identify triggers the child's behaviour continues to occur and/or is of significant concern, the SENCo and key person invite the parents to a meeting to discuss external referral and next steps for supporting the child. It may be agreed that the setting request support from the Early Help team and/or other specialist services such as the Area SENCo. This will help address most developmental or welfare concerns. If the behaviour is part of other welfare concerns that include a concern that the child may be suffering or likely to suffer significant harm, safeguarding procedures 06 Safeguarding children, young people and vulnerable adults procedures must be followed immediately.

- Advice provided by external agencies is incorporated in the SEN Support: Action Plan and regular multi-disciplinary meetings held to review the child's progress.
- If a review determines a statutory assessment may be needed then all relevant documentation must be collected in preparation for an Education Health and Care Assessment which may lead onto an Education, Health and Care Plan.

Use of physical intervention

Staff will already use different elements of physical contact with a child as part of their interaction in the setting especially when they are comforting a child or giving first aid. However, physical

intervention to keep a child or other children safe is different and should only be applied in exceptional circumstances.

The EYFS states that physical intervention from a staff member towards a child may be used for the purposes of “averting immediate danger of personal injury to any person (including the child) or to manage a child’s behaviour if it is absolutely necessary”.

Staff must do all they can to avoid using a physical intervention because this is not the preferred way of addressing children’s behaviour.

To offer protection to children a range of appropriate graded interventions may be needed before physical intervention is applied. Most single incidents such as a child throwing a book on the floor or kicking a chair usually only require a verbal intervention from a member of staff. In other situations, an intervention can be applied through mechanical and environmental means such as locking doors and stair gates. This usually stops a situation escalating. However, there will be some situations where a child places themselves or others in danger which requires an immediate need for the use of both verbal and physical intervention. If a single or persistent incident requires a physical intervention such as physical handling from a staff member towards a child, then this is used intentionally to restrict a child’s movement against their will. In most cases this can be applied through the use of the adult’s body gently and safely blocking the child from access to danger or to prevent danger.

To physically intervene, an educator may use “reasonable force” to protect a child from injuring themselves or others. Legally an educator may also use reasonable force to prevent a child from damaging property. However, we would expect that in instances of damaging physical property a child would only experience a physical intervention if the broken property presented a risk or is high value.

If a situation arises which requires urgent physical hands-on intervention this is best applied by the staff who knows the child well such as their key person who is more able to calm them or use other known methods for defusing situations without physical intervention.

Physical handling

We use the principle of applying reasonable minimal force and handling in proportion to the situation. Staff use as little force as necessary to maintain safety. This intervention should only be used for as short a period as possible to keep the child safe and maintain well-being by aiming for:

- keeping the child’s safety and well-being paramount
- a calm, gentle but firm approach and application of the intervention

- never restricting the child's ability to breathe
- side-by-side contact with the child
- no gap between theirs or the child's body
- keeping the adults back as straight as possible
- avoiding close head-to-head positioning to avoid injury to the child and themselves (head butting)
- only holding the child by their 'long' bones to avoid grasping at the child's joints where pain and damage are most likely to occur
- avoiding lifting the child unless necessary
- reassuring the child and talking about what has happened
- only applying a physical intervention on a disabled child if training or preferred method is provided from a reputable external source e.g. British Institute of Learning Disabilities
www.bild.org.uk/

Risks

There are risks associated with any physical intervention and handling of a child. The younger and more vulnerable a child may be, the greater risk to the child of using physical intervention towards them. However, there are also risks to children associated with not intervening physically; for instance, if a educator did not take hold of a child by the wrist, they may have run into the path of a fast-moving car.

Before intervening physically to protect a child from immediate harm a educator needs to decision make in a split second, considering the following factors. This is described as dynamic risk assessment.

- What is the immediate risk to this child if I do not intervene now?
- What might the risks be if I do intervene? If this was my child, what would I want someone looking after them to do in this situation?
- What is the minimum level of intervention that will be effective here? How can I do this as gently as possible for as short a time as possible and how am I going to manage myself to stay calm?

Recording

Any instance of physical intervention is fully recorded immediately and reported to the designated person as soon as possible on the Safeguarding incident reporting form, ensuring that it is clearly stated when and how parents were informed. Parents are asked to sign a copy of the form which is then kept on the child's file. The designated person decides who will notify the parent and when,

ensuring that the parent signs to say they have been notified. An individual risk assessment should be completed after any physical intervention with a child which considers the risks and likelihood of such behaviour re-occurring and how this will be managed. The risk assessment should be agreed and signed by parents.

Temporary suspension (fixed term)

Any decision to temporarily suspend a child must be carefully considered lawful, reasonable and fair. If despite following the stepped approach for behaviour it is necessary to temporarily suspend a child, for no more than five days, on the grounds of health and safety, the following steps are followed.

- The setting manager provides a written request to suspend a child to their line manager; the request must detail the reason why the child must be suspended and the length of time of the proposed suspension.
- If the line manager approves, the parents must be invited to a meeting to discuss next steps. Parents are invited to bring a representative along. Notes must be taken at the meeting and shared later with the parents. The meeting must aim for a positive outcome for the child and not to suspend.
- If no acceptable alternative to suspension is found then the setting manager must give both verbal and written notice of time related suspension to the parent, meanwhile the setting manager must ensure that continued resolution is sought and suitable adjustments are in place for the child's return.

Suspension of a disabled child

We have a statutory duty not to discriminate against a child on the basis of a protected characteristic. This includes suspending a child based on a disability. Ignorance of the law or claiming it was unknown that a child was disabled is no defence. However, if the child's behaviour places themselves or others at risk then the setting must take actions to avoid further harm. Time limited suspension may be applied to keep the child and/or others safe whilst finding a solution. Suspension is only used if reasonable steps and planned adjustments are first used to help resolve the situation. Without this action, suspension of a child with SEND may constitute disability discrimination (Equality Act 2010). A decision to suspend a disabled child must be clearly evidenced, specific, measurable, achievable, realistic and targeted. Plans and intervention must be recorded on the child's file and the SEN Support - Action plan. If little or no progress is made during the suspension period, the following steps are taken.

- The setting manager sends a written/electronic invite to the parents, a local authority representative and any relevant external agencies to attend a review meeting. Each attendee must be made aware that the meeting is to avoid the situation escalating further and to find a positive solution.
- After the meeting the setting manager continues to maintain weekly contact with the parents and local authority to seek a solution.
- Suitable arrangements offer the parent continued support and advice during the suspension. The setting manager reviews the situation fortnightly and provides their line manager with a monthly update.

Expulsion

In some exceptional circumstances a child may be expelled due to:

- a termination of their childcare agreement as explained in the Childcare terms and conditions
- if despite applying a range of interventions (including reasonable adjustments), the setting has been unable to adequately meet the child's needs or cannot protect the health, safety and well-being of the child and/or others.

Challenging unwanted behaviour from adults in the setting

We do not tolerate behaviour demonstrating dislike, prejudice, discriminatory attitudes or action towards any individual/group. This includes those living outside the UK (xenophobia). This also applies to behaviour towards specific groups of people and individuals who are British Citizens residing in the UK.

Allegations of discriminatory remarks or behaviour made in the setting by any adult will be taken seriously. The perpetrator will be asked to stop the behaviour and failure to do so may result in the adult being asked to leave the premises. Where a parent makes discriminatory or prejudice remarks to staff at any time, or other persons while on the premises, this is recorded on the child's file and is reported to the setting manager. The procedure is explained and the parent is asked to comply while on the premises. An 'escalatory' approach will be taken with those who continue to exhibit this behaviour. The second stage comprises a letter to the parent requesting them to sign a written agreement not to make discriminatory remarks or behave in discriminatory or prejudice ways; the third stage may be considering withdrawing the child's place.

Health and safety general standards

Designated Health and Safety Officer are: Jacqueline Piaf and Caryl Freeman

Aim

Our provision is a suitable, clean and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for health and safety and fulfil the criteria for meeting the Early Years Foundation Stage Safeguarding and Welfare Requirements.

Objectives

- We recognise that we have a corporate responsibility and duty of care towards those who work in and receive a service from our provision. Individual staff and service users also have responsibility for ensuring their own safety as well as that of others. Adherence to policies and procedures and risk assessment is the key means through which this is achieved.
- Insurance is in place (including public liability) and an up-to-date certificate is always displayed.
- Risk assessment is carried out to ensure the safety of children, staff, parents, and visitors. Legislation requires all those individuals in the given workplace to be responsible for the health and safety of premises, equipment and working practices.
- Smoking or vaping is not allowed on the premises, both indoors and outdoors. If children use any public space that has been used for smoking, members of staff ensure that there is adequate ventilation to clear the atmosphere. Staff do not smoke in their work clothes and are requested not to smoke within at least one hour of working with children. The use of electronic cigarettes is not allowed on the premises.
- Staff must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If staff are taking medication that they believe may impair them, they seek further medical advice and only work directly with children if that advice is that the medication is unlikely to impair their ability to look after children. The setting manager must be informed.
- Alcohol must not be bought onto the premises for consumption.
- A risk assessment and access audit are carried out for each area and the procedure is modified according to needs identified for the specific environment.
- Risk assessments are monitored and reviewed by those responsible for health and safety.

- Jacqueline Piaf and Caryl Freeman are both trained Health and safety officers

Health and Safety Executive www.hse.gov.uk/risk

Food Standards Agency www.food.gov.uk

Ministry of Housing, Communities & Local Government www.communities.gov.uk

Group room and corridors

- Significant changes such as structural alterations or extensions are reported to Ofsted. A risk assessment is done to ensure the security of the building during building work.
- Door handles are placed high or alternative safety measures are in place.
- Chairs are stacked safely and not too high.
- Where possible windows are opened regularly to ensure flow of air.

- Floors are properly dried after mopping up spills.
- Children do not have unsupervised access to corridors.
- Floor covering on corridors is checked for signs of wear and tear.
- Materials and equipment are not generally stored in corridors, but where this is the case, it does not block clear access or way out.
- Walkways are uncluttered and adequately lit.
- Corridors are checked to ensure that safety and security is maintained, especially in areas that are not often used, or where there is access to outdoors
- Socket safety inserts are not used as there is no safety reason to do so, modern plug sockets are designed to remove risk of electrocution if something is poked into them. Socket covers (that cover the whole socket and switch) may be used, please note these are different to socket inserts.

Children's bathrooms/changing areas

- Children are provided with baskets (or other storage) for spare clothing and nappies/pants
- Changing mats are cleaned and disinfected.
- Disposable nappies/trainers are cleared of solid waste and placed in nappy disposal units.
- Staff use single use gloves and aprons to change children and wash hands when leaving changing areas. Please note that gloves are not always required for a wet nappy if there is no risk of infection, however, gloves are always available for those staff who choose to wear them for a wet nappy. Gloves are always worn for a 'soiled' nappy.
- Staff never turn their backs on or leave a child unattended whilst on a changing mat.
- Changing areas or stands are provided for older (disabled) children, if required.
- Anti-bacterial spray is not used where residue may have direct contact with skin.
- Anti-bacterial sprays used in nappy changing areas are not left within the reach of children.
- Natural or mechanical ventilation is used; chemical air fresheners are not used.
- All other surfaces are disinfected daily.

Children's toilets and wash basins

- Children's toilets are cleaned daily using disinfectant cleaning agent for the bowls (inside and out), seat and lid, and whenever visibly soiled.

- Toilet flush handles are disinfected daily.
- Toilets not in use are checked to ensure the U-bend does not dry out and are flushed every week. Taps not in use are run for several minutes every two to three days to prevent infections such as Legionella.
- There is a toilet brush available for children's toilets.
- Cubicle doors and handles (or curtains) are washed weekly.
- Children's hand basins are cleaned twice daily and whenever visibly soiled, inside, and out using disinfectant cleaning agent. Separate cloths are used to clean basins etc. and are not interchanged with those used for cleaning toilets. Colour coded cloths are used.
- Mirrors and tiled splash backs are washed daily.
- Paper towels are provided.
- Bins are provided for disposal of paper towels and are emptied daily.
- All bins are lined with plastic bags.
- Staff who clean toilets wear rubber gloves.
- Staff changing children wear gloves and aprons as appropriate.
- Wet or soiled clothing is sluiced, rinsed, and put in a plastic bag for parents to collect.
- Floors in children's toilets are washed twice daily.
- Spills of body fluids are cleared and mopped using disinfectant.
- Mops are rinsed and wrung after use and stored upright.
- Used water is discarded down the outdoor drain.

Kitchen

General safety

- Doors to the kitchen are kept always closed.
- Children do not have unsupervised access to the kitchen.
- Children are not taken to the kitchen when meal preparation is taking place.
- Wet spills are mopped immediately.
- Mechanical ventilation is used when cooking.

- A clearly marked and appropriately stocked First Aid box is kept in the kitchen.

Cleanliness and hygiene

Staff follow the recommended cleaning schedules in Safer Food Better Business (SFBB).

- Floors are washed down at least daily.
- All work surfaces are washed regularly with anti-bacterial agent.
- Inside of cupboards are cleaned monthly.
- Cupboard doors and handles are cleaned regularly.
- Fridge and freezer doors are wiped down regularly
- Ovens/cooker tops are wiped down daily after use; ovens are fully cleaned monthly.
- Where possible all crockery and cutlery are air dried.
- Plates and cups are only put away when fully dry.
- Tea towels, if used, are used once. They are laundered daily.
- Any cleaning cloths used for surfaces are washed and replaced daily.
- There is a mop, bucket, broom, dustpan, and brush.
- Any repairs needed are recorded and reported to the manager.

Further guidance

Safer Food Better Business: Food safety management procedures and food hygiene regulations for small business: www.food.gov.uk/business-guidance/safer-food-better-business

Outdoors

- All gates and fences are childproof, safe, and secure.
- Areas are checked daily to make sure animal droppings, litter, glass etc. is removed. Staff wear rubber gloves to do this.
- Bushes or overhanging trees are checked to ensure they do not bear poisonous berries.
- Stinging nettles and brambles are removed.
- Safety mats are provided under climbing equipment, even when on grass
- Wooden equipment is maintained safely, put away daily and not used if broken.
- Wooden equipment is sanded and varnished as required.

- Broken climbing equipment or outdoor toys are removed and reported to the setting manager.
- Children are always supervised within ratios outside.
- Children are suitably attired for the weather conditions and type of outdoor activities.
- Sun cream (if parents have given permission) is applied and hats are worn during the summer months. Outdoor play is avoided in extreme heat between noon and 3pm.
- Children who have no adequate means of sun protection, such as a hat, long sleeves and trousers or sun cream, will not be able to play outdoors in un-shaded areas.
- Children are supervised on climbing equipment, especially younger children.
- Water play is not left out but is cleared, cleaned and stored after each use.
- Receptacles are left upturned to prevent collection of rainwater, this is important in areas where there are vermin to prevent urine/faeces contaminating the water.
- Sightings of vermin are recorded and reported to the manager who reports to the Environmental Health's Pest Control Department.
- Outdoor areas that have flooded are not used until cleaned down and restored. Grassed areas are not played on for at least one week after the floodwater has gone.
- If paddling pools are used, a risk assessment is conducted, and consideration given to the needs of disabled children or those less ambulant.

Drones

If there are concerns about a 'drone' being flown over the outdoor area, that may compromise children's safety or privacy, the setting manager will contact the police on 101.

- Children will be brought inside immediately.
- Parents will be informed that a Drone has been spotted flying over the outdoor area and will be advised fully of the actions taken by the setting.
- The police will have their own procedures to follow and will act accordingly.
- If at any point following the incident, photographs taken by a drone emerge on social media that could identify the nursery or individual children, these are reported to the police.
- A record is completed in the Notifiable Incident Record unless there is reason to believe that the incident might have safeguarding implications, for example:
 - the drone has hovered specifically over the outdoor area for any length of time
 - there is a likelihood that images of the children have been recorded

- is spotted on more than one occasion
- if the Police believe there is cause for concern

Where this is the case, the Safeguarding procedure is followed.

Further guidance

Reportable Incident Record (Pre-school Learning Alliance 2015)

Staff cloakrooms

- All areas are kept tidy and always uncluttered.
- Doors to staff/visitor toilets and cloakrooms are kept always shut.
- Toilet areas are not used for storage due to the risk of cross-contamination.
- Staff/visitor toilets are cleaned daily using disinfectant.
- Toilet flush handles are disinfected daily.
- There is a toilet brush provided per toilet and separate cleaning cloth.
- Toilets that are not in use are checked to ensure that the U-bend is not drying out and are flushed every week. Taps that are not in use are run for several minutes every two to three days to minimise the risk of infections such as legionella.
- Cubicle doors and handles are washed weekly.
- Staff hand basins are cleaned daily using disinfectant. Separate cloths are used to clean basins etc. and are not interchanged with those used for cleaning toilets.
- Floors in staff toilets are washed daily.
- Mirrors and tiled splash backs are washed daily.
- Paper towels or hot air dryers are provided for hand drying.
- Bins are provided for sanitary wear and cleared daily (or as per contract agreement).
- Bins are provided for disposal of paper towels and are cleared daily.
- All bins are lined with plastic bags.
- Members of staff who are cleaning toilets wear rubber gloves that are kept specifically for this purpose to prevent cross contamination.

Maintenance and repairs

Any faulty equipment or building fault is recorded, including:

- date fault noted
- item or area faulty
- nature of the fault and priority
- who the fault reported to for action
- action taken and when
- if no action taken by the agreed date, when and by whom the omission is followed up
- date action completed

Any area that is unsafe because repair is needed, such as a broken window, should be made safe and separated off from general use.

- Any broken or unsafe item is taken out of use and labelled 'out of use'.
- Any specialist equipment (e.g. corner seat for a disabled child) which is broken or unsafe should be returned to the manufacturer or relevant professional.
- Any item that is beyond repair is condemned. This action is recorded as the action taken and the item is removed from the setting's inventory.
- Condemning items is done in agreement with the setting manager. Condemned items are then disposed of appropriately and not stored indefinitely on site.
- Where maintenance and repairs involve a change of access to the building whilst repairs are taking place, then a risk assessment is conducted to ensure the safety and security of the building is maintained.

Control of Substances Hazardous to Health (COSHH)

- Staff implement the current guidelines of the Control of Substances Hazardous to Health (COSHH) Regulations.
- Personal protective equipment (PPE), such as rubber gloves, latex free/vinyl gloves, aprons etc., is available to all staff as needed and stocks are regularly replenished.
- Hazardous substances are stored safely away from the children.

- Chemicals used in the setting should be kept to the minimum to ensure health and hygiene is maintained.
- Risk assessment is done for all chemicals used in the setting.
- Environmental factors are considered when purchasing, using and disposing of chemicals.
- All members of staff are vigilant and use chemicals safely.
- Anti-bacterial soap/hand wash is not normally used, unless specifically advised during an infection outbreak, such as Pandemic flu or Covid-19
- Anti-bacterial cleaning agents are restricted to toilets, nappy changing areas and food preparation areas and are not used when children are nearby.
- Members of staff wear rubber gloves when using cleaning chemicals.

Entrances and approach to the building

- Entrances and approaches are kept tidy and always uncluttered.
- All gates and external fences are childproof and safe
- Front doors are always kept locked and shut.
- Where possible, entry phones and 'spy holes' are used in the main door at a suitable height.
- The identity of a person not known to members of staff is checked before they enter the building.
- All staff and visitors to the setting sign in and out of the building.
- A member of staff is available to open and close the door/gate and to greet arrivals, say goodbye to parents and to make sure that doors and gates are shut.
- Where building works or repairs mean that normal entrances/exits or approaches to the building are not in use, a risk assessment is conducted to maintain safety and security whilst the changes are in place.

Whilst social distancing restrictions are in place a risk assessment identifies measures required to keep parents two metres apart and to reduce risk of parents gathering in entrance areas during peak times.

Threats and abuse towards staff and volunteers

The setting is responsible for protecting the health and safety of all staff and volunteers in its services and has a duty of care in relation to their physical and emotional well-being. We believe that

violence, threatening behaviour and abuse against staff are unacceptable and will not be tolerated. Where such behaviour occurs, we will take all reasonable and appropriate action in support of our staff and volunteers.

- Staff and volunteers have a right to expect that their workplace is a safe environment, and that prompt and appropriate action will be taken on their behalf if they are subjected to abuse, threats, violence or harassment by parents, service users and other adults as they carry out their duties.
- The most common example of unreasonable behaviour is abusive or intimidating and aggressive language. If this occurs, the ultimate sanction, where informal action is not considered to be appropriate or has proved to be ineffective, is the withdrawal of permission to be on the premises.
- Where a person recklessly or intentionally applies unlawful force on another or puts another in fear of an immediate attack, it is an offence in law which constitutes an assault. We would normally expect the police to be contacted immediately.

There are three categories of assault, based on the severity of the injury to the victim.

1. Common Assault - involving the threat of immediate violence or causing minor injury (such as a graze, reddening of the skin or minor bruise).
2. Actual Bodily Harm - causing an injury which interferes with the health or comfort of the victim (such as multiple bruising, broken tooth or temporary sensory loss).
3. Grievous Bodily Harm - causing serious injury (such as a broken bone or an injury requiring lengthy treatment).

There is also an aggravated form of assault based upon the victim's race, religion, disability or sexual orientation and other protected characteristics as defined in the Equality Act 2010 which carries higher maximum penalties.

It is important to note that no physical attack or injury needs to have occurred for a common assault to have taken place. It is sufficient for a person to have been threatened with immediate violence and put in fear of a physical attack for an offence to have been committed.

Any staff member or volunteer who feels under threat or has been threatened, assaulted, or intimidated in the course of their work must report this immediately to their manager who will follow the setting manager's procedures and guidance for responding.

999 should always be used when the immediate attendance of a police officer is required. The police support the use of 999 in all cases where:

- there is danger to life
- there is a likelihood of violence
- an assault is, or is believed to be, in progress
- the offender is on the premises
- the offence has just occurred, and an early arrest is likely

If it is not possible to speak when making a 999 call because it alerts an offender, cough quietly or make a noise on the line, then follow the prompts to dial 55 (mobiles only) for a silent call. Police may be able to trace the call and attend the premises.

Harassment and intimidation

Staff may find themselves subject to a pattern of persistent unreasonable behaviour from individual parents or service users. This behaviour may not be abusive or overtly aggressive but could be perceived as intimidating and oppressive. In these circumstances staff may face a barrage of constant demands or criticisms on an almost daily basis, in a variety of formats for instance, email or telephone. They may not be particularly taxing or serious when viewed in isolation but can have a cumulative effect over a period of undermining their confidence, well-being, and health. In extreme cases, the behaviour of the parent or other service user may constitute an offence under the Protection from Harassment Act 1997.

If so, the police have powers to act against the offender. Such situations are rare but, when they do arise, they can have a damaging effect on staff and be very difficult to resolve. If the actions of a parent appear to be heading in this direction, staff should speak to their manager who will take appropriate action to support. This may include the manager sending a letter to the aggressor, warning them that their behaviour is unacceptable and may result in further action being taken against them. All incidents must be recorded and reported.

Banning parents and other visitors from the premises

- Parents and some other visitors normally have implied permission to be on the premises at certain times and for certain purposes, and they will not therefore be trespassers unless the implied permission is withdrawn.
- If a parent or other person continues to behave unreasonably on the premises a letter will be sent to them from the Committee, withdrawing the implied permission for them to be there.
- Further breaches may lead to prosecution of the person concerned by the police and they are treated as a trespasser.
- Full records are kept of each incident, in the Reportable Incident Record, including details of any person(s) who witnessed the behaviour of the trespasser(s), since evidence will need to be provided to the Court.

Dealing with an incident

- We would normally expect all cases of assault, and all but the most minor of other incidents, to be regarded as serious matters which should be reported to the setting manager and/or the police and followed up with due care and attention.
- A record of the incident must be made whether the police are involved or not.
- Whilst acknowledging that service users i.e. parents and families, may themselves be under severe stress, it is never acceptable for them to behave aggressively towards staff and volunteers. Individual circumstances along with the nature of the threat are considered before further action is taken.
- *All parties involved should consider the needs, views, feelings and wishes of the victim at every stage. We will ensure sympathetic and practical help, support and counselling is available to the victim both at the time of the incident and subsequently.*
- A range of support can be obtained:
 - from the setting manager, Committee and/or a staff colleague
 - from Victim Support on giving evidence in court
- In non-urgent cases, where the incident is not thought to be an emergency, but police involvement is required, all staff and volunteers are aware of the non-emergency police contact number for the area.
- 999 calls receive an immediate response. Unless agreed at the time, non-emergency calls are normally attended within 8 hours (24 hours at the latest).

- When they attend the setting or service, the police will take written statements from the victim (including a 'Victim Personal Statement') and obtain evidence to investigate the offence in the most appropriate and effective manner.
- The police will also consider any views expressed by the setting manager and owner/directors/trustees as to the action they would like to see taken. The manager should speak to the victim and be aware of his or her views before confirming with the police how they wish them to proceed.
- In some cases the victim may be asked by the police if he/she wishes to make a complaint or allegation against the alleged offender. It is important to ensure that the victim can discuss the matter with their line manager, a colleague or friend before deciding on their response. It is helpful for the victim to be assured that, if there is a need subsequently to give evidence in court, support can be provided if it is not already available from Victim Support.
- The decision regarding whether an individual is prosecuted is made by the police or Crown Prosecution Service (CPS) based on the evidence and with due regard to other factors.
- After the incident has been dealt with, a risk assessment is done to identify preventative measures that can be put in place to minimise or prevent the incident occurring again.

Harassment or intimidation of staff by parents/visitors

- The setting manager should contact their line manager for advice and support.
- Where the parent's behaviour merits it, the setting manager, with another member of staff present, should inform the parent clearly but sensitively that staff feel unduly harassed or intimidated and are considering making a complaint to the police if the behaviour does not desist or improve. The parent should be left in no doubt about the gravity of the situation and that this will be followed up with a letter drafted by the setting manager but sent to their line manager for approval before being issued.
- The setting manager and/or their line manager might wish to consider advising the parent to make a formal complaint. Information about how to complain is clearly displayed for parents and service users.
- If the investigation concludes that the parent's expectations and demands are unreasonable, and that they are having a detrimental effect on staff, the findings can strengthen the setting manager's position in further discussions with the parent and subsequently, if necessary, with the police.

Complaints relating to potential breaches of the EYFS Safeguarding and Welfare requirements will be managed according to the Complaints procedure for parents and service users.

Further guidance

Complaint Investigation Record (Pre-school Learning Alliance 2015)

Report Incident Record (Pre-school Learning Alliance 2015)

Notifiable incident, non- child protection

Staff respond swiftly, appropriately and effectively in the case of an incident within the setting.

Notifiable incidents in this procedure are those not involving child protection.

A 'notifiable' incident' could include:

- fire or suspected arson
- electric or Gas fault
- burst pipe, severe leak or flooding
- severe weather that has caused an incident or damage to property
- break-in with vandalism or theft
- staff, parent or visitor mugged or assaulted on site or in vicinity on the way to or from the setting
- outbreak of a notifiable disease
- staff or parent threatened/assaulted on the premises by a parent or visitor
- accidents due to any other faults (that are reportable under RIDDOR)
- lost child
- any event or information that becomes known, that may have implications for the setting or the wider organisation in the future use

The designated health and safety officer:

- has all emergency services numbers immediately to hand
- has a list of contacts for maintenance and repair
- ensure that members of staff know what to do in an emergency

- risk assess the situation and decides, with the owners/trustees/directors, if the premises are safe to receive children before any children arrive or to offer a limited service

Emergency evacuation

In most instances, children will not be evacuated from the premises unless there is an immediate risk or unless they are advised to do so by the emergency services.

- There is an emergency evacuation procedure in place which is unique to the setting and based upon risk assessment in line with others using the building.
- Emergency evacuation procedures are practised regularly and are reviewed according to risk assessment (as above).
- Staff evacuate children to a pre-designated area (as per the fire drill), unless advised by the emergency services that the designated area is not suitable at that time.
- Once evacuated, nobody enters the premises, until the emergency services say so.
- Members of staff will act upon the advice of the emergency services at all times.

- | |
|---|
| <ul style="list-style-type: none"> ▪ Our emergency evacuation procedures are <ul style="list-style-type: none"> - clearly displayed in the premises; - explained to new members of staff, volunteers and parents; and - practised regularly, at least once every term. |
|---|

Emergency Closure

The circumstances under which the setting may be closed due to an incident include:

- The Committee make the decision to close – thereby withdrawing the service.
- A third party makes the decision to close for example:
 - a school, where the setting is on a school site
 - the children's centre (if on a children's centre site)
 - the emergency services
- A parent makes the decision for their child not to attend.
 - If a parent makes the decision for their child not to attend due to a critical incident, the child's fees are due as normal.
 - Further consideration of individual incidences must be done in consultation with the owners/trustees/directors.

Recording and reporting

- On discovery of the notifiable incident, the member of staff reports to the appropriate emergency service, fire, police, ambulance, if those services are needed.
- The member of staff ensures that the setting manager and/or deputy are informed (if not on the premises at the time) and that the owners/trustees/directors are informed.
- The setting manager completes and sends an incident record to the owners/trustees/directors, who, according to the severity of the incident notifies Ofsted or RIDDOR.
- If the incident indicates that a crime may have been committed, all staff witness to the incident should make a written statement.
- Staff do not discuss the incident with the press.

RIDDOR reportable events include:

- Specified injuries at work, as detailed at www.hse.gov.uk/pubns/indg453.pdf
- Fatal accidents to staff, children and visitors (parents).
- Accidents resulting in the incapacitation of staff for more than seven days.
- Injuries to members of the public, including parents' and children, where they are taken to hospital.
- Dangerous 'specified' occurrences, where no-one is injured but they could have been. (these are usually industrial incidents).

This may include:

- a member of staff injures back at work through lifting and is off for two weeks
- a parent slips on a wet floor near the water tray and is taken to hospital
- a child falls from a climbing frame and is taken to hospital
- the ceiling collapses
- an outbreak of Legionella

The setting manager informs the owners/trustees/directors and completes an accident and/or incident record; witness statements are taken as previously detailed.

- If the incident is RIDDOR reportable, the setting manager telephones HSE Contact Centre on 0345 300 9923 or reports online at www.hse.gov.uk/riddor/report.htm
- RIDDOR Reportable events require reporting to RIDDOR within 15 days of the event occurring.

The local authority investigates all reported injuries, diseases or dangerous occurrences. They will decide if there has been a breach in health and safety regulations and will decide what measures will be taken.

The owners/trustees/directors review how the situation was managed, as above, to ensure that investigations were rigorous and that policies and procedures were followed.

If an insurance claim is likely:

- incidents such as fire, theft or flood are notified to the insurance provider immediately
- the setting does not admit liability
- if broken or faulty equipment is involved, it must not be repaired, destroyed or disposed of, in case it is needed during the investigation
- if communication from a solicitor is received on behalf of the injured party, this is sent directly to the insurance provider; the setting manager will then write to the solicitor to confirm that the letter has been passed on
- the incident is not discussed with any outside persons, or other parents, no matter what questions they may ask about their own child's safety in relation to the incident, as it is regarded as confidential under the Data Protection Act.

Manual handling

- All staff comply with risk assessment and have a personal responsibility to ensure they do not lift objects likely to cause injury. Failure to do so may invalidate an insurance claim.
- Members of staff bring the setting manager's attention to any new risk, or situations where the control measures are not working.
- Risk assessments may need to be changed for some individuals, such as a pregnant woman, or staff with an existing or previous injury or impairment that may affect their capacity to lift.
- Risk assessment is carried out of the environment in which the lifting is done. Features such as uneven floor surfaces, stairs, etc. add to the general risk and need to be taken into consideration.
- The setting manager ensures that they and their staff are trained to lift and move heavy objects and unstable loads correctly. Babies and young children are also heavy and need to be lifted and carried carefully and correctly.

Guidelines:

- Do not lift heavy objects alone. Seek help from a colleague.
- Bend from the knees rather than the back.
- Do not lift very heavy objects. even with others. that are beyond your strength.
- Use trolleys for heavy items that must be carried or moved on a regular basis.
- Items should not be lifted onto, or from, storage areas above head height.
- Do not stand on objects, other than proper height steps, to reach high objects and never try to over-reach.
- Push rather than pull heavy objects.
- Do not carry heavy objects up or down stairs; or carry large objects that may block your view of the stairs.
- Do not hold babies by standing and resting them on your hips.

Please note this is not an exhaustive list.

- Managers are responsible for carrying out risk assessments for manual handling operations, which includes lifting/carrying children and lifting/carrying furniture or equipment.

Jewellery and hair accessories

Children, staff members, volunteers and students do not attend the setting wearing jewellery or fashion accessories that may pose a potential hazard to other children or themselves.

- Health and safety take precedence over respect for culture, religion or fashion.
- Members of staff do not wear jewellery or fashion accessories, such as belts or high heels, that may pose a danger to them or to young children. These include large rings with sharp edges, earrings - other than studs, chain necklaces, or bracelets with attachments that can be pulled off, or belts with large buckles.
- Parents must ensure that any jewellery worn by children poses no risk, for example, earrings which may get pulled, bracelets which can get caught when climbing, or necklaces that may pose a risk of strangulation.
- Children may wear small, smooth stud earrings.

- Children, staff, and volunteers do not wear anything with sharp edges that could scratch children, or jewellery with small elements that could become detached and swallowed.
- Hair accessories that may come loose pose a choking hazard are removed before children sleep or rest.
- Parents are requested not to send children wearing hair beads. If staff see beads that are coming loose, they will remove them.
- Hair accessories that may pose a choking hazard to other children should they become detached, should be removed if members of staff consider this to be a possibility.
- Amber beads for teething pain relief are not to be worn due to the risk of choking posed to the infant and other children who may remove them.

Animals and pets

- Staff will be aware of any allergies or issues individual children may have with any animals/creatures.

Animals brought in by visitors

- The owner of the animal/creature maintains responsibility for it in the setting.
- The owner carries out a risk assessment detailing how the animal/creature is to be handled and how any safety or hygiene issues will be addressed.

Further guidance

Good Practice in Early Years Infection Control (Pre-school Learning Alliance 2009)

Face painting and mehndi

Children are face painted only if parents have given prior written consent. Verbal consent is fine at events where parents are present.

- A child who does not want to have their face painted will not be made to continue.
- Children under two years of age are generally not fully face painted, however a nose and whiskers (or similar) is fine. Having an arm or hand painted with a flower, star or butterfly is also an option for very young children who may not sit still.
- Children with open sores, rashes or other skin conditions are not painted.
- Glitter based face paints are not used on children under two years of age.

- Members of staff painting children's faces wash their hands before doing so, cover any cuts or abrasions and ensure they have the equipment they need close to hand.
- Only products with ingredients compliant with EU and FDA regulations are used.
- Clean water is used to wash brushes and sponges between children. Ideally a sponge is used once only before being machine washed on a hot cycle.
- Staff face painting at an event ensure they have a comfortable chair or shoes if standing, to reduce the risk of back or neck strain. Face painting is an activity that can cause repetitive stress injuries, therefore, regular breaks are not taken at events such as fetes.

Mehndi painting

- Staff never mehndi paint children under three years old using henna/henna-based products.
- Parental permission must be gained before staff mehndi paint children over the age of three years old.
- Children prone to allergies, anaemic or suffering from any illness that may compromise their immune system are never painted under any circumstances.
- Black henna is never used and only 100% natural red henna (diluted with water) is used on children
- It is preferable that non-henna products are used to create mehndi patterns but if the setting operates in an area where mehndi is practiced by families and the criteria above is followed then henna may be used.

Further guidance

Good Practice in Early Years Infection Control (Pre-school Learning Alliance 2009)

Festival (and other) decorations

General

- Basic safety precautions apply equally to decorations put up for any festival as well as to general decorations in the setting. Children are informed of dangers and safe behaviour, relative to their level of understanding.

Decorations

- Only fire-retardant decorations and fire-retardant artificial Christmas trees are used.
- Paper decorations, other than mounted pictures, are not permitted in the public areas of the buildings, for example, lobbies, stairwells etc.

Electrical equipment.

- Electrical equipment (a light, extension leads etc) must be electrically tested before use.
- If using tree lights, place the tree close to an electrical socket and avoid using extension leads. Always fully uncoil any wound extension lead to avoid overheating.
- Remember to unplug the lights at the end of the day.
- Electrical leads are arranged in such a way that they do not create a trip hazard.

Location

- Trees and decorations must never obstruct walkways or fire exits.
- Do not place decorations on or close to electrical equipment (e.g. computers); they are a fire hazard.
- Decorations must be clear of the ceiling fire detectors, sprinklers, and lights.

Children's areas

- Christmas trees are placed where children cannot pull them over.

Glass decorations are not used.

SUN SAFE NURSERIES - SUN SAFETY POLICY

RATIONAL

Too much exposure to ultraviolet light (UV) radiation from the sun causes sunburn, skin damage and increases the risk of skin cancer. Sun exposure in the first 15 years of life contributes significantly to the lifetime risk of skin cancer.

There is potential for nurseries to help prevent skin cancer in future generations because:

- Nurseries can play a significant role in changing behaviours through role modelling and education from an early age.
- Children and staff are at risk of sunburn within 10-15 minutes of being exposed to strong sunlight.
- Skin cancer is largely preventable through behaviour modification and sun protection during early years.

The main elements of this policy are:

- Partnership: working with parents/guardians, nursery staff and the wider community to reinforce awareness about sun safety and promote a healthy nursery.
- Education: learning about sun safety to increase knowledge and influence behaviour.
- Protection: providing an environment that enables children and staff to stay safe in the sun.

PARTNERSHIP

- Sun safety will be promoted through working with parents, staff and the wider community to improve our understanding and provision to avoid the harmful effects of too much exposure to ultraviolet light (UV).
- Staff should act as positive role models and set a good example by seeking out the shade whenever possible and wearing suitable clothing, hat and sunscreen.

EDUCATION

- Parents and guardians will be asked through letters/newsletters to support this policy by encouraging their children to adopt the Slip, Slop, Slap message and act as role models.
- Children will be taught the 'Slip, Slop, Slap' Song which will help them remember the basic Sun Safe message
- Children will be read 'George the Sun Safe Superstar', an illustrated, rhyming story that educates children on the importance of Sun Safety and staff will regularly reinforce the sun safe messaging through discussion.

PROTECTION

Shade:

- The nursery playground has shade provided either by the school building, outdoor shelter(s), trees and/or we have temporary structures i.e. gazebos, etc for use during outdoor play.
- Children will be encouraged to use the shaded areas during playtimes when appropriate.

Clothing:

- The children will be encouraged to wear clothes that provide good sun protection.
- Parents/guardians will be duly informed of the importance to provide the nursery with appropriate sun hats and

Sunscreen as advised by the national skin cancer charity 'Skcin'.

- The nursery will provide spare appropriate sun hats and quality sunscreen on site at all times.

Drinking Water:

- Children are encouraged to increase their water intake in hot weather and are encouraged to drink water during outdoor play times.

Risk assessment

Risk assessments are carried out to ensure the safety of children, staff, parents and visitors.

Legislation requires all individuals in the workplace to be responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' towards a 'duty of care' for those who work in and receive a service from our provision. Individuals also have responsibility for ensuring their own and others safety.

- The risk assessment form is completed for each area of work, and the areas of the building that are identified in these procedures
- An access audit is completed to ensure inclusion and the health and safety of all visitors, staff, and children. The relevant procedure is modified if required to match the assessment.
- A prioritised place risk assessment is completed for offering prioritised places during a national pandemic (such as Covid-19). A separate form is completed for each child who is prioritised because they are vulnerable, or meet any other criteria stipulated by the Government at the time. Risk assessment is also completed for each individual group/room as appropriate. If the risk assessment indicates a high risk if the place is offered, that cannot be minimised, the offer of the place may be withdrawn at the discretion of the setting manager.

Risk assessment means: *Taking note of aspects of your workplace and activities that that could cause harm, either to yourself or to others, and deciding what needs to be done to prevent that harm, making sure this is adhered to and is updated when necessary.*

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is particularly important when balancing the need for children to be able to take appropriate risks through physically challenging play. Children need the opportunity to work out what is not safe and what they should do when faced with a risk.

Daily safety sweeps and checks indoors and outdoors

- Safety sweeps are conducted when setting up for the day prior to children arriving or closing in the evening. Sometimes a safety sweep will identify a risk that requires a formal risk assessment. For example, if a window latch is becoming stiff and a educator has to stand on a chair in order to reach it to ensure it has closed properly.

Health and safety risk assessments

Health and safety risk assessments inform procedures. Staff and parents should be involved in reviewing risk assessments and procedures, as they are the ones with first-hand knowledge as to

whether the control measures are effective and they can give an informed view to help update procedures accordingly.

The setting manager undertakes training and ensures staff have adequate training in health and safety matters. The setting manager also ensures that checks/work to premises are carried out (via the landlord) and records are kept.

- Gas safety by a Gas Safe registered gas/heating engineer.
- Electricity safety by a qualified electrician.
- Fire precautions to check that all fire-fighting equipment and alarms are in working order.
- Hot air heating systems/air conditioning systems cleaned and checked.
- Deep clean is carried out in kitchen.

The setting manager ensures that staff members carry out risk assessments that include relevant aspects of fire safety, food safety, in each of the following areas of the premises:

- Entrance and exits.
- Outdoor areas.
- Passageways, stairways and connecting areas.
- Group rooms.
- Main kitchen.
- Rooms used by others or for other purposes.

The setting manager ensures staff members carry out risk assessment for off-site activities, such as children's outings (including use of public transport), including:

- forest school
- home visits
- other duties off-site such as attending meetings, banking etc

The setting manager ensures staff members carry out risk assessment for work practice including:

- the intimate care of young children and older children
- arrivals and departures
- children with allergies and special dietary needs or preferences

- serving food in group rooms
- cooking activities with children
- supervising outdoor play and indoor/outdoor climbing equipment
- assessment, use and storage of equipment for disabled children
- visitors to the setting who are bringing equipment or animals as part of children's learning experiences, for example 'fire engines'
- following any incidents involving threats against staff or volunteers
- following any accident or incident involving staff or children

The setting manager liaises with Crime Prevention Officers as appropriate to ensure security arrangements for premises and personnel are appropriate.

Visitor or intruder on the premises

The safety and security of the premises is maintained at all times and staff are vigilant in areas that pose a risk, such as shared premises. A risk assessment is completed to ensure that unauthorised visitors cannot gain access.

Visitors with legitimate business - generally a visitor will have made a prior appointment

- On arrival, they are asked to verify their identity and confirm who they are visiting.
- Staff will ask them to sign in and explain the procedures for the use of mobile phones and emergency evacuation.
- Visitors (including visiting VIPs) are never left alone with the children at any time.
- Visitors to the setting are monitored and asked to leave immediately should their behaviour give cause for concern.

Intruder

An intruder is an individual who has not followed visitor procedures and has no legitimate business to be in the setting; he or she may or may not be a hazard to the setting.

- An individual who appears to have no business in the setting will be asked for their name and purpose for being there.
- The staff member identifies any risk posed by the intruder.
- The staff member ensures the individual follows the procedure for visitors.
- The setting manager is immediately informed of the incident and takes necessary action to safeguard children.
- If there are concerns for the safety of children, staff evacuate them to a safe place in the building and contact police. In some circumstance this could lead to 'lock-down' of the setting and will be managed by the responding emergency service.
- The designated person informs their designated officer of the situation at the first opportunity.

In the case of a serious breach where there was a perceived or actual threat to the safety of the children, the manager/designated person completes the confidential safeguarding incident report form and copies in their line manager on the day of the incident. The Committee ensures a robust organisational response and ensure that learning is shared.

Role of signatory (e.g. chair, director or owner)	Manager	

Incapacitated parent

Incapacitated refers to a condition which renders a parent unable to take responsibility for their child; this could be at the time of collecting their child from the setting or on arrival. Concerns may include:

- appearing drunk
- appearing under the influence of drugs
- demonstrating angry and threatening behaviour to the child, members of staff or others
- appearing erratic or manic

Informing

- If a member of staff is concerned that a parent displays any of the above characteristics, they inform the designated person as soon as possible.
- The designated person assesses the risk and decides if further intervention is required.
- If it is decided that no further action is required, a record of the incident is made on the Safeguarding incident reporting form.
- If intervention is required, the designated person speaks to the parent in an appropriate, confidential manner.
- The designated person will, in agreement with the parent, use emergency contacts listed for the child to ask an alternative adult to collect the child.
- The emergency contact is informed of the situation by the designated person and of the setting's requirement to inform social care of their contact details.
- The designated officer is informed of the situation as soon as possible and provides advice and assistance as appropriate.
- If there is no one suitable to collect the child social care are informed.
- If violence is threatened towards anybody, the police are called immediately.
- If the parent takes the child from the setting while incapacitated the police are called immediately and a referral is made to social care.

Recording

- The designated person completes the Safeguarding incident reporting form and if social care were contacted the Confidential safeguarding incident report form is completed by the designated officer. If police were contacted, the Confidential safeguarding incident report form should also be copied to the Committee.
- Further updates/notes/conversations/ telephone calls are recorded.

Food, nutrition and safer eating policy

Willaston Pre-school understands that good nutrition is important to make sure children:

- get the right amount of nutrients they need while they are growing rapidly
- don't consume too much food, which may lead them to become overweight or obese

We have a **Prime Times - Snack Times and Mealtimes and Food safety and nutrition policy** sections in our general policy document and these cover:

- information that covers all aspects of our setting's approach to food and healthy eating
- information on how our policy is developed e.g. in partnership with children, parents and/or carers and staff
- information on our food and drink provision
- the mealtime environment and social aspects of mealtimes
- celebrations and special occasions
- management of food allergies and dietary needs
- provision for cultural and dietary preferences
- policy on food brought in from home
- learning about food
- cooking with children
- food safety and hygiene
- sustainability

Food brought in from home Families may wish to provide food from home and some children may need to bring their own meals and snacks for medical or cultural reasons. Having a food and nutrition policy in place and communicating this to parents and/or carers can help them to understand your regulatory obligation to provide healthy, balanced and nutritious food to children and encourage healthier food choices for packed lunches. It is important to ensure that food provided from home aligns with the healthy options offered by the setting, so that children receive consistent messages about nutrition.

Willaston Pre-school promote healthy eating and safer eating by-

Leadership team responsibilities
Steps we have taken to ensure there is a whole setting approach to healthy eating- • A 'whole-setting' food policy covering all aspects of the approach to food and healthy eating is developed, consulted, shared and regularly reviewed by staff, families and children. • Nutrition and food Policy. • Jacqueline Piaf, Caryl Freeman and Jackie Herring are responsible for healthy food provision and food education in setting. • JP and CF will get the professional voice of practitioners. • JP and CF will ensure that all staff are able to share the setting's approach to healthy eating with parents/carers and children. • Families and children are consulted and encouraged to give feedback (e.g. survey/questionnaire, comments box) about the meals and snacks offered.

• Complete menu planning taking EYFS Government Nutrition Guidance document and Recipes and meal ideas - Start for Life - NHS into consideration.
Menu planning and provision
• Meals and snacks are planned using evidence-based age appropriate national best practice food and drink guidelines. • Menus for meals and snacks are planned for a week or more to include different tastes, colours and textures, are seasonal, sustainable and minimise impact on the environment. • Menus are shared on the notice board to ensure parents/carers know what is provided. • Information about dietary requirements is collected for children before starting to attend the setting. • Policies and procedures are in place to support and manage children's dietary requirements. • Food allergen information is available for all food and drink provided in line with EU and UK legislation. • All staff receive training on handling and effectively communicating allergen information. All staff are trained in Allergies and intolerances. • Staff are trained to understand the specific dietary requirements of different aged children, and to help children learn about food and make informed healthy choices. • Water is easily accessible for all children, and they are encouraged to drink water. • • The area where children eat is clean, warm, bright and the furniture, plates, and cutlery are suitable for young children. • Children are encouraged to try new foods and there is an agreed approach to manage fussy eating included in the settings food policy. • Meal and snack times are used as an opportunity to talk to children about healthy eating, to help children to develop good eating habits, social skills including speaking and listening. • Staff and children sit together, and staff engage children in conversation and act as positive role models. • Food and drink brought from home are appropriately stored. • Healthy eating advice is given to parents on the types of food and drink brought in from home. • Menus are based around seasonally available produce.
Education
• Learning about and through food is integrated into the seven areas of learning and development and is considered throughout the settings educational programme. • Children are given the opportunity to grow, shop, prepare and cook food. • Children know the importance of physical exercise for good health, and a healthy diet, and can talk about ways to keep healthy and safe.
Wider Well being
We follow the current food safety regulations and the food hygiene regulations requirements in the EYFS • Policies and procedures are in place and are routinely monitored to demonstrate how responsibilities under the Food Safety Act 1990 are followed.

- The setting is registered with the relevant local authority health department to provide food.
- All staff who handle or prepare food have up to date Food Handling Certificates and are fully trained in food storage, preparation, cooking and food safety.
- Staff development plans and Continuing Professional Development (CPD) records that all staff have completed relevant training are monitored to evaluate the impact of the training on how they use their knowledge of health and wellbeing to impact on children's outcomes.
- The setting follows and signposts parents/caterers to appropriate evidence-based healthy eating advice and resources and local services such as breastfeeding network, health visitors, healthy weight team, dietitians, registered nutritionists, dentists, physical activity groups, food safety team and environmental health.
- Celebrations- foods otherwise not provided may be eaten during celebrations but these will not take place more than once a month.

EYFS (2025) Safer Eating

Willaston Pre-school will ensure that-

- The presence of at least 2 Paediatric first aider trained member of staff at all times when children are eating
- Willaston Pre-school obtains information about special dietary requirements, preferences, food allergies and intolerances and other health requirements before the child enters the setting. This information is shared with all staff. For each child, the person responsible for checking their meals are safe for them to eat is the cook.
- In association with parents / carers, and healthcare professionals when required, create allergy action plans for children with allergies. Note that allergies and intolerances can develop at any time, so these must be updated as and when required. Willaston Pre-school will ask parents to inform us if their child has any new dietary requirements.
- Prepare food suitably to prevent choking
- Children will be seated on low chairs or picnic style for eating.
- Staff will observe children closely while eating. When possible, practitioners should sit facing the children; this allows for early intervention in the case of choking or allergic reactions. It also allows the practitioner to watch out for children swapping food.
- Choking incidents are be recorded and the parents / carer made aware. As with any near miss incident, these are reviewed regularly to identify any common issues that need to be addressed.
- Willaston Pre-school has an anti-choking device which will be used by a qualified first aider.

Food safety and nutrition policy

Aim

Our setting is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for food safety and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare requirements

Objectives

- We recognise that we have a corporate responsibility and duty of care for those who work in and receive a service from our provision, but individual employees and service users also have responsibility for ensuring their own safety as well as that of others. Risk assessment is the key means through which this is achieved.
- The Kitchen Policy is followed for general hygiene and safety in food preparation areas.
- We provide nutritionally sound meals and snacks which promote health and reduce the risk of obesity and heart disease that may begin in childhood.
- We follow the main advice on dietary guidelines and the legal requirements for identifying food allergens when planning menus based on the four food groups:
 - meat, fish, and protein alternatives
 - milk and dairy products
 - cereals and grains
 - fresh fruit and vegetables.
- Following dietary guidelines to promote health also means taking account of guidelines to reduce risk of disease caused by unhealthy eating.
- Parents share information about their children's particular dietary needs with staff when they enrol their children and on an on-going basis with their key person. This information is shared with all staff who are involved in the care of the child.
- Foods provided by the setting for children have any allergenic ingredients identified on the menus.
- Care is taken to ensure that children with food allergies do not have contact with food products that they are allergic to.

- Risk assessments are conducted for each individual child who has a food allergy or specific dietary requirement.

Food preparation, storage and purchase

General

- All staff have up to date certificated training on food safety and allergy awareness.
- Cooks refer to Eat Better, Start Better (Action for Children 2017) and Example menus for early years settings in England (PHE 2017) which contains guidance on menu planning, food safety, managing food allergies and reading food labels.
- The setting manager is responsible for ensuring that the requirements in Safer Food Better Business are implemented.
- Cooks and all staff responsible for preparing food have undertaken the Food Allergy Training.
- The setting manager is responsible for overseeing the work of the cook and all food handlers to ensure hygiene and allergy procedures are complied with.
- The setting manager has responsibility for conducting risk assessment based on the 'Hazard Analysis and Critical Control Point' method set out in Safer Food Better Business.
- Cooks carry out and record daily opening/closing checks, four weekly reviews and dated records of deep cleaning.
- The cook and setting manager maintain a Food Allergy and Dietary Needs folder with:
 - a list of all children with known food allergies or dietary needs updated at least once a term (the personal/medical details about the allergy or dietary needs remain in the child's file along with a copy of the risk assessment). This is clearly displayed for all staff and the risk assessment shared with all staff.
 - a record of food menus along with any allergens using
 - a copy of the FSA booklet 'Allergen information for loose foods' available at www.food.gov.uk/sites/default/files/media/document/loosefoodsleaflet.pdf
 - a copy of the Food Allergy Online Training CPD certificate for the cook and each member of staff that has undertaken the training
- The setting manager is responsible for informing the Committee who then report to Ofsted any food poisoning affecting two or more children looked after on the premises. Notification must be made as soon as possible and within 14 days of the incident.

Purchasing and storing food

- Food is purchased from reputable suppliers.

- Pre-packed food (any food or ingredient that is made by one business and sold by another such as a retailer or caterer) is checked for allergen ingredients and this information is communicated to parents alongside menu information. For example, a meat pie bought at a supermarket or a tin of baked beans or the ingredients for a recipe prepared on site.
- If food that is not pre-packed (described as 'loose food'), such as sandwiches bought from a bakery is served, then allergen information will have been provided by the retailer, this information must then be shared in the same way with parents.
- Bulk buy is avoided where food may go out of date before use.
- All opened dried food stuffs are stored in airtight containers.
- Dried packaged food is not decanted from packaging into large bins or containers as this prevents monitoring of sell by/use by dates and allergen information.
- Food is regularly checked for sell by/use by dates and any expired items are discarded.
- Bottles and jars are cleaned before returning to the cupboards.
- Items are not stored on the floor; floors are kept clear so they can be easily swept.
- Perishable foods such as dairy produce, meat and fish are to be used the next/same day. Soft fruit and easily perishable vegetables are kept in the fridge at 1- 5 Celsius.
- Food left over should not be frozen unless it has been prepared for freezing, such as home-made bread or stews. Hot food should be left to cool for up to 1.5 hours or tested that they are cool enough by a probe, and then quickly frozen.
- Fridge and freezer thermometers should be in place. Recommended temperatures for fridge 37 degrees Fahrenheit (3 degrees Celsius), and freezers 0 degrees Fahrenheit (-18 degrees Celsius). Temperatures must be checked and recorded daily to ensure correct temperatures are being maintained.
- Meat/fish is stored on lower shelves and in drip-free dishes.
- Fruit and vegetables stored in the fridge are washed thoroughly before refrigeration to reduce risk of pests and E.coli contamination.
- Staff's own food or drink should be kept in separate designated area of the fridge; where possible, a fridge should be kept in the staff room to avoid mix ups.
- Items in fridges must be regularly checked to ensure they are not past use by dates.

Preparation of food

- Food handlers must check the content of food/packets to ensure they do not contain allergens.
- Food allergens must be identified on the menus and displayed for parents.
- Food handlers wash hands and cover any cuts or abrasions before handling food.
- Separate boards and knives are used for chopping food, usually colour coded.
- Raw and cooked foods are prepared separately.
- All vegetables and fruit are washed before preparing.
- Food left out is covered, for example when cooling down.
- Where a microwave is used, food is cooked according to manufacturer's instructions. Generally, it is not used to heat children's food and never used to heat babies' bottles.
- Microwaved food is left to stand for a few minutes before serving.
- A food probe is used to check temperature of food, including where heated in a microwave; it is checked in a number of places to avoid 'hot spots'.
- Food is cooked in time for serving and is not prepared in advance of serving times.
- Hot cupboards or ovens are not used to keep food warm.
- Potatoes and vegetables are peeled when needed, not in advance and left in water.
- Food prepared and cooked for different religious dietary needs and preferences, such as Halal or Kosher meat is cooked in separate pans and served separately.
- Food cooked for vegetarians does not come into contact with meat or fish or products.
- Food cooked and prepared for children with specific dietary needs is cooked in separate pans and served separately.
- Food prepared for children with dietary needs and preferences is clearly labelled and every effort is made to prevent cross-contamination.

Serving Food

- Staff risk assess the likelihood of children with dietary restrictions accessing the food of other children and must take appropriate action to prevent this from happening, for example:
 - check the list of children's dietary requirements displayed in the food preparation area
 - coloured plates

- place mats
- other methods as agreed by the setting manager
- Children with allergies/food preferences are not made to feel 'singled out' by the methods used to manage their allergy/food preference.
- Food served to children with identified allergies is checked by staff to ensure that the meal (and its ingredients) does not contain any of the allergens for that child.
- Food is taken from the kitchen to the rooms on a trolley, not carried across rooms.
- Tables are cleaned before and after, with soapy water or a suitable non-bleach product.
- Members of staff serving food wash their hands and cover any cuts with a blue plaster.

E.coli prevention

Staff who are preparing and handling food, especially food that is not pre-prepared for consumption e.g. fruit and vegetables grown on the premises, must be aware of the potential spread of E.coli and must clean and store food in accordance with the E.coli 0157 guidance, available at:

www.food.gov.uk/business-industry/guidancenotes/hygguid/ecoliguide#.U7FCVGIOWdl

Food for play and cooking activities

Some parents and staff may have strong views about food being used for play. It is important to be sensitive to these issues. For example, children who are Muslim, Jewish, Rastafarian, or who are vegetarian, should not be given any food to play with that contains animal products (Gelatine). Parents' views should be sought on this. In some cases, it is not appropriate to use food for play at all, particularly in times of austerity.

- Food for play may include dough, corn flour, pasta, rice, food colourings/flavourings.
- Jelly (including jelly cubes) is not used for play unless closely supervised by a member of staff.
- Food for play is risk assessed against the 14 allergens referred and is included in the written risk assessment undertaken for children with specific allergies.
- Staff are constantly alert to the potential hazards of food play, in particular choking hazards and signs of previously undetected allergies.
- Pulses are only used under close supervision as they can be poisonous when raw or may choke.
- Dried food that is used for play should be kept away from food used for cooking.
- Foods that are cooked and used for play, such as dough, have a limited shelf life.
- Cornflour is always mixed with water before given for play.
- Cornflour and cooked pasta are discarded after an activity; high risk of bacteria forming.
- Utensils used for play food are washed thoroughly after use.

Children's cooking activities

- Before undertaking any cooking activity with children, members of staff should check for allergies and intolerances by checking children's records.
- Children are taught basic hygiene skills such as the need to wash hands thoroughly before handling food, and again after going to the toilet, blowing their nose or coughing.
- The area to be used for cooking is cleaned; a plastic tablecloth is advised.
- Children should wear aprons that are used just for cooking.
- Utensils provided are for children to use only when cooking, including chopping/rolling boards, bowls, wooden spoons, jugs, and are stored in the kitchen.
- Members of staff encourage children to handle food in a hygienic manner.
- Food ready for cooking or cooling is not left uncovered.

- Cooked food to go home is put in a paper food bag and refrigerated until home time.

Food play activities are suspended during outbreaks of illness.

Menu planning and nutrition

Food supplied for children provides a healthy and balanced diet for healthy growth and development. Foods that contain any of 14 allergens identified by the FSA are identified on menus. The setting follows dietary guidance to promote health and reduce risk of disease caused by unhealthy eating. When planning menus, the setting manager and cook ensure that:

- Parents and staff are able to contribute ideas for menus which are confirmed each week in advance. A four- to six-week cycle is used and reviewed termly.
- Menus reflect children's cultural backgrounds, religious restrictions and the food preferences of some ethnic groups.
- Parents and staff know what food is being provided.
- Foods that contain any of the 14 major allergens are identified on the menu that is displayed for parents.
- Parents must share information about their children's particular dietary needs with staff when they enrol their children and on an on-going basis with their key person.
- Key persons regularly share information about the children's levels of appetite and enjoyment of food with parents.
- Staff refer to the Eat Better, Start Better (Action for Children 2017).
- The cook maintains a record of children's dietary needs in a Food Allergy and Dietary Needs folder.

Packed lunches

Where children have packed lunches, staff promote healthy eating, ensuring that parents are given advice and information about what is appropriate content for a child's lunch box. Parents are also advised to take measures to ensure children's lunch box contents remain cool i.e. ice packs.

Meeting dietary requirements

Snack and mealtimes are an important part of the day. Eating represents a social time for children and adults and helps children to learn about healthy eating. We aim to provide nutritious food, which meets the children's individual dietary needs and preferences.

- Staff discuss and record children's dietary needs, allergies and any ethnic or cultural food preferences with their parents.
- If a child has a known food allergy, the procedure on Allergies and food intolerance is followed.
- Staff record information about each child's dietary needs in the individual child's registration form; parents sign the form to signify that it is correct.
- Up-to-date information about individual children's dietary needs is displayed so that all staff and volunteers are fully informed.
- Staff ensure that children receive only food and drink that is consistent with their dietary needs and cultural or ethnic preferences, as well as their parent's wishes.
- The menus of meal and snacks are displayed on the parent notice board for parents to view. Foods that contain any food allergens are identified.
- Staff aim to include food diets from children's cultural backgrounds, providing children with familiar foods and introducing them to new ones.
- Through on-going discussion with parents and research reading by staff, staff obtain information about the dietary rules of the religious groups to which children and their parents belong, and of vegetarians and vegans, as well as about food allergies. Staff take account of this information when providing food and drink.
- Staff provide a vegetarian alternative when meat and fish are offered and make every effort to ensure Halal meat or Kosher food is available to children who require it.
- Where it is not possible to source and provide Halal meat or Kosher food, a vegetarian option is available; this will be discussed and agreed with parents at the time of the child's registration.
- All staff show sensitivity in providing for children's diets, allergies and cultural or ethnic food preferences. A child's diet or allergy is never used as a label for the child, they are not made to feel 'singled out' because of their diet, allergy or cultural/ethnic food preferences.
- Fresh drinking water is available throughout the day. Staff inform children how to obtain the drinking water and that they can ask for water at any time during the day.

- Meal and snack times are organised as social occasions.

Fussy/faddy eating

- Children who are showing signs of ‘fussy or faddy eating’ are not forced to eat anything they do not want to.
- Staff recognise the signs that a child has had enough and remove uneaten food without comment.
- Children are not made to stay at the table after others have left if they refuse to eat certain items of food.

Staff work in partnership with parents to support them with children who are showing signs of ‘faddy or fussy eating’ and sign post them to further advice, for example, How to Manage Simple Faddy Eating in Toddlers (Infant & Toddler Forum) <https://infantandtoddlerforum.org/health-and-childcare-professionals/factsheets/>

Valuing diversity and promoting inclusion and equality

All early years settings must consider and meet relevant employer and service provider duties as set out in the Equality Act (2010). Those in receipt of funding must eliminate discrimination including indirect, direct discrimination, discrimination and harassment based on association and perception and discrimination for reason relating to a disability or by failing to make a reasonable adjustment to any provision, criterion, or practice. This duty is anticipatory. Settings must advance equality of opportunity and foster good relations with individuals and groups with protected characteristics namely disability, race (ethnicity), religion and belief, sexual orientation, sex (gender), gender reassignment, age, pregnancy and maternity, marriage, and civil partnership.

Aim

Our provision actively promotes inclusion, equality of opportunity and the valuing of diversity.

Objectives

We support the definition of inclusion as stated by the Early Childhood Forum:

'Inclusion is the process of identifying, understanding and breaking down the barriers to participation and belonging.'

We interpret this as consisting of several tasks and processes in relation not only to children but also to parents and visitors in the setting. These tasks and processes include awareness and knowledge of relevant barriers to inclusion for those with a protected characteristic namely:

- disability
- gender reassignment
- pregnancy and maternity
- race
- religion or belief
- sexual orientation
- sex (gender)
- age
- marriage or civil partnership (in relation to employment)

This includes unlawful behaviour towards people with protected characteristics. Unlawful behaviour being direct discrimination, indirect discrimination, associative discrimination, discrimination by perception, harassment, and victimisation (in addition, we are aware of the inequality that users facing socio-economic disadvantaged may also encounter). We will not tolerate behaviour from an adult which demonstrates dislike and prejudice towards groups and individuals living outside the UK (**xenophobia**). This also applies to the same behaviour towards specific groups of people and individuals who are British Citizens residing in the UK.

We promote understanding of discrimination - through training and staff development - the causes and effects of discrimination on both adults and children and the long- term impact of discrimination; the need to protect children from discrimination and ensure that childcare and early education practice is both accessible and inclusive; the need for relevant support to allow children to develop into confident adults with a strong positive self-identity.

- Developing practice that includes:
 - Developing an environment which reflects the 'kaleidoscope' of factors that can provide settings with a myriad of influences and ideas for exploring and celebrating difference.
 - Ensuring that barriers to inclusion are identified and removed or minimised wherever possible; for example, we complete the Access audit form.
 - Understanding, supporting and promoting the importance of identity for all children and recognising that this comprises multiple facets which are shaped by a 'kaleidoscope' of factors including British values, 'race'\ethnicity and culture, gender, difference of ability, social class, language, religion and belief, and family form and lifestyle, which combine uniquely in the identity of each individual; for example, we welcome and promote bi/multi-lingualism and the use of alternative communication formats such as sign language, and we promote gender equality while at the same time recognising the differences in play preferences and developmental timetables of girls and boys.
 - Recognising that this 'kaleidoscope' also reflects negative images which may be internalised and negatively affect the development of self-concept, self-esteem, and confidence.
 - Promoting a welcoming atmosphere that genuinely appreciate British values, different cultural and personal perspectives, without stereotyping and prejudicing cultures and traditions on raising children, by always involving parents.
 - Promoting community cohesion and creating an environment that pre-empts acts of discrimination so that they do not arise.

- Recruitment of staff to reflect cultural and language diversity, disabled staff, and staff of both genders.
- Addressing discrimination as it occurs from children in a sensitive, age-appropriate manner to ensure that everyone involved understands the situation and are offered reassurance and support to achieve resolution.
- Challenging discriminatory behaviour from parents, staff or outside agencies or individuals that affect the well-being of children and the early years community.
- Creating an ethos within which staff work confidently within a culturally complex environment; learning when to change or adapt practice in the setting and having the confidence to challenge practice (including parental) that is not in the child's best interest, seeking support and intervention from agencies where appropriate.
- Ensuring that educators work closely with the Special Educational Needs Coordinator to make sure that the additional needs of all children are identified and met.
- We are aware of anti-discriminatory legislation and able to use it to shape the service and support parents and children against discrimination in the local community, for example, against asylum seekers, the Travelling community and same sex parents.
- We regularly monitor and review our practice including long-term preventative measures to ensure equality such as auditing of provision, formulating an equality plan, applying impact measurements and positive actions. In addition, short term measures such as recognition and assessment of children's additional support needs (e.g. impairment, home language, family hardship, specific family beliefs and practices), day-to-day activities, provision of suitable support and resources, activity programme and curriculum., assessment, recognition of special educational needs and developing inclusive relationships.

Further guidance

Guide to the Equality Act and Good Practice (Pre-school Learning Alliance 2015)

We actively promote inclusion, equality of opportunity and value diversity. All early years setting have legal obligations under the Equality Act 2010. Those in receipt of public funding also have public equality duties to eliminate discrimination, promote equality, foster good relations with

individuals and groups with protected characteristics namely disability, race (ethnicity), religion and belief, sexual orientation, sex (gender), gender reassignment, age, pregnancy and maternity, marriage and civil partnership. Settings also have obligations under the Prevent Duty (2015) which highlights the need to foster equality and prevent children from being drawn into harm and radicalisation.

Promoting identity, positive self-concept and self-esteem for all children through treating each child as an individual and with equal concern, ensuring each child's developmental and emotional needs are recognised and met.

- Promoting inclusive practice to ensure every child is welcomed and valued.
- Discussing aspects of family/child identity with parents when settling in a new child.
- Maintaining a positive non-judgemental attitude and use of language with children to talk about topics such as family composition/background, eye and skin colour, hair texture, sex, gender, physical attributes and languages spoken (including signing).
- Becoming knowledgeable about different cultures, and individual subjective perceptions of these and being able to reflect them imaginatively and creatively in the setting to create pride, interest and positive self-identity.
- Discussing similarities and differences positively without bias and judgement.
- Celebrating festivals, holy days and special days authentically through involving parents, staff or the wider community to provide a positive experience for all.
- Providing books with positive images of children and families from all backgrounds and abilities. Avoiding caricatures or cartoon-like depictions, and ensuring individual differences are portrayed with sensitive accuracy. The central characters in individual stories should provide a positive, broad representation of diversity e.g. disability, ethnicity, sex and gender, age and social backgrounds. Individual storylines should contain a range of situations which are easily identifiable by children such as those that include disabled children/adults, different ethnic groups, mixed heritage families, gender diversity, single sex/same and different sex families, multi-generational households and cultural diversity.
- Providing visual materials, such as posters and pictures that provide non-stereotypical images of people, places and cultures and roles that are within children's range of experience. This includes photographs taken by staff of the local and wider community, of parents and families and local events.

- Using textiles, prints, sculptures or carvings from diverse cultures in displays.
- Providing artefacts from a range of cultures, particularly for use in all areas of the setting, not just in the home corner.
- Ensuring toys, learning materials and resources reflect diversity and provide relevant materials for exploring aspects of difference, such as skin tone paints and pens.
- Developing a range of activities through which children can explore aspects of their identity, explore similarities, differences and develop empathy including:
 - self-portraits, photograph albums and displays showing a range of families
 - books about 'me' or my family
 - persona doll stories which sympathetically and authentically represent diversity
 - food activities, such as tasting and cooking, creating real menu additions
 - activities about real celebrations such as new babies, weddings, cultural and religious events
 - use of textiles and secular artefacts in the room, and to handle and explore, that demonstrate valuing of the cultures from which they come
 - creating textiles such as tie dying, batik and creative use of textiles
 - provide mirrors at different heights for babies and other non-ambulant children
 - developing a music area with a variety of musical instruments for babies and children to use to create a range of music.
 - creating an art and mark making area with a variety of materials from other countries such as wood blocks for printing, Chinese calligraphy brushes etc.
 - home corner play which encourages all children to equally participate and provides domestic articles from diverse cultures
 - 'dressing up' materials which promote non-gendered roles and enable children to explore different gender identities/gender neutrality
 - providing dolls that sensitively and accurately portray difference such as disability and ethnicity
 - use of a variety of music to play to children of different genres and cultural styles with a variety of musical instruments for children to access
 - a language and literacy area with a variety of books, some with dual language texts and signs, involving parents in the translation where possible
 - tapes with stories read in English and other languages

- examples of writing in other scripts from everyday sources such as papers and magazines, packaging etc. children's names written on cards in English as well as in their home language script where appropriate
 - labels for children's paintings or other work are made with their name in English and home language script (parents can help with this)
 - conversations with young children which explore unfamiliar objects and subjects to help foster an understanding of diversity and identity such as spectacles or hearing aids, religious and cultural practices
- Record keeping that refers to children's emerging bilingual skills or their use of sign language as achievements in positive terms.
 - Record keeping that refers to children's differing abilities and identities in positive terms.
 - Records that show the relevant involvement of all children, especially children with special educational needs and disabilities, those using English as an additional language and those who are 'more abled' in the planning of their care and education.

Fostering positive attitudes and challenging discrimination.

- Young children are learning how to grow up in a diverse world and develop appropriate attitudes. This can be difficult, and they may make mistakes and pick up inappropriate attitudes or just get the 'wrong idea' that may underlie attitudes of 'pre-prejudice' towards specific individuals/groups. Where children make remarks or behave in a discriminatory or prejudice way or make inappropriate comments that arise from not knowing facts, staff should explain why these actions are not acceptable and provide appropriate information and intervention to reinforce children's understanding and learning.
- Where children make overtly prejudice or discriminatory remarks they are dealt with as above, and the issue is raised with the parents.
- When children wish to explore aspects of their identity such as ethnicity or gender, they should be listened to in an understanding and non-judgemental way.
- Parents are expected to abide by the policy for inclusion, diversity and equality and to support their child in the aims of the setting.

Implementing an equality strategy to foster a 'can do' approach

- Every setting should have an equality strategy in place outlining their vision on equality alongside a timetabled list of actions summarising how they build equality into the provision and how this is monitored and evaluated.
- An equality check and access audit are completed to ensure that there are no barriers to inclusion of any child, families and visitors to the setting.
- Early years settings in receipt of nursery education funding are covered by the public sector equality duty. These bodies must have regard of the need to eliminate discrimination, promote equality of opportunity, foster good relations between disabled and non-disabled persons, and publish information to show their compliance with the duty.

Promoting dynamic and balanced mixed gender, culturally, socially, and linguistically diverse staff teams who work constructively together in providing for diverse communities.

- It is recognised that members of staff in diverse teams bring a range of views and opinions to the setting regarding a range of issues to do with the job. It is important that a range of views and perspectives are shared and respected in staff meetings and that decisions are made on which way of looking at the situation will result in the best outcomes for the child.
- Staff views are sought where these offer individuals, social and/or cultural insight, although staff should not be put in an uncomfortable position of being an 'expert' or 'ambassador'.
- Staff respect similarities and differences between each other and users such as ability, disability, religious and personal beliefs, sex, sexual orientation, gender reassignment etc. Staff do not discriminate or harass individuals on the grounds of these or encourage any other member of staff to do so; evidence of such will be dealt with by management immediately.
- Members of staff make the best use of different perspectives in the team to find solutions to difficult problems that arise in socially/culturally complex situations.
- Members of staff support each other to highlight similarities and respect differences.
- Members of staff of both sexes carry out all tasks according to their job description; there are no jobs that are designated men's or women's jobs.
- Staff are sensitive to the fact that male workers are under-represented in the early years workforce so may be more likely to experience inequality and discrimination.
- Staff should be aware that male workers may be more vulnerable to allegations. Therefore, work practices should be developed to minimise this. These practices are valuable for all staff.

- Where staff may feel threatened, or under attack, from discriminatory behaviour, staff and managers follow the procedure on Threats and abuse towards staff and volunteers.
- There is an ethos wherein staff, parents and children are free to express themselves and speak their own languages in ways that enhance the culture of the setting.

Ensuring that barriers to equality and inclusion are identified and removed or minimised wherever possible.

- Barriers may include:
 - lack of understanding - where the language spoken at the setting is not that which is spoken at a child's home
 - perceived barriers – affordability where parents are not aware of financial support available or assume that a service is not available to them. Perceived barriers may also be physical barriers for those children or parents with a disability or additional needs where they assume, they will not be able to access the service
 - physical barriers – where there are environmental features which stop a disabled child or disabled parent accessing the setting such as stairs
 - negative attitudes – stereotypes and prejudices or commitment by staff and managers to the time and energy required to identify and remove barriers to accessibility
 - unconscious and conscious bias of staff towards some families such as those from other backgrounds, disabled parents, same sex parents and families with specific religious beliefs
 - gendered views of staff which limit children's aspirations and choices
 - misconceptions such as disabled children should not attend settings during a pandemic due to heightened risk
- lack of effective Information Communication Technology (ICT) in the homes of families who are vulnerable or at risk and therefore unable to keep in close contact with the childcare and early education provider
- Staff are aware of the different barriers to inclusion and equality and consider the wider implications for children and their families.

Supporting children to become considerate adults

- Children's social and emotional development is shaped by early experiences and relationships and incorporates elements of equality and British and Universal values. The EYFS supports children's earliest skills in an age appropriate way to become social citizens, namely listen and attend to instructions; know the difference between right and wrong; recognise similarities and differences between themselves and others; make and maintain friendships; develop empathy and consideration of other people; take turns in play and conversation; risk taking behaviours, rules and boundaries; not to hurt/upset other people with words and actions; consequences of hurtful/discriminatory behaviour and regulating behaviour.

British values

The fundamental British values of democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs are already implicitly embedded in the Early Years Foundation Stage and are further clarified here based on *Fundamental British values in the Early Years* (<https://foundationyears.org.uk/wp-content/uploads/2017/08/Fundamental-British-Values-in-the-Early-Years-2017.pdf>)

Democracy: making decisions together

- For self-confidence and self-awareness (PSED), educators encourage children to see the bigger picture, children know their views count, value each other's views and values and talk about feelings e.g. when they do or do not need help.
- Supporting the decisions children make and providing activities that involve turn-taking, sharing and collaboration. Children are given opportunities to develop enquiring minds, where questions are valued and prejudice attitudes less likely.

Rule of law: understanding rules matter (PSED)

- Educators ensure children understand their and others' behaviour and consequence.
- Educators collaborate with children to create rules and codes of behaviour, e.g. rules about tidying up and ensure all children understand that rules apply to everyone.

Individual liberty: freedom for all (PSED & UW)

- Children should develop a positive sense of themselves. Staff provide opportunities for children to develop their self-knowledge, self-esteem and increase their confidence in their own abilities, for example through allowing children to take risks on an obstacle course, mixing colours, exploring facets of their own identity, talking about their experiences and learning. Educators encourage a range of experiences, allow children to explore the language of feelings and

responsibility, reflect on differences and understand we are free to have different opinions, for example in a small group discuss what they feel about transferring into Reception Class.

Mutual respect and tolerance: treat others as you want to be treated (PSED & UW)

- Staff create an ethos of inclusivity and tolerance where views, faiths, cultures and races are valued and children are engaged with the wider community.
- Children should acquire tolerance, appreciation and respect for their own and other cultures; know about similarities and differences between themselves, others and among families, faiths, communities, cultures and traditions.
- Staff encourage and explain the importance of tolerant behaviours such as sharing and respecting other's opinions.
- Staff promote diverse attitudes and challenge stereotypes, for example, sharing stories that reflect and value the diversity of children's experiences and providing resources and activities that challenge gender, cultural/racial stereotyping.

It is not acceptable to:

- actively promote intolerance of other faiths, cultures and races
- fail to challenge gender stereotypes and routinely segregate girls and boys
- isolate children from their wider community

fail to challenge behaviours (whether of staff, children, or parents) that are not in line with the fundamental values of democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs.

Missing child

In the building

- As soon as it is noticed that a child is missing, the member of staff informs the designated person who initiates a search within the setting.
- If the child is found on-site, the designated person checks on the welfare of the child and investigates the circumstances of the incident.
- If the child is not found on site, one member of staff searches the immediate vicinity, if there is no sign of the child, the police are called immediately.
- The parents are then called and informed.
- The designated person contacts their designated officer, to inform them of the situation and seek assistance.

Off-site (outing or walk)

- As soon as it is noticed that a child is missing, the senior staff present carries out a headcount.
- One member of staff searches the immediate vicinity.
- If the child is not found, the senior staff calls the police and then contacts the designated person.
- The designated person informs the parents.
- Members of staff return the children to the setting as soon as possible if it is safe to do so. According to the advice of the police, one senior member of staff should remain at the site where the child went missing and wait for the police to arrive.
- The designated person contacts the designated officer, who attends the setting.

Recording and reporting

- A record is made on the Child welfare and protection summary and the Safeguarding incident reporting form. The manager as designated person completes and circulates the Confidential safeguarding incident report form to the designated officer on the same day that the incident occurred.

The investigation

- Ofsted are informed as soon as possible (and at least within 14 days).
- The designated officer carries out a full investigation.

- The designated person and the designated officer speak with the parents together and explain the process of the investigation

Each member of staff present during the incident writes a full report using the Safeguarding incident reporting form, which is filed in the child's file. Staff do not discuss any missing child incident with the press.

Accidents and emergency treatment

Person responsible for checking and stocking first aid box: *Jacqueline Piaf*

The setting provides care for children and promotes health by ensuring emergency and first aid treatment is given as required. There are also procedures for managing food allergies in section 03 Food safety and nutrition.

- Parents consent to emergency medical treatment consent on registration.
- All staff are paediatric first aiders, who regularly update their training; First Aid certificates are renewed at least every three years.
- All members of staff know the location of First Aid boxes, the contents of which are in line with St John's Ambulance recommendations as follows:
 - 20 individually wrapped sterile plasters (assorted sizes)
 - 2 sterile eye pads
 - 4 individually wrapped triangular bandages (preferably sterile)
 - 6 safety pins
 - 2 large, individually wrapped, sterile, un-medicated wound dressings
 - 6 medium, individually wrapped, sterile, un-medicated wound dressings
 - a pair of disposable gloves
 - adhesive tape
 - a plastic face shield (optional)
- No other item is stored in a First Aid box.
- Vinyl single use gloves are also kept near to (not in) the box, as well as a thermometer.
- There is a named person in the setting who is responsible for checking and replenishing the First Aid Box contents. Jacqueline Piaf is responsible for First Aid and will ensure that staff training is kept up to date and checking and replenishing first aid supplies.
- A supply of ice packs is kept in the top shelf of the freezer.

- For minor injuries and accidents, First Aid treatment is given by a qualified first aider; the event is recorded on an accident sheet which is signed by parents and stored in an accident file. Parents may have a photo-copy of the accident form on request.
- In the event of minor injuries or accidents, parents are normally informed when they collect their child, unless the child is unduly upset or members of staff have any concerns about the injury. In which case they will contact the parent for clarification of what they would like to do, i.e. collect the child or take them home and seek further advice from NHS 111.

Serious accidents or injuries

- An ambulance is called for children requiring emergency treatment.
- First aid is given until the ambulance arrives on scene. If at any point it is suspected that the child has died, the police are called immediately.
- The registration form is taken to the hospital with the child.
- Parents or carers are contacted and informed of what has happened and where their child is being taken to.
- The setting manager arranges for a taxi to take the child and carer to hospital for further checks, if deemed to be necessary.

Recording and reporting

- In the event of a serious accident, injury, or serious illness, the designated person notifies the designated officer using the Confidential safeguarding incident report form as soon as possible.
- The setting's line manager is consulted before a RIDDOR report is filed.
- If required, a RIDDOR form is completed; one copy is sent to the parent, one for the child's file and one for the local authority Health and Safety Officer.
- The Committee are notified by the setting manager of any serious accident or injury to, or serious illness of, or the death of, any child whilst in their care in order to be able to notify Ofsted and any advice given will be acted upon. Notification to Ofsted is made as soon as is reasonably practicable and always within 14 days of the incident occurring. The designated person will, after consultation with the Committee, inform local child protection agencies of these events

Administering medicines

Policy statement

Key persons are responsible for administering medication to their key children; ensuring consent forms are completed, medicines stored correctly and records kept.

Administering medicines during the child's session will only be done if absolutely necessary.

If a child has not been given a prescription medicine before, it is advised that parents keep them at home for 48 hours to ensure no adverse effect, and to give it time to take effect. The setting manager must check the insurance policy document to be clear about what conditions must be reported to the insurance provider.

Consent for administering medication

- Only a person with parental responsibility (PR), or a foster carer may give consent. A childminder, grandparent, parent's partner who does not have PR, cannot give consent unless the parent has given permission to do so. The manager or deputy will notify the parent what was given and at what time.
- When bringing in medicine, the parent informs their key person/back up key person, or the setting manager if the key person is not available.
- Staff who receive the medication, check it is in date and prescribed specifically for the current condition. It must be in the original container (not decanted into a separate bottle). It must be labelled with the child's name and original pharmacist's label.
- Medication dispensed by a hospital pharmacy will not have the child's details on the label but should have a dispensing label. Staff must check with parents and record the circumstance of the events and hospital instructions as relayed to them by the parents.
- Members of staff who receive the medication ask the parent to sign a consent form stating the following information. No medication is given without these details:
 - full name of child and date of birth
 - name of medication and strength
 - who prescribed it
 - dosage to be given
 - how the medication should be stored and expiry date

- a note of any possible side effects that may be expected
- signature and printed name of parent and date

Storage of medicines

All medicines are stored safely. Children's prescribed medicines are stored in their original containers, are clearly labelled and are inaccessible to the children.

Prescribed medicines are kept in the kitchen during working hours and in the unlikely event that they are kept on the premises would be in a locked filing cabinet alongside the first aid box. All staff would be made aware of this.

The key person is responsible for ensuring medicine is handed back at the end of the day to the parent.

For some conditions, medication for an individual child may be kept at the setting. The Healthcare plan form must be completed. Key persons check that it is in date and return any out-of-date medication to the parent.

Parents do not access where medication is stored, to reduce the possibility of a mix-up with medication for another child, or staff not knowing there has been a change.

Record of administering medicines

A record of medicines administered is kept in the locked filing cabinet.

The medicine record book records:

- name of child
- name and strength of medication
- the date and time of dose
- dose given and method
- signed by key person/setting manager
- verified by parent signature at the end of the day

A witness signs the medicine record book to verify that they have witnessed medication being given correctly according to the procedures here.

No child may self-administer. If children are capable of understanding when they need medication, e.g. for asthma, they are encouraged to tell their key person what they need. This does not replace staff vigilance in knowing and responding.

The medication records are monitored to look at the frequency of medication being given. For example, a high incidence of antibiotics being prescribed for a number of children at similar times may indicate a need for better infection control.

Children with long term medical conditions requiring ongoing medication

Risk assessment is carried out for children that require ongoing medication. This is the responsibility of the setting manager and key person. Other medical or social care personnel may be involved in the risk assessment.

Parents contribute to risk assessment. They are shown around the setting, understand routines and activities and discuss any risk factor for their child.

For some medical conditions, key staff will require basic training to understand it and know how medication is administered. Training needs is part of the risk assessment.

Risk assessment includes any activity that may give cause for concern regarding an individual child's health needs.

Risk assessment also includes arrangements for medicines on outings; advice from the child's GP's is sought if necessary, where there are concerns.

The Early Years Learning Alliance Health care plan form is completed fully with the parent; outlining the key person's role and what information is shared with other staff who care for the child.

The plan is reviewed every six months (more if needed). This includes reviewing the medication, for example, changes to the medication or the dosage, any side effects noted etc.

Managing medicines on trips and outings

Children are accompanied by their key person, or other staff member who is fully informed about their needs and medication.

Medication is taken in a plastic box labelled with the child's name, name of medication, copy of the consent form and a card to record administration, with details as above.

The card is later stapled to the medicine record book and the parent signs it.

If a child on medication has to be taken to hospital, the child's medication is taken in a sealed plastic box clearly labelled as above.

Staff taking medication

Staff taking medication must inform their manager. The medication must be stored securely in an area away from the children. The manager must be made aware of any contra-indications for the medicine so that they can risk assess and take appropriate action as required.

Health policy

Aim

Our provision is a suitable, clean, and safe place for children to be cared for, where they can grow and learn. They meet all statutory requirements for promoting health and hygiene and fulfil the criteria for meeting the relevant Early Years Foundation Stage Safeguarding and Welfare requirements.

Objectives

We promote health through:

- ensuring emergency and first aid treatment is given where necessary
- ensuring that medicine necessary to maintain health is given correctly and in accordance with legal requirements
- identifying allergies and preventing contact with the allergenic substance
- identifying food ingredients that contain recognised allergens and displaying this information for parents
- promoting health through taking necessary steps to prevent the spread of infection and taking appropriate action when children are ill
- promoting healthy lifestyle choices through diet and exercise
- supporting parents right to choose complementary therapies
- recognising the benefits of child massage, by parents or staff carrying out massage under conditions that maintain the personal safety of children
- pandemic flu planning or illness outbreak management as per DfE and World Health Organisation (WHO) guidance

Life-saving medication and invasive treatments

Life-saving medication and invasive treatments may include adrenaline injections (Epipens) for anaphylactic shock reactions (caused by allergies to nuts, eggs etc) or invasive treatment such as rectal administration of Diazepam (for epilepsy).

- The key person responsible for the intimate care of children who require life-saving medication or invasive treatment will undertake their duties in a professional manner having due regard to the procedures listed above.
- The child's welfare is paramount, and their experience of intimate and personal care should be positive. Every child is treated as an individual and care is given gently and sensitively; no child should be attended to in a way that causes distress or pain.
- The key person works in close partnership with parents/carers and other professionals to share information and provide continuity of care.
- Children with complex and/or long-term health conditions have a health care plan in place which takes into account the principles and best practice guidance given here.
- Key persons have appropriate training for administration of treatment and are aware of infection control best practice, for example, using personal protective equipment (PPE).
- Key persons speak directly to the child, explaining what they are doing as appropriate to the child's age and level of comprehension.
- Children's right to privacy and modesty is respected. Another educator is usually present during the process.

Record keeping

For a child who requires invasive treatment the following must be in place from the outset:

- a letter from the child's GP/consultant stating the child's condition and what medication if any is to be administered
- written consent from parents allowing members of staff to administer medication
- proof of training in the administration of such medication by the child's GP, a district nurse, children's nurse specialist or a community paediatric nurse
- a healthcare plan

Copies of all letters relating to these children must be sent to the insurance provider for appraisal. Confirmation will then be issued in writing confirming that the insurance has been extended. A record is made in the medication record book of the intimate/invasive treatment each time it is given.

Physiotherapy

- Children who require physiotherapy whilst attending the setting should have this carried out by a trained physiotherapist. The physiotherapist can, with the consent of the parents and manager, train the keyworker to complete daily interventions.
- If it is agreed in the health care plan that the key person should undertake part of the physiotherapy regime then the required technique must be demonstrated by the physiotherapist personally; written guidance must also be given and reviewed regularly. The physiotherapist should observe the educator applying the technique in the first instance.

Safeguarding/child protection

- Educators recognise that children with SEND are particularly vulnerable to all types of abuse, therefore the safeguarding procedures are followed rigorously.
- If an educator has any concerns about physical changes noted during a procedure, for example unexplained marks or bruising then the concerns are discussed with the designated person for safeguarding and the relevant procedure is followed.

Allergies and food intolerance

When a child starts at the setting, parents are asked if their child has any known allergies or food intolerance. This information is recorded on the registration form. All Willaston Pre-school staff are trained in allergy awareness.

- If a child has an allergy or food intolerance, the Generic risk assessment form is completed with the following information:
 - the risk identified – the allergen (i.e. the substance, material or living creature the child is allergic to such as nuts, eggs, bee stings, cats etc.)
 - the level of risk, taking into consideration the likelihood of the child coming into contact with the allergen
 - control measures, such as prevention from contact with the allergen
 - review measures
- The Health care plan form must be completed with:
 - the nature of the reaction e.g. anaphylactic shock reaction, including rash, reddening of skin, swelling, breathing problems etc.
 - managing allergic reactions, medication used and method (e.g. EpiPen)
- The child's name is added to the Dietary Requirements list.
- A copy of the risk assessment and health care plan is kept in the child's personal file and is shared with all staff and is also kept in the cook's Food Allergy and Dietary Needs file.
- Parents show staff how to administer medication in the event of an allergic reaction.
- Generally, no nuts or nut products are used within the setting.
- Parents are made aware, so that no nut or nut products are accidentally brought in.
- Any foods containing food allergens are identified on children's menus.

Oral Medication

- Oral medication must be prescribed or have manufacturer's instructions written on them.
- Staff must be provided with clear written instructions for administering such medication.
- All risk assessment procedures are adhered to for the correct storage and administration of the

medication.

- The setting must have the parents' prior written consent. Consent is kept on file.

For other life-saving medication and invasive treatments please refer to the Administration of medicine policy.

Poorly children

- If a child appears unwell during the day, for example has a raised temperature, sickness, diarrhoea or pains, particularly in the head or stomach then the setting manager calls the parents and asks them to collect the child or send a known carer to collect on their behalf.
- If a child has a raised temperature, they are kept cool by removing top clothing, sponging their heads with cool water and kept away from draughts.
- A child's temperature is taken and checked regularly, using Fever Scans or other means i.e. ear thermometer.
- In an emergency an ambulance is called and the parents are informed.
- Parents are advised to seek medical advice before returning them to the setting; the setting can refuse admittance to children who have a raised temperature, sickness and diarrhoea or a contagious infection or disease.
- Where children have been prescribed antibiotics for an infectious illness or complaint, parents are asked to keep them at home for 48 hours.
- After diarrhoea or vomiting, parents are asked to keep children home for 48 hours following the last episode.
- Some activities such as sand and water play and self-serve snack will be suspended for the duration of any outbreak.
- The setting has information about excludable diseases and exclusion times.
- The setting manager notifies their line manager if there is an outbreak of an infection (affects more than 3-4 children) and keeps a record of the numbers and duration of each event.
- The setting manager has a list of notifiable diseases and contacts Public Health England (PHE) and Ofsted in the event of an outbreak.
- If staff suspect that a child who falls ill whilst in their care is suffering from a serious disease that may have been contracted abroad such as Ebola, immediate medical assessment is required. The setting manager or deputy calls NHS111 and informs parents.

HIV/AIDS procedure

HIV virus, like other viruses such as Hepatitis, (A, B and C), are spread through body fluids. Hygiene precautions for dealing with body fluids are the same for all children and adults.

- Single use vinyl gloves and aprons are worn when changing children's nappies, pants and clothing that are soiled with blood, urine, faeces or vomit.
- Protective rubber gloves are used for cleaning/sluicing clothing after changing.
- Soiled clothing is rinsed and bagged for parents to collect.
- Spills of blood, urine, faeces or vomit are cleared using mild disinfectant solution and mops; cloths used are disposed of with clinical waste.
- Tables and other furniture or toys affected by blood, urine, faeces or vomit are cleaned using a disinfectant.
- Plastic toys are cleaned in sterilising solution regularly.

Nits and head lice

- Nits and head lice are not an excludable condition; although in exceptional cases parents may be asked to keep the child away from the setting until the infestation has cleared.
- On identifying cases of head lice, all parents are informed and asked to treat their child and all the family, using current recommended treatments methods if they are found.

*Diarrhoea is defined as 3 or more liquid or semi-liquid stools in a 24-hour period.

www.gov.uk/government/publications/health-protection-in-schools-and-other-childcare-facilities/chapter-9-managing-specific-infectious-diseases#diarrhoea-and-vomiting-gastroenteritis

Paracetamol based medicines (e.g. Calpol)

The use of paracetamol-based medicine may not be agreed in all cases. Willaston Pre-school will take bottles of non-prescription medicine from parents to hold on a 'just in case' basis, if there is an immediate reason for doing so. Settings do not normally keep such medicine on the premises as they are not allowed to 'prescribe'. A child over two who is not well, and has a temperature, must be kept cool and the parents asked to collect straight away. If a parent asks for paracetamol to be given the keyworker, manager or deputy will administer the correct dose from the recommendation on the packaging, fill in the medication form and inform the parent.

Whilst the brand name Calpol is referenced, there are other products which are paracetamol or Ibuprofen based pain and fever relief such as Nurofen for children over 3 months.

Oral health

The setting provides care for children and promotes health through promoting oral health and hygiene, encouraging healthy eating, healthy snacks and tooth brushing.

- Fresh drinking water is available at all times and easily accessible.
- Sugary drinks are not served.
- Only water and milk are served at snack times.
- Children are offered healthy nutritious snacks with no added sugar.
- Parents are discouraged from sending in confectionary as a snack or in lunch boxes.
- Staff follow the Infant & Toddler Forum's Ten Steps for Healthy Toddlers.

Pacifiers/dummies

- Parents are *advised* to stop using dummies/pacifiers once their child is 12 months old.
- Dummies that are damaged are disposed of and parents are told that this has happened.
- Willaston Pre-school understand that some children need a pacifier when distressed but as soon as the child calms they will be encouraged to put the pacifier away.

Working in partnership with parents and other agencies

Aim

We actively promote partnership with parents and recognise the importance of working in partnership with other agencies to promote the well-being of children and their families. This includes signposting parents to support as appropriate.

Objectives

- We believe that parents are children's first and most enduring educators and our practice aims to involve and consult parents on all aspects of their child's well-being.
- We also recognise the important role parents must play in the day-to-day organisation of the provision.
- We consider parents views and expectations and will give the opportunity to be involved in the following ways:
 - sharing information about their child's needs, likes, achievements and interests
 - settling in their child to the agreed plan according our settling in procedures
 - taking part in children's activities and outings
 - contributing with ideas or resources as appropriate to enhance the curriculum of the setting
 - taking part in early learning projects, sharing with educators knowledge and insights about their child's learning
 - contributing to assessment with information, photos and stories that illustrate how their child is learning within the home environment, taking part in day-to-day family activities
 - taking part in discussion groups
 - taking part in planning, preparing, or simply participating in social activities organised within the setting
 - taking part in a parent forum to encourage the democratic participation of parents in discussions about the day-to-day organisation of the setting, consulting about new developments and other matters as they arise
 - involvement in the review of policies and procedures

- Ofsted and setting contact details are displayed on the parent notice board for parents who have a complaint that cannot be resolved with the setting manager in the first instance, or where a parent is concerned that the EYFS standards are not being maintained

Partnership and signposting to other agencies

- We are committed to ensuring effective partnership with other agencies including:
 - local authority early years services about the EYFS, training and staff development
 - local programmes regarding delivering children's centres or the childcare and early education element of children's centres
 - social welfare departments regarding children in need and children who need safeguarding or for whom a child protection plan is in place
 - child development networks and health professionals to support children with disabilities and special needs
 - local community organisations and other childcare and early education providers
 - Ofsted and setting contact details are made available to other agencies who have a complaint that cannot be resolved with the Setting Manager in the first instance, or where a parent is concerned that the EYFS welfare standards are not being maintained.

Legal references

Childcare Act 2006

Education Act 2011

We believe that families are central in all services we provide for young children. They are involved in all aspects of their child's care, their views are actively sought and they are actively involved in the running of the setting in various ways.

We work in partnership with local and national agencies to promote the well-being of all children.

Families

- Parents are provided with written information about the setting, including the setting's safeguarding actions and responsibilities under the Prevent Duty
- Parents are made to feel welcome in the setting; they are greeted appropriately, there is adult seating and provision for refreshment.
- Every effort is made to accommodate parents who have a disability or impairment.

- The expectations we make on parents are made clear at the point of registration.
- There is a clear expectation that parents will participate in settling their child at the commencement of a place according to an agreed plan.
- There is sufficient opportunity for parents to share necessary information with staff and this is recorded and stored to protect confidentiality.
- Key persons support parents in their role as the child's first and most enduring educators.
- Key persons regularly meet with parents to discuss their child's learning and development and to share concerns if they arise.
- Key persons work with parents to carry out an agreed plan to support a child's special educational needs.
- Key persons work with parents to carry out any agreed tasks where a child protection plan is in place.
- According to the nature of the setting, there is provision for families to be involved in activities that promote their own learning and well-being.
- Parents are involved in the social and cultural life of the setting and actively contribute.
- As far as possible the service is provided in a flexible way to meet the needs of parents without compromising the needs of children.
- Parents are involved in regular assessment of their child's progress, including the progress check at age two, as per procedure Progress check at age two.
- There are effective means for communicating with parents on all relevant matters and the Complaints procedure for parents and service users is referred to when necessary.
- Every effort is made to provide an interpreter for parents who speak a language other than English and to provide translated written materials.
- Information about a child and their family is kept confidential within the setting. The exception to this is where there is cause to believe that a child may be suffering, or is likely to suffer, significant harm, or where there are concerns regarding their child's development that need to be shared with another agency. Parental permission will be sought unless there are reasons not to, to protect the safety of the child.
- Parental consent is sought to administer medication, take a child for emergency treatment, take a child on an outing and take photographs for the purposes of record keeping.

- Parents' views are sought regarding changes in the delivery of the service
- Parents are actively encouraged to participate in decision making processes via a parent forum.
- There are opportunities for parents to take active roles in supporting their child's learning in the setting: informally through helping out or activities with their child, or through structured projects engaging parents and staff in their child's learning.

Agencies

- We work in partnership or in tandem with local and national agencies to promote the wellbeing of children.
- Procedures are in place for sharing of information about children and families with other agencies, as out in procedures Confidentiality, recording and sharing information.
- Information shared by other agencies (third party information) is also kept in confidence and not shared without consent from that agency.
- When working in partnership with staff from other agencies, individuals are made to feel welcome in the setting and professional roles are respected.
- Staff follow the protocols for working with agencies, for example on child protection.
- Staff from other agencies do not have unsupervised access to the child they are visiting in the setting and do not have access to any other children during their visit.
- Staff do not casually share information or seek informal advice about any named child/family.
- We consult with and signpost to local and national agencies who offer a wealth of advice and information promoting staff understanding of issues facing them in their work and who can provide support and information for families. For example, ethnic/cultural organisations, drug/alcohol agencies, welfare rights advisors or organisations promoting childcare and education, or adult education.

Schools

- Settings work in partnership with schools to assist children's transition as per procedure Prime times – transition to school., and share information as per procedure Transfer of records.
- The setting manager actively seeks to forge partnership with local schools with the aim of sharing best practice and creating a consistent approach.
-

Record keeping

Aim

We have record keeping systems in place for the safe and efficient management of the setting and to meet the needs of the children; that meet legal requirements for the storing and sharing of information within the framework of the GDPR and the Human Rights Act.

Objectives

- Children's records are kept in personal files, divided into appropriate sections, and stored separately from their developmental records.
- Children's personal files contain registration information as specified in the procedure on Children's records and data protection.
- Children's personal files contain other material described as confidential as required, such as Common Assessment Framework assessments, Early Support information or Education, Health and Care Plan (EHCP, case notes including recording of concerns, discussions with parents, and action taken, copies of correspondence and reports from other agencies.
- Ethnicity data is only recorded where parents have identified the ethnicity of their child themselves.
- Confidentiality is maintained by secure storage of files in a locked cabinet with access restricted to those who need to know. Client access to records is provided for within the relevant procedure.
- Staff know how and when to share information effectively if they believe a family may require a particular service to achieve positive outcomes
- Staff know how to share information if they believe a child is in need or at risk of suffering harm.
- Staff record when and to whom information has been shared, why information was shared and whether consent was given. Where consent has not been given and staff have taken the decision, in line with guidelines, to override the refusal for consent, the decision to do so is recorded.
- Guidance and training for staff specifically covers the sharing of information between professions, organisations, and agencies as well as within them, and arrangements for training takes account of the value of multi-agency as well as single agency working.

Records

The following information and documentation are also held:

- name, address and contact details of the provider and all staff employed on the premises

- name address and contact details of any other person who will regularly be in unsupervised contact with children
- a daily record of all children looked after on the premises, their hours of attendance and their named key person
- certificate of registration displayed and shown to parents on request
- records of risk assessments
- record of complaints

Children's records

During an outbreak of serious illness of disease (such as Covid-19) there may be the need to keep additional records as part of outbreak management. A central record of all confirmed cases of Covid-19 that affect any member of staff or service user is held. This record does not contain personal details about the individual (unless a member of staff).

A record is kept of individual cases of children/families who are self-isolating due to symptoms as per usual record-keeping procedures. In all cases the principles of data protection are maintained.

Principles of data protection: lawful processing of data

Personal data shall be:

- a) processed lawfully, fairly and in a transparent manner in relation to the data subject*
- b) collected for specified, explicit and legitimate purposes and not further processed in a manner that is not compatible for these purposes*
- c) adequate, relevant and necessary in relation to the purposes for which they are processed*
- d) accurate, and where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purpose for which they are processed, are erased or rectified without delay*
- e) kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed*
- f) processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures ("integrity and confidentiality")* Article 5 of the General Data Protection Regulations (2018)

Educators should process data, record and share information in line with the principles above.

General safeguarding recording principles

- It is vital that all relevant interactions linked to safeguarding children's and individual's welfare are accurately recorded.
- All recordings should be made as soon as possible after the event.
- Recording should be to a good standard and clear enough to enable someone other than the person who wrote it, to fully understand what is being described.
- Recording can potentially be viewed by a parent/carer or Ofsted inspector, by the successors of the educators who record, and may be used in a family Court as relevant evidence to decide whether a child should remain with their biological parents, or be removed to live somewhere else. Recording needs to be fair and accurate, non-judgemental in tone, descriptive, relevant, and should clearly show what action has been taken to safeguard a child, and reflect decision-making relating to safeguarding.

- Recording should be complete, it should show what the outcome has been, what happened to referrals, why decisions were made to share or not share information, and it should contain summaries and minutes of relevant multi-agency meetings and multi-agency communication.
- If injuries or other safeguarding concerns are being described the description must be clear and accurate and should give specific details of the injury observed and where it is located.

The principles of GDPR and effective safeguarding recording practice are upheld

- Recording is factual and non-judgemental.
- The procedure for retaining and archiving personal data and the retention schedule and subsequent destruction of data is adhered to.
- Parents/carers and children where appropriate are made aware of what will be recorded and in what circumstances information is shared, prior to their child starting at the setting.
Parents/carers are issued our Privacy notice and should give signed, informed consent to recording and information sharing prior to their child attending the setting. If a parent/carer would not expect their information to be shared in any given situation, normally, they should be asked for consent prior to sharing.
- There are circumstances where information is shared without consent to safeguard children. These are detailed below, but in summary, information can be shared without consent if a educator is unable to gain consent, cannot reasonably be expected to gain consent, or gaining consent places a child at risk.
- Records can be accessed by and information may be shared with local authority professionals. If there are significant safeguarding or welfare concerns, information may also be shared with a family proceedings Court or the police. Educators are aware of information sharing processes and all families should give informed consent to the way the setting will use, store and share information.
- Recording should be completed as soon as possible and within 5 working days as a maximum for safeguarding recording timescales.
- If a child attends more than one setting, a two-way flow of information is established between the parents/carers, and other providers. Where appropriate, comments from others (as above) are incorporated into the child's records.

Children's personal files

- Appropriate files must be used. These are made of robust card (not ring binders) and have plastic or metal binders to secure documents. File dividers must be inserted into each file.

- The sections contained are as follows:
 - personal details: registration form and consent forms.
 - contractual matters: copies of contract, days and times, record of fees, any fee reminders or records of disputes about fees.
 - SEND support requirements
 - additional focussed intervention provided by the setting e.g. support for behaviour, language or development that needs an Action Plan at setting level
 - records of any meetings held
 - welfare and safeguarding concerns: correspondence and reports: all letters and emails to and from other agencies and confidential reports from other agencies
- Children's personal files are kept in a filing cabinet, which is always locked when not in use.
- Correspondence in relation to a child is read, any actions noted, and filed immediately
- Access to children's personal files is restricted to those authorised to see them and make entries in them, this being the setting manager, deputy or designated person for child protection, the child's key person, or other staff as authorised by the setting manager.
- Children's personal files are not handed over to anyone else to look at.

Children's files may be handed to Ofsted as part of an inspection or investigation; they may also be handed to local authority staff conducting a S11 audit as long as authorisation is seen.

Confidentiality, recording and sharing of information

Most things that happen between the family, the child and the setting are confidential to the setting.

In certain circumstances information is shared, for example, a child protection concern will be shared with other professionals including social care or the police, and settings will give information to children's social workers who undertake S17 or S47 investigations. Normally parents should give informed consent before information is shared, but in some instances, such as if this may place a child at risk, or a serious offence may have been committed, parental consent should not be sought before information is shared. Local Safeguarding Partners (LSP) procedures should be followed when making referrals, and advice sought if there is a lack of clarity about whether or not parental consent is needed before making a referral due to safeguarding concerns.

- Staff discuss children's general progress and well-being together in meetings, but more sensitive information is restricted to designated persons and key persons and shared with other staff on a need-to-know basis.
- Members of staff do not discuss children with staff who are not involved in the child's care, nor with other parents or anyone else outside of the organisation, unless in a formal and lawful way.
- Discussions with other professionals should take place within a professional framework, not on an informal basis. Staff should expect that information shared with other professionals will be shared in some form with parent/carers and other professionals, unless there is a formalised agreement to the contrary, i.e. if a referral is made to children's social care, the identity of the referring agency and some of the details of the referral is likely to be shared with the parent/carer by children's social care.
- It is important that members of staff explain to parents that sometimes it is necessary to write things down in their child's file and explain the reasons why.
- When recording general information, staff should ensure that records are dated correctly and the time is included where necessary, and signed.
- Welfare/child protection concerns are recorded on the Safeguarding incident reporting form. Information is clear and unambiguous (fact, not opinion), although it may include the educator's thoughts on the impact on the child.
- Records are non-judgemental and do not reflect any biased or discriminatory attitude.
- Not everything needs to be recorded, but significant events, discussions and telephone conversations must be recorded at the time that they take place.

- Recording should be proportionate and necessary.
- When deciding what is relevant, the things that cause concern are recorded as well as action taken to deal with the concern. The appropriate recording format is filed within the child's file.
- Information shared with other agencies is done in line with these procedures.
- Where a decision is made to share information (or not), reasons are recorded.
- Staff may use a computer to type reports, or letters. Where this is the case, the typed document is deleted from the computer and only the hard copy is kept.
- The setting is registered with the Information Commissioner's Office (ICO). Staff are expected to follow guidelines issued by the ICO, at <https://ico.org.uk/for-organisations/guidance-index/>
- Additional guidance in relation to information sharing about adults is given by the Social Care Institute for Excellence, at www.scie.org.uk/safeguarding/adults/practice/sharing-information
- Staff should follow guidance including Working Together to Safeguard Children (DfE 2018); Information Sharing: Advice for Educators Providing Safeguarding Services to Children, Young People, Parents and Carers 2018 and What to do if you're Worried a Child is Being Abused (HMG 2015)

Confidentiality definition

- Personal information of a private or sensitive nature, which is not already lawfully in the public domain or readily available from another public source, and has been shared in a relationship, where the person giving the information could reasonably expect it would not be shared with others.
- Staff can be said to have a 'confidential relationship' with families. Some families share information about themselves readily; members of staff need to check whether parents regard this information as confidential or not.
- Parents sometimes share information about themselves with other parents as well as staff; the setting cannot be held responsible if information is shared beyond those parents whom the person has confided in.
- Information shared between parents in a group is usually bound by a shared agreement that the information is confidential and not discussed outside. The setting manager is not responsible should that confidentiality be breached by participants.

- Where third parties share information about an individual; staff need to check if it is confidential, both in terms of the party sharing the information and of the person whom the information concerns.
- Information shared is confidential to the setting.
- Educators ensure that parents/carers understand that information given confidentially will be shared appropriately within the setting (for instance with a designated person, during supervision) and should not agree to withhold information from the designated person or their line manager.

Breach of confidentiality

- A breach of confidentiality occurs when confidential information is not authorised by the person who provided it, or to whom it relates, without lawful reason to share.
- The impact is that it may put the person in danger, cause embarrassment or pain.
- It is not a breach of confidentiality if information was provided on the basis that it would be shared with relevant people or organisations with lawful reason, such as to safeguard an individual at risk or in the public interest, or where there was consent to the sharing.
- The procedure on Children's records and data protection must be followed.

Exception

- GDPR enables information to be shared lawfully within a legal framework. The Data Protection Act 2018 balances the right of the person about whom the data is stored with the possible need to share information about them.
- The Data Protection Act 2018 contains "safeguarding of children and individuals at risk" as a processing condition enabling "special category personal data" to be processed and to be shared. This allows educators to share without consent if it is not possible to gain consent, if consent cannot reasonably be gained, or if gaining consent would place a child at risk.
- Confidential information may be shared without authorisation - either from the person who provided it or to whom it relates, if it is in the public interest and it is not possible or reasonable to gain consent or if gaining consent would place a child or other person at risk. The Data Protection Act 2018 enables data to be shared to safeguard children and individuals at risk. Information may be shared to prevent a crime from being committed or to prevent harm to a child, Information can be shared without consent in the public interest if it is necessary to protect someone from harm, prevent or detect a crime, apprehend an offender, comply with a Court order or other legal obligation or in certain other circumstances where there is sufficient public interest.

- Sharing confidential information without consent is done only in circumstances where consideration is given to balancing the needs of the individual with the need to share information about them.
- When deciding if public interest should override a duty of confidence, consider the following:
 - is the intended disclosure appropriate to the relevant aim?
 - what is the vulnerability of those at risk?
 - is there another equally effective means of achieving the same aim?
 - is sharing necessary to prevent/detect crime and uphold the rights and freedoms of others?
 - is the disclosure necessary to protect other vulnerable people?

The decision to share information should not be made as an individual, but with the backing of the designated person who can provide support, and sometimes ensure protection, through appropriate structures and procedures.

Obtaining consent

Consent to share information is not always needed. However, it remains best practice to engage with people to try to get their agreement to share where it is appropriate and safe to do so.

Using consent as the lawful basis to store information is only valid if the person is fully informed and competent to give consent and they have given consent of their own free will, and without coercion from others. Individuals have the right to withdraw consent at any time.

You should not seek consent to disclose personal information in circumstances where:

- someone has been hurt and information needs to be shared quickly to help them
- obtaining consent would put someone at risk of increased harm
- obtaining consent would prejudice a criminal investigation or prevent a person being questioned or caught for a crime they may have committed
- the information must be disclosed regardless of whether consent is given, for example if a Court order or other legal obligation requires disclosure

NB. The serious crimes indicated are those that may harm a child or adult; reporting confidential information about crimes such as theft or benefit fraud are not in this remit.

- Settings are not obliged to report suspected benefit fraud or tax evasion committed by clients, however, they are obliged to tell the truth if asked by an investigator.

- Parents who confide that they are working while claiming should be informed of this and should be encouraged to check their entitlements to benefits, as they it may be beneficial to them to declare earnings and not put themselves at risk of prosecution.

Consent

- Parents share information about themselves and their families. They have a right to know that any information they share will be regarded as confidential as outlined in. the Privacy notice. They should also be informed about the circumstances, and reasons for the setting being under obligation to share information.
- Parents are advised that their informed consent will be sought in most cases, as well as the circumstances when consent may not be sought, or their refusal to give consent overridden.
- Where there are concerns about whether or not to gain parental consent before sharing information, for example when making a Channel or Prevent referral the setting manager must inform their line manager for clarification before speaking to parents
- Consent must be informed - that is the person giving consent needs to understand why information will be shared, what will be shared, who will see information, the purpose of sharing it and the implications for them of sharing that information.

Separated parents

- Consent to share need only be sought from one parent. Where parents are separated, this would normally be the parent with whom the child resides.
- Where there is a dispute, this needs to be considered carefully.
- Where the child is looked after, the local authority, as 'corporate parent' may also need to be consulted before information is shared.

Age for giving consent

- A child may have the capacity to understand why information is being shared and the implications. For most children under the age of eight years in a nursery or out of school childcare and early education context, consent to share is sought from the parent, or from a person who has parental responsibility.
- Young persons (16-19 years) are capable of informed consent. Some children from age 13 onwards may have capacity to consent in some situations. Where they are deemed not to have capacity, then someone with parental responsibility must consent. If the child is capable and gives consent, this may override the parent's wish not to give consent.

- Adults at risk due to safeguarding concerns must be deemed capable of giving or withholding consent to share information about them. In this case ‘mental capacity’ is defined in terms of the Mental Capacity Act 2005 Code of Practice (Office of the Public Guardian 2007). It is rare that this will apply in the context of the setting.

Ways in which consent to share information can occur

- Policies and procedures set out the responsibility of the setting regarding gaining consent to share information, and when it may not be sought or overridden.
- Information in leaflets to parents, or other leaflets about the provision, including privacy notices.
- Consent forms signed at registration (for example to apply sun cream).
- Notes on confidentiality included on every form the parent signs.
- Parent signatures on forms giving consent to share information about additional needs, or to pass on child development summaries to the next provider/school.

Client access to records

Under the General Data Protection Regulations there are additional rights granted to data subjects which must be protected by the setting.

The parent is the 'subject' of the file in the case where a child is too young to give 'informed consent' and has a right to see information that the setting has compiled on them.

- If a parent wishes to see the file, a written request is made, which the setting acknowledges in writing, informing the parent that an arrangement will be made for him/her to see the file contents, subject to third party consent.
- Information must be provided within 30 days of receipt of request. If the request for information is not clear, the manager must receive legal guidance, for instance, from Law-Call for members of the Alliance. In some instances it may be necessary to allow extra time in excess to the 30 days to respond to the request. An explanation must be given to the parent where this is the case. The maximum extension time is 2 months.
- A fee may be charged to the parent for additional requests for the same material, or any requests that will incur excessive administration costs.
- The setting manager informs their line manager and legal advice is sought.
- The setting manager goes through the file with their line manager and ensures all documents are filed correctly, entries are in date order and that there are no missing pages. They note any information, entry or correspondence or other document which mentions a third party. The setting manager should always ensure that recording is of good quality, accurate, fair, balanced and proportionate and should have quality assurance processes in place to ensure that files are checked for quality regularly and that any issues are addressed promptly.
- Each of those individuals are written to explaining that the subject of the file has requested sight of the file which contains a reference to them, stating what this is.
- They are asked to reply in writing to the setting manager giving or refusing consent for disclosure of that material.
- Copies of these letters and their replies are kept on the child's file.
- Agencies will normally refuse consent to share information, and the parent should be redirected to those agencies for a request to see their file held by that agency.

- Entries where you have contacted another agency may remain, for example, a request for permission from social care to leave in an entry where the parent was already party to that information.
- Each family member noted on the file is a third party, so where there are separate entries pertaining to each parent, step-parent, grandparent etc, each of those have to be written to regarding third party consent.
- Members of staff should also be written to, but the setting reserves the right under the legislation to override a refusal for consent, or just delete the name and not the information.
 - If the member of staff has provided information that could be considered 'sensitive', and the staff member may be in danger if that information is disclosed, then the refusal may be granted.
 - If that information is the basis of a police investigation, then refusal should also be granted.
 - If the information is not sensitive, then it is not in the setting's interest to withhold that information from a parent. It is a requirement of the job that if a member of staff has a concern about a child and this is recorded; the parents are told this at the start and in most cases, concerns that have been recorded will have been discussed already, so there should be no surprises.
 - The member of staff's name can be removed from an entry, but the parent may recognise the writing or otherwise identify who had provided that information. In the interest of openness and transparency, the setting manager may consider overriding the refusal for consent.
 - In each case this should be discussed with members of staff and decisions recorded.
- When the consent/refusals have been received, the setting manager takes a photocopy of the whole file. On the copy file the document not to be disclosed is removed (e.g. a case conference report) or notes pertaining to that individual in the contact pages blanked out using a thick marker pen.
- The copy file is then checked by the line manager and legal advisors verify that the file has been prepared appropriately, for instance, in certain circumstances redaction may be appropriate, for instance if a child may be damaged by their data being seen by their parent/carers, e.g. if they have disclosed abuse. This must be clarified with the legal adviser.
- The 'cleaned' copy is then photocopied again and collated for the parent to see.

- The setting manager informs the parent that the file is now ready and invites him/her to make an appointment to view it.
- The setting manager and their line manager meet with the parent to go through the file, explaining the process as well as what the content records about the child and the work that has been done. Only the persons with parental responsibility can attend that meeting, or the parent's legal representative or interpreter.
- The parent may take a copy of the prepared file away, but it is never handed over without discussion.
- It is an offence to remove material that is controversial or to rewrite records to make them more acceptable. If recording procedures and guidelines have been followed, the material should reflect an accurate and non-judgemental account of the work done with the family.
- If a parent feels aggrieved about any entry in the file, or the resulting outcome, then the parent should be referred to the Complaints procedure for parents and service users.
- The law requires that information held must be accurate, and if a parent says the information held is inaccurate then the parent has a right to request it to be changed. However, this only pertains to factual inaccuracies. Where the disputed entry is a matter of opinion, professional judgement, or represents a different view of the matter than that held by the parent, the setting retains the right not to change the entry but can record the parent's view. In most cases, a parent would have had the opportunity at the time to state their side of the matter, and this should have been recorded there and then.
- If there are any controversial aspects of the content of a client's file, legal advice must be sought. This might be where there is a court case between parents or where social care or the police may be considering legal action, or where a case has already completed and an appeal process is underway.
- A setting should never 'under-record' for fear of the parent seeing, nor should they make 'personal notes' elsewhere.

Transfer of records

Records about a child's development and learning in the EYFS are made by the setting; to enable smooth transitions, appropriate information is shared with the receiving setting or school at transfer. Confidential records are passed on securely where there have been concerns, as appropriate.

Transfer of development records for a child moving to another early years setting or school

- It is the designated person's responsibility to ensure that records are transferred and closed in accordance with the archiving procedures, set out below.
- If the Local Safeguarding Partners (LSP) retention requirements are different to the setting, the designated person will liaise with their line manager, and seek legal advice if necessary.

Development and learning records

- The key person prepares a summary of achievements in the prime and specific areas of learning and development
- This record refers to any additional languages spoken by the child and their progress in all languages.
- The record also refers to any additional needs that have been identified or addressed by the setting and any action plans.
- The record also refers to any special needs or disability and whether early help referrals, or child in need referrals or child protection referrals, were raised in respect of special educational needs or disability, whether there is an Action Plan (or other relevant plan, such as CIN or CP, or early help) and gives the name of the lead professional.
- The summary shared with schools should also include whether the child is in receipt of, or eligible for EYPP or other additional funding.
- The record contains a summary by the key person and a summary of the parents' view of the child.
- The document may be accompanied by other evidence such as photos or drawings that the child has made.
- The setting will use the local authority's assessment summary format or transition record, where these were provided.
- Whichever format of assessment summary is used, it should be completed and shared with the parent prior to transfer.

Transfer of confidential safeguarding and child protection information

- The receiving school/setting will need a record of child protection concerns raised in the setting and what was done about them. The responsibility for transfer of records lies with the originating setting, not on the receiving setting/school to make contact and request them.
- To safeguard children effectively, the receiving setting must be made aware of any current child protection concerns, preferably by telephone, prior to the transfer of written records.
- Parents should be reminded that sensitive information about their child is passed onto receiving settings where there have been safeguarding concerns and should be asked to agree to this prior to the information being shared. Settings are obliged to share data linked to “child abuse” which is defined as physical injury (non-accidental) physical and emotional neglect, ill treatment and abuse.
- Parents/carers should be asked to agree to this, however, where safeguarding concerns have reached the level of a referral being made to local children’s social work services (either due to concerns that a child may be at risk of significant harm or that a child may be in need under Section 17 of the Children Act,) if consent is withheld the information will most likely need to be shared anyway. It is important that any decisions made to share or not share with or without consent are fully recorded.
- For any safeguarding or welfare concerns that resulted in an early help referral being made, and if consent to share is withheld, legal advice is sought prior to sharing.
- If the level of a safeguarding concern has not been such that a referral was made for early help, or to children’s social work services or police, the likelihood is that any concerns were at a very low level and if they did not meet the threshold for early help, they are unlikely to need to be shared as child abuse data with a receiving setting, however, the designated person should make decisions on a case by case basis, seeking legal advice is necessary.
- The designated person should check the quality of information to be transferred prior to transfer, ensuring that any information to be shared is accurate, relevant, balanced and proportionate. Parents can request that any factual inaccuracies are amended prior to transfer.
- If a parent wants to see the exact content of the safeguarding information to be transferred, they should go through the subject access request process. It is important that a child or other person is not put at risk through information being shared.
- If no referrals have been made for early help or to children’s social work services and police, there should not normally be any significant information which is unknown to a parent being shared with the receiving school or setting.

- If a parent has objections or reservations about safeguarding information being transferred to the new setting, or if it is unclear what information should be included, the designated person will seek legal advice.
- In the event that LSP requirements are different to the setting's this must be explained to the parent, and a record of the discussion should be signed by parents to indicate that they understand how the information will be shared, in what circumstances, and who by.
- Prior to sharing the information with the receiving setting the designated person should check LSP retention procedures and if it becomes apparent that the LSP procedures are materially different to setting's procedures this is brought to the attention of the designated person's line manager, who will agree how to proceed.
- If a child protection plan or child in need plan is in place, the Child welfare and protection summary is also photocopied and a copy is given to the receiving setting or school, along with the date of the last professional meeting or case conference.
- If a S47 investigation has been undertaken by the local authority a copy of the child welfare and protection concern summary form is given to the receiving setting/school.
- Where a CAF/early help assessment has been raised in respect of welfare concerns, the name and contact details of the lead professional are passed on to the receiving setting or school.
- If the setting has a copy of a current plan in place due to early help services being accessed, a copy of this should be given to the receiving setting, with parental consent.
- Where there has been a S47 investigation regarding a child protection concern, the name and contact details of the child's social worker will be passed on to the receiving setting/school, regardless of the outcome of the investigation.
- Where a child has been previously or is currently subject to a child protection plan, or a child in need plan, the name and contact details of the child's social worker will be passed onto the receiving setting/school, along with the dates that the relevant plan was in place for.
- This information is posted (by 'signed for' delivery) or taken to the school/setting, addressed to the setting's or school's designated person for child protection and marked confidential. Electronic records must only be transferred by a secure electronic transfer mechanism, or after the information has been encrypted.
- Parent/carers should be made aware what information will be passed onto another setting via our Privacy notice.
- Copies of the last relevant initial child protection conference/review, as well as the last core group or child in need minutes can be given to the setting/school.

- The setting manager must review and update the Child welfare and protection summary, checking for accuracy, proportionality, and relevance, before this is copied and sent to the setting/school.
- The setting manager ensures the remaining file is archived in line with the procedures set out below.

No other documentation from the child's personal file is passed to the receiving setting or school. The setting keeps a copy of any safeguarding records in line with required retention periods.

Archiving children's files

- Paper documents are removed from the child's file, taken out of plastic pockets and placed in a robust envelope, with the child's name and date of birth on the front and the date they left.
- The designated person writes clearly on the front of the envelope the length of time the file should be kept before destruction.

This is sealed and placed in an archive box and stored in a safe place i.e. a locked cabinet for three years or until the next Ofsted inspection conducted after the child has left the setting, and can then be destroyed.

- For web-based or electronic children's files, the designated person must also use the archiving procedure, and records details of what needs to be retained/destroyed. The designated person must make arrangements to ensure that electronic files are deleted/retained as required in accordance with the required retention periods in the same way as paper based files.

Health and safety records and some accident records pertaining to a child are stored in line with required retention periods.

PRIVACY NOTICE FOR CHILDREN, PARENTS AND GUARDIANS

Privacy Notice (How we use pupil information) updated Sept 2021

Why do we collect and use pupil information?

Willaston Pre-school collects and processes pupil information as part of our public functions under both the Data Protection Act 1998 and General Data Protection Regulation. An example of this is the early years' census return which is a statutory requirement under Section 99 of the Childcare Act 2006 and The Education (Provision of Information About Young Children) (England) Regulations 2009.

We use the personal data:

- to support pupil learning
- to monitor and report on pupil progress
- to provide appropriate pastoral care
- to assess the quality of our services
- access the funded early years educational entitlement

The categories of pupil information that we collect, hold and share include:

- Personal information (such as name, date of birth and address and other contact details)
- Characteristics (such as ethnicity, funded hours and extended hours)
- Special educational needs information

Collecting pupil information

Whilst the majority of pupil information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the General Data Protection Regulation, we will inform you whether you are required to provide certain pupil information to us or if you have a choice in this.

Storing pupil data

We hold pupil data in line with Cheshire East requirements.

How will my information be stored?

We store information in hard copy and also on a computer harddrive which is password protected.

Who do we share pupil information with?

We routinely share pupil information with:

- our local authority
- the Department for Education (DfE)
- other providers or schools as appropriate when a child leaves

Why we share pupil information

We do not share information about our pupils with anyone without consent unless the law allows us to do so.

We share pupils' data with the Department for Education (DfE) on a statutory basis. This data sharing underpins funding and educational attainment policy and monitoring.

Data collection requirements:

To find out more about the data collection requirements placed on us by the Department for

Education (for example; via the early years' census) go to <https://www.gov.uk/childcare-parenting/data-collection-for-early-years-and-childcare>

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the pupil information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested:
- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data in compliance with the GDPR.

For more information about the department's data sharing process, please visit:

<https://www.gov.uk/data-protection-how-we-collect-and-share-research-data>

For information about which organisations the department has provided pupil information, (and for which project), please visit the following website:

<https://www.gov.uk/government/publications/national-pupil-database-requests-received>

To contact DfE: <https://www.gov.uk/contact-dfe>

Will this information be used to take automated decisions about me? No.

Will my data be transferred abroad and why? No.

Requesting access to your personal data

You have the right under the Data Protection Act 1998 (General Data Protection Regulation) to request a copy of your information and to know what it is used for and how it has been shared. This is called the right of subject access.

To make a request for your personal information, or be given access to your child's educational record, contact our administrator, Debbie Reyland, at wilastonpreschool@gmail.com.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress
- prevent processing for the purpose of direct marketing
- object to decisions being taken by automated means
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- claim compensation for damages caused by a breach of the Data Protection regulations

If you have a concern about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner's Office at <https://ico.org.uk/concerns/>

Contact:

If you would like to discuss anything in this privacy notice, please contact our administrator at wilastonpreschool@gmail.com

Low level concerns and allegations of serious harm or abuse against staff, volunteers or agency staff

Concerns may come from a parent, child, colleague or member of the public. Allegations or concerns must be referred to the designated person without delay - even if the person making the allegation later withdraws it.

What is a low-level concern?

The NSPCC defines a low-level concern as *'any concern that an adult has acted in a way that:*

- *is inconsistent with the staff code of conduct, including inappropriate conduct outside of work*
- *doesn't meet the threshold of harm or is not considered serious enough...to refer to the local authority.*

Low-level concerns are part of a spectrum of behaviour. This includes:

- *inadvertent or thoughtless behaviour*
- *behaviour that might be considered inappropriate depending on the circumstances*
- *behaviour which is intended to enable abuse*

Examples of such behaviour could include:

- *being over friendly with children*
- *having favourites*
- *adults taking photographs of children on their mobile phone*
- *engaging with a child on a one-to-one basis in a secluded area or behind a closed door*
- *using inappropriate sexualised, intimidating or offensive language'*

(NSPCC [Responding to low-level concerns about adults working in education](#))

Responding to low-level concerns

Any low-level concerns about the conduct of staff, students or volunteers must be shared with the designated person and recorded on 06.02a Low level concerns form. The designated person should be informed of all low-level concerns and make the final decision on how to respond. Where appropriate this can be done in consultation with their line manager.

Reporting low-level concerns about the conduct of a colleague, student or volunteer contributes towards a safeguarding culture of openness and trust. It helps ensure that adults consistently model the setting's values and helps keep children safe. It protects adults working in the setting from potential false allegations or misunderstandings.

If it is not clear that a low-level concern meets the local authority threshold, the designated person should contact the LADO for clarification.

In most instances, low-level concerns about staff conduct can be addressed through supervision, training, or disciplinary processes where an internal investigation may take place.

Identifying

An allegation against a member of staff, volunteer or agency staff constitutes serious harm or abuse if they:

- behaved in a way that has harmed, or may have harmed a child
- possibly committed a criminal offence against, or related to, a child
- behaved towards a child in a way that indicates they may pose a risk of harm to children
- behaved or may have behaved in a way that indicates they may not be suitable to work with children

Informing

- All staff report allegations to the designated person.
- The designated person alerts the designated officer. If the designated officer is unavailable the designated person contacts their equivalent until they get a response- which should be within 3-4 hours of the event. Together they should form a view about what immediate actions are taken to ensure the safety of the children and staff in the setting, and what is acceptable in terms of fact-finding.
- It is essential that no investigation occurs until and unless the LADO has expressly given consent for this to occur, however, the person responding to the allegation does need to have an understanding of what explicitly is being alleged.
- The designated person must take steps to ensure the immediate safety of children, parents, and staff on that day within the setting.
- The Local Authority Designated Officer (LADO) is contacted as soon as possible and within one working day. If the LADO is on leave or cannot be contacted the LADO team manager is contacted and/or advice sought from the point of entry safeguarding team/mash/point of contact, according to local arrangements.

- A child protection referral is made by the designated person if required. The LADO, line managers and local safeguarding children's services can advise on whether a child protection referral is required.
- The designated person asks for clarification from the LADO on the following areas:
 - what actions the designated person must take next and when and how the parents of the child are informed of the allegation
 - whether or not the LADO thinks a criminal offence may have occurred and whether the police should be informed and if so who will inform them
 - whether the LADO is happy for the setting to pursue an internal investigation without input from the LADO, or how the LADO wants to proceed
 - whether the LADO thinks the person concerned should be suspended, and whether they have any other suggestions about the actions the designated person has taken to ensure the safety of the children and staff attending the setting
- The designated person records details of discussions and liaison with the LADO including dates, type of contact, advice given, actions agreed and updates on the child's case file.
- Parents are not normally informed until discussion with the LADO has taken place, however in some circumstances the designated person may need to advise parents of an incident involving their child straight away, for example if the child has been injured and requires medical treatment.
- Staff do not investigate the matter unless the LADO has specifically advised them to investigate internally. Guidance should also be sought from the LADO regarding whether or not suspension should be considered. The person dealing with the allegation must take steps to ensure that the immediate safety of children, parents and staff is assured. It may be that in the short-term measures other than suspension, such as requiring a staff member to be office based for a day, or ensuring they do not work unsupervised, can be employed until contact is made with the LADO and advice given.
- The designated person ensures staff fill in 06.1b Safeguarding incident reporting form.
- If after discussion with the designated person, the LADO decides that the allegation is not obviously false, and there is cause to suspect that the child/ren is suffering or likely to suffer significant harm, then the LADO will normally refer the allegation to children's social care.

- If notification to Ofsted is required the designated person will inform Ofsted as soon as possible, but no later than 14 days after the event has occurred. The designated person will liaise with the designated officer about notifying Ofsted.
- The designated person ensures that the 06.1c Confidential safeguarding incident report form is completed and sent to the designated officer. If the designated officer is unavailable their equivalent must be contacted.
- Avenues such as performance management or coaching and supervision of staff will also be used instead of disciplinary procedures where these are appropriate and proportionate. If an allegation is ultimately upheld the LADO may also offer a view about what would be a proportionate response in relation to the accused person.
- The designated person must consider revising or writing a new risk assessment where appropriate, for example if the incident related to an instance where a member of staff has physically intervened to ensure a child's safety, or if an incident relates to a difficulty with the environment such as where parents and staff are coming and going and doors are left open.
- All allegations are investigated even if the person involved resigns or ceases to be a volunteer.

Allegations against agency staff

Any allegations against agency staff must be responded to as detailed in this procedure. In addition, the designated person must contact the agency following advice from the LADO

Allegations against the designated person

- If a member of staff has concerns that the designated person has behaved in a way that indicates they are not suitable to work with children as listed above, this is reported to the designated officer who will investigate further.
- During the investigation, the designated officer will identify another suitably experienced person to take on the role of designated person.
- If an allegation is made against the designated officer, then the owners/directors/trustees are informed.

Recording

- A record is made of an allegation/concern, along with supporting information, using the Low level concerns form. This is then entered on the file of the child, and the 06.1a Child welfare and protection summary is completed and placed in the front of the child's file.

- If the allegation refers to more than one child, this is recorded in each child's file
- If relevant, a child protection referral is made, with details held on the child's file.

Disclosure and Barring Service

- If a member of staff is dismissed because of a proven or strong likelihood of child abuse, inappropriate behaviour towards a child, or other behaviour that may indicate they are unsuitable to work with children such as drug or alcohol abuse, or other concerns raised during supervision when the staff suitability checks are done, a referral to the Disclosure and Barring Service is made.

Escalating concerns

- If a member of staff believes at any time that children may be in danger due to the actions or otherwise of a member of staff or volunteer, they must discuss their concerns immediately with the designated person.
- If after discussions with the designated person, they still believe that appropriate action to protect children has not been taken they must speak to the designated officer.
- If there are still concerns then the whistle blowing procedure must be followed, as set out our Safeguarding Policy.

Complaints procedure for parents and service users

There is a fair way of dealing with issues as they arise in an informal way, but parents may wish to exercise their right to make a formal complaint. They are informed of the procedure to do this and complaints are responded to in a timely way. The same procedures apply to agencies who may have a grievance or complaint. Willaston Pre-school provide a compliments and complaints book that parents can comment in. The manager and deputy will check the book before storing it in a locked cupboard each day.

Parents

- If a parent is unhappy about any aspect of their child's care or how he/she feels he/she has been treated, this should be discussed with the child's key person. The key person will listen to the parent and acknowledge what he/she is unhappy about. The key person will offer an explanation and an apology if appropriate. The issue and how it was resolved is recorded in the child's file and Complaint Investigation Record. The recording will also make clear whether the issue being raised relates to a concern about quality of the service or practice, or a complaint. For allegations relating to serious harm to a child caused by a member of staff or volunteer the procedure Allegations against staff, volunteers or agency staff will be followed.
- If the parent is not happy with the key person's response or wishes to complain about the key person or any other member of staff, he/she will be directed to the setting manager. Some parents will want to make a written complaint; others will prefer to make it verbally, in which case the setting manager writes down the main issues of the complaint using the Complaint Investigation Record and keeps it in the child's file.
- The setting manager will investigate the complaint and provide time to feedback to the parent within 28 days. A confidential written report of the investigation is kept in the child's file if the complaint relates directly to a child.
- If the parent is still not satisfied, or if the complaint is about the setting manager, the setting manager is asked to forward their complaint verbally or in writing to their line manager Christine Taylor.
- If the parent is still not satisfied, then he/she is entitled to appeal the outcome verbally or in writing to the setting manager's line manager, Christine Taylor, who will pass the matter on to the Committee for further investigation, who will respond to the parent within a further 14 days.
- If the complainant believes that the matter has not been resolved and there has been a breach of the EYFS requirements they are entitled to make a complaint to Ofsted. The manager will

assist in any complaint investigation as well as in producing documentation that records the steps that were taken in response to the original complaint.

- The setting manager ensures that parents know they can complain to Ofsted by telephone or in writing at any time as follows:

Applications, Regulatory and Contact (ARC) Team, Ofsted, Piccadilly Gate, Store Street,
Manchester M1 2WD or telephone: 0300 123 1231

Agencies

- If an individual from another agency wishes to make a formal complaint about a member of staff or any practice of the setting, it should be made in writing to the setting manager.
- The complaint is acknowledged in writing within 10 days of receiving it.
- The setting manager investigates the matter and meets with the individual to discuss the matter further within 28 days of the complaint being received.
- An agreement needs to be reached to resolve the matter.
- If agreement is not reached, the complainant may write to the setting manager's line manager, who acknowledges the complaint within 5 days and reports back within 14 days.
- If the complainant is not satisfied with the outcome of the investigation, they are entitled to appeal and are referred to the Committee.

Ofsted complaints record

- Legislation requires settings to keep a record of complaints and disclose these to Ofsted at inspection, or if requested by Ofsted at any other time.
- The record of complaints is a summative record only.

A record of complaints will be kept for at least 3 years.

- In all cases where a complaint is upheld a review will be undertaken by the Committee to look for ways to improve practice where it is required.

This procedure is displayed on the Parent Notice Board.

Student placements

Qualifications and training make an important contribution to the quality of care and education. As part of our commitment, we may offer placements to students undertaking relevant qualifications/training. We aim to provide students experiences that will contribute to the successful completion of their studies and provide examples of quality practice in early years care and education.

- The setting manager ensures that students meet the 'suitable person' requirements.
- The setting manager discusses the aim of the placement with the student's tutor prior to the placement commencing. The expectations of both parties are agreed at this point.
- The good character of students under 17 years old is vouched for by the establishment that places them, the setting manager must be satisfied that all relevant checks have been made.
- Students do not have unsupervised access to children.
- Students and apprentices who are undertaking L3 or above may be counted in ratios if the setting manager is convinced that they are suitably experienced.
- Employed trainee staff over the age of 17 may be included in staffing ratios if deemed competent.
- Staff working as apprentices (aged 16 or over) may be included in staffing ratios if deemed competent.
- Public liability and employer's liability insurance is in place that covers students and voluntary helpers.
- Students are aware of confidentiality.
- Student induction includes how the setting and sessions are managed, and policies and procedures, in particular safeguarding, confidentiality and health and safety.
- Appropriate members of staff co-operate with students' tutors to assist them in fulfilling the requirements of their course of study.
- The setting communicates a positive message to students about the value of qualifications and training.
- The needs of the children and their families remain paramount at all times and students are only admitted in numbers that do not hinder the work of the setting.

The setting manager ensures that students and trainees on placement are engaged in bona fide early years training, which provides the necessary background understanding of children’s development and activities.

Short trips, outings and excursions

Planning and preparation

- Outings have a purpose with specific learning and development outcomes.
- If staff are 'borrowed' from another area to maintain ratios on an outing they are fully briefed about the children they are accompanying.
- The excursion does not go ahead if concerns are raised about its viability at any point.
- Parents are informed of an outing and staff check that consent forms on children's registration were signed.
- A minimum of two staff accompany children on outings. There is a ratio of 1:2 for some disabled children. Children up to 3 years will have a 1-2 ratio unless they are restrained in a buggy. Older children have a ratio of 1:5, depending on the risk assessment.
- Children are specifically allocated to each member of staff/volunteer; they are responsible for supervising their designated children for the duration of the excursion.
- Parents on outings are responsible for their own children only.
- Parents who have undergone vetting as volunteers may be included in the ratio.
- A mobile phone belonging to the setting, and small first aid kit is taken out.
- Staff make sure they have water, plastic cups, spare nappies/change of clothes and wet wipes for the children going out appropriate to the length of time they are out for.
- Sun cream is applied as needed and children are clothed appropriately
- Children wear 'high viz' vests. Adults accompanying them also wear high viz vests with the name and number of the setting.
- Staff have emergency contacts, medication and equipment needed for children.

Risk assessment

- Risk assessment is completed prior to the outing and signed off by the setting manager and all staff taking part. Existing risk assessments are reviewed/amended as required.
- Children with specific needs have a separate risk assessment if necessary.

Outing venue (larger outings)

- Venues used regularly are 'risk assessed' and an initial pre-visit is made to look at the health and safety aspects. If pre-visits cannot be made, risk assessment is achieved by calling the venue and asking for their risk assessment.

Transport

- If coach hire is required for an outing, only reputable companies are used.
- The setting manager ensures that seat belts are provided on the coach and that booster seats and child safety seats are used as appropriate to the age of the children.
- The maximum seating capacity of the coach or minibus is not exceeded.
- Contracted drivers are not counted in ratios.
- Public transport should always be ratio of 1-2 (unless agreed with the setting manager).

Where transport is provided by the setting

- Records are kept including insurance details and a list of named drivers.
- Drivers using their own transport should have adequate insurance cover.

Forest School and Beach School sessions (not on site)

- A separate risk assessment is conducted, and Forest/Beach School standard procedures are followed.
- The sessions always have a level 3 trained forest school or beach school educator.

Farm and zoo visits

Staff are aware of the risks posed by infections such as E.coli being contracted from animals. They are also aware of toxic substances used on farms that could be hazardous to health. Staff are vigilant of the natural dangers presented by a farm or zoo visit and conduct a risk assessment prior to the visit.

- The venue is contacted in advance of the visit to ensure no recent outbreaks of E.coli or other infections. If there has been an outbreak the visit will be reviewed and may be postponed.
- Hands are washed and dried thoroughly after touching an animal.
- Nothing is consumed whilst going round the farm. Food is eaten away from animals, after thoroughly washing hands.

- Children are prevented from putting their faces against animals or hands in their own mouths.
- If animal droppings are touched, hands are washed and dried immediately.
- Shoes are cleaned and hands washed thoroughly as soon as possible on departure.
- Staff or volunteers who are or may be pregnant, should avoid contact with pregnant ewes and may want to consult their own GP before the visit.
- Farmers have a responsibility to ensure that hand washing and drying facilities are available and are suitably located, that picnic areas are separate and clean, and that all other health and safety laws are fully observed.

For further guidance, refer to the insurance provider.

Larger outings checklist

There is an identified lead person for the outing.

- The outing has an educational purpose and has been agreed with the setting manager.
- Risk assessments completed/updated and shared with every staff, student/volunteer accompanying the children.
- Staff understand the potential risks when they are out with children and takes all reasonable measures to remove minimise risks.
- Bouncy castles and similar attractions are not accessed by children on an excursion.
- The designated lead educator is the last to leave the venue, or transport being used.
- The designated lead conducts a 'safety sweep' before during and after the outing.

Managing a suspected case of Covid-19

The main symptoms of Covid-19 are:

- a high temperature
- a new continuous cough – this means coughing a lot, for more than an hour, or three or more coughing episodes in 24 hours
- a loss of change to smell or taste – this means they cannot smell or taste anything, or things smell or taste different to normal

Willaston Pre-school will refer to the latest government guidance on next-steps-for-living-with-COVID.
